FORGING THE DIOCESAN LINK.

The steps that are being taken to form a guild for the Diocese of Peterborough appear likely to lead to success. The scheme that is now being worked out is something more than a federation of existing societies in the diocese; it will, if carried through, result in the amalgamation of the Central Northants Association and the other smaller organisations in the area into one complete whole. Investigation has shown that an independent existence, with membership of an organisation which would have little beyond a title, would have, for those societies which joined hands, many drawbacks and none of the advantages of a properly constituted diocesan guild. In their decision to formulate a scheme of amalgamation, therefore, we think the associations concerned have done rightly.

The attitude of the Midland Counties' Association in this matter is a very straightforward one. It can be readily understood that an association, which has for forty years had the allegiance of certain towers, would not wish wholly to part with them, but they place no obstacles in the way of those towers, which are in the diocese of Peterborough, joining the proposed diocesan association if they desire to do so. All they ask is that they shall not sever themselves from the Midland Counties' Association. It has to be remembered that the number of towers in the area of the Midland Counties' Association which are affected is comparatively few, and even if they do not come into the scheme, they are not likely to jeopardise the prospects of carrying it to a successful issue.

What strikes us as the most gratifying feature about the new proposal is that it emanated from the Bishop of the Diocese, thus showing in yet another direction that Church recognition of ringers is becoming more and more an actual fact—becoming, indeed, a thing that is real instead of merely an ideal. In the days when many of our associations were formed, ringers were so far apart from church organisation that many of them failed to identify themselves with their dioceses. They established themselves within territorial boundaries, which may or may not have been coterminous with a diocese, and adopted county or district titles. The passing years have witnessed a growing tendency for ringing organisations to become more and more recognised as a definite branch of church work, and it is certainly a big step in that direction when a Bishop gathers round him the representatives of a number of societies and asks them to form a diocesan federation. The future of the art of bell ringing will be more and more locked up in the care of the Church, to whom, indeed, we may, in time to come, have to look to safeguard our interests. Anything, therefore, which tends to draw tighter the bonds between us may be of inestimable value in the future.

'THE YOUNG MAN' OF BIRMINGHAM.

MR. JAMES GEORGE A SEPTUAGENARIAN.

Like Peter Pan, who refused to grow up, James George refuses to grow old. The years seem to pass him by and the whirling of time leaves him apparently as young as ever. Last week he celebrated his seventieth birthday—reached, in fact, the allotted span—but he remains a man in the prime of life. At an age when most ringers seek out the light end in a peal, Mr. George is clamouring for something heavier and yet more heavy than anything he has yet rung, and while there is, at present, no truth in the rumour that the back eight of the Loughborough carillon are to be hung for ringing, the man for the four-ton tenor, if the bells are made pealable within the next twenty years, is James George, of Birmingham!

This last statement may perhaps be a little flight of fancy, but one wonders where Mr. George would stop in the worlds he seeks to conquer were it not for the limitations which the size of existing bells and ringing restrictions impose upon his efforts. Within a week or two of his seventieth year he has turned in Southwark tenor and rung Bow tenor to a peal of Stedman Cinques, and that, too, within practically a few days of another not unknown ringer giving up the job at Cheapside. After these two performances in London, Mr. George's task on his 70th birthday, which was to ring the eleventh at St. Martin's, Birmingham, was comparative child's play.

Mr. George's ringing career is a story that has more than once been told, and there is no need to repeat it here. He continues to range at large over the country 'seeking what he may devour' by way of heavy bell jobs, and, if it were the practice for ringers to advertise their qualifications, well might he announce 'no undertaking too large and none too small.' It has become almost a regular thing for Mr. George to ring a peal in some distant part of the country on a Saturday evening, travel to Birmingham through the night, and, arriving home with the milk on Sunday, be in his place for service ringing in the morning. We do not know who holds the record for mileage covered in pursuit of peal ringing, but few men can have a bigger average than Mr. George, who can still claim, we believe, to have rung peals in more twelve bell towers than any other ringer.

His seventieth birthday was, as already indicated, fittingly celebrated among his own friends at Birmingham. A peal of Stedman Cinques, specially composed for the occasion by his old friend, Mr. John Carter, and consisting of 5,070 changes, was rung, visitors taking part in the peal, being Messrs. W. H. Fussell, of Slough, who by a coincidence celebrated the fortieth anniversary of his first peal at Birmingham; J. H. Shepherd, of Swindon, although, perhaps, he hardly comes within the designation of 'visitor,' and Ernest Morris, of Leicester.

Afterwards the band enjoyed the hospitality of the septuagenarian (yes, despite his youth, we may now really and truly call him that), and Mr. George was the recipient of many good wishes. His ringing friends throughout the country will join in the congratulations, and all, we can add is, 'more power to his elbow!'

The conductor of the birthday peal, Mr. Albert Walker, will send the composition to anyone desiring to have it, if they will apply to 81, Baker Street, Sparkhill, Birmingham.

PAYHEMBURY CHURCH BELLS.

A RESTORED PEAL.

A large congregation assembled at St. Mary's Church, Payhembury, Devon, on Saturday afternoon, November 10th, on the occasion of the reopening of the bells. These six bells have been rehung in a new iron frame, and the tenor has been recast by Messrs. Gillett and Johnston, of Croydon.

The Rev. L. B. Stallard, Vicar of Ottery, and chairman of the East Devon Branch of the Devonshire Guild, gave a splendid address. In the course of his remarks, he said that the bells, in the words of an old parishioner of his, belonged to all of them. He thought it was a splendid work the villagers had undertaken.

The bells were opened by the Ottery St. Mary band. Subsequently bands of ringers from Uffculme, Sidmouth, Clyst Hydon, Broadhembury, Honiton, Bucknell, and Plymtree, tried the bells, and all expressed their satisfaction with the 'go.' The Rev. H. L. Parry, Vicar of Payhembury, gave a welcome to the various bands.

The rehanging of the bells has been most satisfactorily carried out by Messrs. Gillett and Johnston. The ringing throughout the day was greatly appreciated, and the striking was good. The day was brought to a close by the members of the Payhembury band ringing the last touch.

After tea the Exeter men gave a good demonstration of handbell ringing. Amongst those present was Mr. E. Shepherd, president of the Exeter Branch of the Guild.

LANCASHIRE SURPRISE.

To the Editor.

Dear Sir,—After testing the feeling of Lancashire ringers generally, the Oswaldtwistle company feel they have no option but to let the name of Lancashire Surprise Major remain, though in naming new methods, the Exercise ought to have some guidance. For the Parish Church Ringers, JAMES HOULDSWORTH, Captain.

'SILENT' SURPRISE MINOR.*To the Editor.*

Sir,—In reply to Mr. Dawson's query, I would say at the outset that he is not in error in thinking that the first true and legitimate 'Silent' Surprise peal has yet to be rung. On Saturday, April 6th, 1897, we rang at Bucknall, Staffs, what was considered at that time a genuine Surprise peal, silent, in the following methods: London, Chester, Cambridge, York, Superlative, Worcester and Bristol. But in the year 1906 the committee of the Central Council came along, laid hold of Worcester and Bristol by the scruff of the neck and bundled them out of the Surprise class, and also issued a very grave threat to Superlative, if it didn't behave itself. However, they allowed it to remain under sufferance where, I am sure, it must feel an alien. It would have been far more kind to have packed it off with the other two. This was nine years after our peal was rung, and was a very serious matter for us, as it relegated our peal from a Surprise to a Treble Bob category. Had we rung a couple of twin methods, say, Wells with London and Durham with York, we should have been within the pale of the Surprise class, but we purposely avoided this, as it is almost equivalent to ringing one method twice over. Then again, compare Worcester and Bristol with Norwich and Ipswich. This latter is simplicity itself, yet these two methods belong to the Surprise class. I only point out this to show that it is possible to select a much easier peal from amongst the Surprise Methods than the one rung at Bucknall with two 'mongrels' in it. Notwithstanding the Council's findings, it detracts not one iota from the pride we feel at this performance at Bucknall. I shall be delighted to see from 'The Ringing World' in the near future a record of the first silent peal of true and legitimate Surprise Minor, either at Milton, Leytonstone, or any other tower.

It would, perhaps, be not amiss at this juncture to say what constitutes a 'silent' peal, as it may not be generally known, and it is well to put it before the Exercise occasionally.

1. There should be no intimation whatever given as to when the bobs should be made.
2. If a ringer should happen to make a slip, the others are not allowed to help him, as it would be a disqualification.

This is, as I understand, a 'silent' peal; no sound whatever, except that caused by the bells and ropes. It is very trying to the nerves; in fact, my brother swore he wouldn't go through the ordeal again. He said it was like being in a vault.—Yours sincerely,

Milton, Staffs.

JOHN E. WHEELDON.

**DOUBLE 'JUBILEE' AT MANSFIELD.
STORY OF A RINGERS' 'STRIKE.'**

Two ringers at the Parish Church, Mansfield, have each completed fifty years of service. They are Mr. George Hardstaff and Mr. Frank May. The former joined the church choir as far back as 1868, and two years later, when the ringers went out on strike, he found a place in the belfry. Mr. Frank May became a ringer in the year following the strike, and since then they have continued with great loyalty to the church. The other day each was presented with a handsome pipe in case and a leather tobacco pouch, as a mark of the esteem in which they are held by their fellow ringers.

The presentations took place at a supper at the Church House, at which the ringers entertained the Vicar and churchwardens.

The Vicar referred to the wonderful record of faithful church work and membership by Mr. Hardstaff and Mr. May, and Mr. Carr, in handing them the gifts, said these two ringers had formed a great link between past and present ringers. Both had been unfailing in their attendance, and had set a good example to the younger generation.

One can smile in these days at the story of the strike, which resulted in these two veterans taking up bell ringing.

The ringers of that day 'came out' for an increased payment from 15s. to 20s., and Canon Bennett, who had then become Vicar, said he would give them the increase, if they would attend the service on a Sunday. It hurt the Vicar to see the ringers troop out of the church into the Ram Inn as soon as their bells had ceased to clang, so he made the proviso mentioned. The ringers, however, preferred the cosy corner of the 'Ram' to the interior of the church, listening to the theology of the Vicar, and they would not conform to his wish so they 'downed tools.' Canon Bennett set about gathering another band of ringers around him, and here are the names of a few of them: Matthew Blanksby, Bob Issett, George Sibsey, Charley James, Sampson Jones and George Jones, together with the two men recently honoured. Old Mr. Gosling, who was ringing for nearly 70 years, and who died but a few years ago, was one of the ringers who came out with the others, but after a time he returned and taught the youngsters the art of ringing. Mr. Hardstaff, in his young days, over fifty years ago, whilst at work on a building, Hermitage Mill, fell a distance of 40 feet. His head was cut open, and from the 19th of December until the following March he lay in a state of unconsciousness. He gradually recovered and once having got well again suffered no disability from the effects of the injury.

Among the other ringers at Mansfield who have long records are Messrs. Allsop, Carr and David Smith.

BELFRY GOSSIP.

Owing to illness, it has been found necessary to change the venue of the annual meeting of the Wimborne branch of the Salisbury Guild. The meeting is to be held at Wimborne Minster to-morrow, instead of at Poole, but the programme will remain the same.

The centenary of the London County Association next year is to be celebrated by a dinner, of which a preliminary announcement is made in our notice columns.

The genial hon. secretary of St. Martin's Guild, Birmingham, is the latest member of the Exercise to achieve the proud distinction of having rung one hundred peals of Stedman Cinques. Mr. A. Paddon Smith completed the 'century' in the peal rung at St. Martin's Church last week.

The advertisement of Mr. T. Milligan, turret clockmaker, of 713, London Road, Derby, appears in this issue. Ringers, we have reason to know, loyally support advertisers in our columns, and we are sure that when their church clocks need overhaul they will remember that Mr. Milligan will welcome inquiries.

The report of the handbell peal of Stedman Triples at Leiston in November has been published twice.

The new peals of eight at Nelson, Lancs. and Seaford, Sussex, which are being cast by Messrs. Mears and Stainbank, will shortly be opened.

The bells at Bridport, Dorset, a peal of eight, are to be recast and relung in new framework by the Whitechapel Foundry.

The letter of the hon. secretary of St. Martin's Guild, Birmingham, last week, correcting an error in this column with regard to the number of peals of Stedman Cinques rung on the famous bells in the Bull Ring, did not tell us what the previous paragraph ought really to have said.

The interesting forthcoming event at Birmingham is not the one hundredth peal of Stedman Cinques on the bells, which as Mr. Smith pointed out was rung before the war, but the two hundredth twelve-bell peal on the bells. This, indeed, is a more notable record than ever, and is a wonderful testimony to the consistent maintenance of a twelve-bell company in Midlandopolis for something like a hundred and fifty years.

The number of peals rung on the twelve bells at St. Martin's is now somewhere up in the 190's.

Mr. Alfred Bowell has recently been giving attention to the peal of eight (tenor about a ton) at Benenden, Kent. The estimate included quarter turning, new steel headstocks, new wheels, stays, sliders, gudgeons, bearings, pulley blocks, etc. In addition the sixth has been recast. The whole work has been carried out in a thoroughly efficient manner, and ringers who have had the pleasure of ringing at Benenden since the restoration, are all agreed that the peal is now in perfect ringing condition.

Our list of long peals is gradually being made more complete. Recently we referred to the 15,120 Bob Major at West Ham, in 1737, being a record held jointly with Oldham, where the same length was rung in 1807. Mr. Tom Russam, of Birmingham, now informs us of a 15,360 rung at Aston in October, 1793, in 9 hours 31 mins., conducted by J. Short. In 1893 Mr. Russam had the honour of conducting a centenary peal.

Forty years ago to-morrow the Collage Youths rang a peal of 11,111 Stedman Caters at All Saints', Fulham, then the longest peal in the method. No fewer than six of that band are still amongst us, viz., Messrs. F. E. Dawe (2), J. W. Rowbotham (4), C. W. Winney (5), E. Gibbs (6), E. Horrex (8) and W. Prims (10).

December 9th is the ninetieth anniversary of the peal of 10,224 Kent Treble Bob Maximus rung at Painswick. The peal in 1833 (composed and conducted by William Estcourt) long stood as the record length in the method; in fact, it was not beaten until the 12,240 was rung at Ashton-under-Lyne in 1911.

John Cox, one of London's famous old ringers, was born on Dec. 9th, 1813—just 110 years ago.

One hundred and thirty years ago next Monday, a peal of Grand-sire Caters was rung by the Junior Cumberland Society, at St. Sepulchre's, Snow Hill. At that time there was serious rivalry between the senior and the junior societies.

The first peal at St. Paul's Cathedral was rung on Dec. 10th, 1881, and we believe Mr. Ted Horrex is the only survivor of that band.

To celebrate the 65th birthday of a famous old Sussex ringer and pioneer, Mr. Harry Burstow, a 6,720 of Canterbury Pleasure Major was rung at Horsham on December 11th, 1891. Harry Burstow lived to a ripe old age, and he had a most wonderful memory. He could sing something like 400 songs, most of them of folk lore type, and many running into scores of verses.

St. Martin's Society, Birmingham, captured the then record length of Stedman Cinques on December 12th, 1848.

THE 'SMACKING OF THE SHIRES.'

To the Editor.

Dear Sir,—Lancashire and Yorkshire Surprise are both methods of at least average quality, and had they been first rung in Norfolk and Suffolk and christened Norfolk and Suffolk, no doubt the 'Euphoniacs' would have been satisfied, and nobody would have been able to insult those names by saying that 'they smack of the shires.' We Northern Shiresmen bestowed those names as an honour to those methods, we christened them after great and glorious counties; the like of which exist nowhere else in the universe; counties which from historical, clerical, commercial, or in fact, from any point of view, have honourable association with everything which has made history, both in Church and State, and painted those large patches of red on the map of the world; and the fact that these two names contained the 'terminological superfluity,' shire did not bother us one whit. We are proud of being Shiresmen of the two greatest shires the world has known, and the committee that would dictate to us as to what we should call our methods will have but short shrift and shorter term of office. Committees are elected to forward the welfare of their electorate, not in frittering away their terms of office in promulgating ways of breeding dissent and sowing irritants. Names we bestow are those we know to be the names borne by places with honoured associations or incidents connected with the history of our Church and State. We can christen our own methods; let committees carry out the duties they were elected to do; 'define limits' within which a Shiresman's choice shall operate they never shall. I know to what extent our rights of sponsorship shall be exercised if Mr. Burton does not—to the last jot—no less. If our names teem with 'terminological superfluities' those who object had better get a move on, and ring and christen the remainder of the unrung methods. Then we shan't have to offend any further the tender feelings of the 'Northfolk' in the south-east. And, by the way, what about writing to the commanding officers of the Lancashire and Yorkshire Regiments and telling them that they possess superfluities, to which the Euphoniacs object, and to 'get a hunch on' and change these ancient and honourable names.

At this stage of my discourse, Mr. Editor, my implied ingenuity did fail me, so I did appeal to ye Beste of spouses, who did remind me that kings had lost their crowns; nay, their heads as well, through their overweening autocracy; parliaments had been dissolved for abusing the powers reposed in them by their electorate, and that no doubt campanological pussyfoots could be given 'the bird,' and they tried to tighten the prohibition screws on our 'ancient lights.' Our Northern fastnesses breed the right to do as you like with your own.

My letter, sir, may not be overcharged with euphony, it may teem with 'terminological superfluities,' but as Christmas is coming I will be easy, and just tell you that I am voicing the opinions, strongly expressed, of some five hundred ringers and churchmen, whom I have discussed this matter with since it came up.

'Here's to all on us, may we niver want nowt, noan on us, nor me noather,' and that 'smacks of one shire' if the undersigned does not.

SAMIWELL PEPPER.

LONG PEAL ATTEMPT.

The attempt at Duffield on Saturday to ring a long peal of Cambridge Surprise Royal was unfortunately not successful. The peal came to grief too late to make another start, but sufficient time remained to ring a five thousand, and this was brought round, as recorded elsewhere.

THE LADIES' GUILD.

A quarterly meeting of the Southern District of the Ladies' Guild was held at Sandhurst on Saturday. Touches of Kent and Oxford Treble Bob and Plain Bob Minor were rung before the service, six ladies taking part in each. An extremely impressive service was conducted by the Rector (Rev. Newhouse), who, in his address, gave the ringers a double welcome, one as ringers and the other as workers in the church.

A welcome tea was served in the Schoolroom, where the business meeting was afterwards held.

Two new members were elected, viz., Miss Newhouse and Miss Oldham, both of Sandhurst. Aldershot was chosen for the next meeting, on April 5th, 1924.

Miss Robinson proposed a hearty vote of thanks to the Rector for his kindness, to the organist, and to the local ringers for preparing the tea. The tower was afterwards revisited.

BURSLEM RINGER'S DEATH.

Burslem ringers have lost a valued friend and colleague by the death of Mr. A. Lees, who was a faithful member of the band at St. John's Church, always regular and punctual in his attendance. In memory of the deceased, 720 Oxford Treble Bob Minor was rung on Sunday evening, November 25th, with the bells half-muffled: E. Gater 1, F. Shuker 2, T. Hurd 3, H. Box 4, P. Kelsale 5, T. Hill-dith (conductor) 6. First 720 in the method by ringers of treble and second.

A RELIC OF JAMES BARHAM.
HARRIETSHAM'S VALUABLE POSSESSION.

An old peal board of really priceless interest hangs in the tower of Harrietsham, Kent. It was erected in 1794, and records a number of peals rung during the preceding fifty years, and its especial value lies in the fact that it gives us the names of the men who, with James Barham at their head, founded the Leeds Society.

We give below a copy of the board, kindly supplied to us by Mr. E. Hadlow, of Gravesend, who is a native of Harrietsham, and as will be seen it is particularly appropriate at the moment inasmuch as it records a peal of 10,080 Bob Major rung on December 8th, 1746.

What the present condition of this ancient board is, we do not know, but we hope that its preservation will not be neglected.

In this tower was completely rung by the Lenham Company the following 8-bell Peals, December 8th, 1746, was rung 10,080 changes of that admired Peal called Bob Major in 7 hours by

John Epps	...	Treble
Sam Grayling	...	2nd
Thos. Barham	...	3rd
Jas. Barham	...	4th
Abram. Barham	...	5th

March 5th, 1743, was rung a musical Peal of 6,720 changes of Oxford triple bob in 4 hours 21 minutes, including Jacob Blundell and Ben. Walker. June 13th, 1743, was rung 6,720 Bob Major, 4 hours 31 minutes, including Will Eagles. N.B.—Here was also rung 5,040 Bob Major, including Nicolas Grayling and Iden Plane; also 5,040 Bob Major triples, 5,040 plain Bob Triples, 5,040 Fulham triples, 10,080 Bob Major and 5,040 Bob Major Double Reverse. The above ringers first instituted the Leeds Society, whose performance in ringing has not been equalled by any society of ringers, and there is now surviving Sam Grayling, John Freeland and James Barham and John Hunt, who newly erected this inscription: these 6 ringers, with the assistance of S. Lacy and Will Davis, rung at Leeds, January, 1793, 5,040 Bob Major in 3 hours 12 minutes, whose ages, when added together, is 577 years, and it is remembered that this peal completed 100 peals rung at different places not less than 5,040 each by the above James Barham. 1794

OXFORD DIOCESAN GUILD.
NORTH BUCKS BRANCH.

A quarterly meeting of the North Bucks Branch was held at Old Bradwell on Saturday, when a fairly representative gathering of branch members attended, although the weather was somewhat unsettled, and the place a little difficult to reach. The following towers were represented: Bletchley, Beachampton, Penny Stratford, Linslade, Stony Stratford, and Skenley, together with the local ringers. This meeting was the first that the North Bucks branch had held at Lade, Stony Stratford, and Shenley, together with the local ringers, who are making good progress in the art of change ringing. One bells, a nice ring of six, were utilised before service, which all the members attended.—The Vicar (the Rev. J. H. Walton) officiated, and the choir was in attendance. It was noticed that numerous parishioners were also present. The Rev. H. A. Attwater (Vicar of Gt. Linford, and an hon. member of the branch) was to have been the preacher, but unfortunately, through illness, was unable to attend, and the Rector gave a most interesting and instructive address. Thanks to the ringers' wives and friends a splendid tea was provided in the Schoolroom.

The Secretary reported that no special business had to come before the meeting, and referred to the fact that the meeting was the first to be held at Old Bradwell. The real enthusiasm that was shown fully repaid those who had made a special effort to attend.

The usual votes of thanks were passed to the Rector, choir, and others, who had made the meeting such a success, the Rector responded.

Further ringing then took place, and touches of Grandsire and Stedman Doubles, Plain Bob, Kent Treble Bob, Cambridge and London Surprise Minor concluded the meeting.

CONDUCTORS ALL.

To the Editor.

Dear Sir,—Mr. Wheeldon, of Milton, Staffs, very kindly answered a query under the above heading in your issue of the 16th November, but it was not quite answered to the point. The question raised was this: 'Has any six-bell band rung the first six extents of London on the bells, being the first by all the band, with different conductors?' Thanking Mr. Wheeldon for his very good wishes, Yours sincerely,
FRED M. MITCHELL.

CHESTER DIOCESAN GUILD. STOCKPORT BRANCH MEETING.

Denton, like other places of note, possesses a handle, which members of neighbouring townships are fond of turning. They say 'that Denton folk are always in a fog,' and they certainly were on Saturday, November 24th, when the last meeting of the year for the Stockport Branch was held at the Church of St. Anne. The fog was of the 'pea soup' variety, for which Manchester is famous, consequently, travelling was very difficult, road traffic groped about in the gloom, and trams changed their way through the hidden streets, taking about two and a half hours to do half an hour's journey. It is no wonder, therefore, that the majority of the branch members decided 'to keep the home-fires burning,' rather than attend the meeting, but those who did brave the elements, were compensated for their trouble by a splendid tea, to which about twenty members and friends sat down, among them being 'George' and 'John,' from Yorkshire. Mr. E. W. Elwell, of Capenhurst, hon. secretary of the Guild, later on joined the company, after having had a most difficult task in locating the place.

The Rector (the Rev. — Hobday), in the absence of the branch chairman, presided over the business meeting, in the course of which the branch hon. secretary (the Rev. A. T. Beeston) extended a hearty welcome to Mr. Elwell, this being the first meeting of the branch he had attended.

Reference was made to the small number of peals to the credit of the branch this year, the number not being at all satisfactory. Mention was also made of the proposed branch annual dinner, which will be discussed further at a meeting of tower secretaries, to be held at an early date.

The Rector was elected an honorary member, and six ringing members were elected from Bowdon, and one from Disley.

The next meeting, which is the annual one, will be held at Stockport (St. George's) on Saturday, February 23rd.

Votes of thanks were accorded to the Rector for his address in the church, also with the wardens, for permitting the meeting to be held and for the use of the bells; to the organist; and to the local ringers and their 'better halves' for providing a splendid tea.

NORTH NOTTS ASSOCIATION. MEETING AT NORTON CUCKNEY.

A cordial welcome was given to the members of the North Notts Association when they visited Norton Cuckney. The bells, a handy peal of six, were placed at the disposal of the ringers from 2 to 3 p.m. by the new Vicar (the Rev. H. R. Peel), who was in the tower to welcome the first arrivals, and showed his interest in their work by remaining to watch them ring touches in various methods. Ringers were present from Barlborough, Sutton-in-Ashfield, Mansfield, Ordsall, Workson, and the local company. There was only a moderate attendance, wretched weather preventing many of the keenest supporters, who have to rely chiefly on the 'push bike,' from making the journey. Nevertheless, what was lacking in numbers was made up by good ringing throughout the afternoon and evening. The methods included Plain Bob, Oxford, Kent, Violet and Killamarsh Treble Bob, the junior ringer from Ordsall, Mr. H. Revill, conducting his first 720 of Oxford.

Tea was served in the Church Institute, and was presided over by the Vicar, who subsequently took the chair at the business meeting. —The hon. secretary (Mr. H. Haigh) made allusion to the death of James Fitzjohn, of Shireoaks, one of the association's oldest ringers. Mr. Fitzjohn was a Sunday Service ringer of nearly 40 years' standing, one of the best of comrades, quick to learn any new method, either by diagram or figures, a splendid striker, and a ringer who always rang with a tight rope and graceful pull. There was no slovenliness about 'Jim Fitch,' as he was familiarly called. He did his work thoroughly, and it was a pleasure to watch him ring his bell, occupying as little room in the tower as any ringer, he (the speaker) had ever seen. He was always a keen sportsman from youth upwards, and would be much missed by the people of Shireoaks.

The members stood for a few moments in silence, and the Vicar offered a short prayer for the departed brother.

The next meeting will be at Shireoaks early in the new year, and will be advertised in 'The Ringing World.'

A vote of thanks was accorded to the Vicar for the use of the bells and the Institute, and for presiding over the tea and meeting.

The Rev. H. R. Peel, in reply, gave the members a hearty welcome, and invited them to come again in the summer-time. He also gave an interesting account of church bells of the villages where he had ministered, and spoke in the highest terms of the work of the bell ringers.

Afterwards the tower was again visited, and further ringing indulged in. One company which shall be nameless, performed the 'bat trick.' Their 'bus broke down on the journey, causing two hours' delay; while ringing they broke the stay of the second bell, and afterwards the shank of the clapper of one of a new peal of hand-bells, for which 'performances' they had a hearty 'reception.'

H. H.

ELY DIOCESAN ASSOCIATION.

THE ARCHDEACONRY OF WISBECH BRANCH.

A quarterly meeting was held at Whittlesea, Cambs., on Saturday, November 24th, ringers being present from Cambridge, Ramsey, Chatteris, March, Wisbech, Peterborough, and the local band. Some good touches of Grandsire and Stedman Triples, Treble Bob Major, and Plain Bob, were rung, several making the first attempt on eight bells. The Church of St. Mary is a grand edifice, with a stately tower and spire, 186 feet high, a landmark for miles around. Although the bells were augmented from six to eight in 1803, there is no record of a peal having been rung on them till 1904, when 5,040 Grandsire was rung by a party of visitors. The bells are not mentioned in the parish register since the time of King Edward III., so all that is known of the present ring and the previous one of six is the dates on them. On the present sixth bell the date is 1738, the third, fourth and seventh, are of the same date. The inscription on the third is 'Joseph Eayers, St. Neots, fecit.' The treble, second, fifth, and tenor are by Osborne and Dobson, of Downham, 1803.

The Vicar (the Rev. L. L. Chaplin) presided at the tea and business meeting, for which he had kindly lent St. Mary's Church Room.

Wisbech was chosen for the next meeting.

Mr. J. Pulett, of March, who very kindly acted as secretary, in the absence of the district hon. secretary, said he was pleased to see a good number present, and hoped by their gathering that day some good might be done. They appreciated the kind welcome extended to the association, and he was glad to meet the local band, who, he trusted, would persevere in the standard methods. He thanked the Vicar for presiding and for the use of the bells and parish room, and Mr. Neave for having the bells ready.—Mr. Willis, of Ramsey, seconded the proposition, which was carried.

Service was afterwards held in church, the association form being used.—The Vicar, who officiated, gave the members a very hearty welcome to his parish.

Ringing was carried on during the evening, the visitors being very pleased with the fine old bells.

WINCHESTER DIOCESAN GUILD. YORKTOWN DISTRICT ANNUAL MEETING.

The annual meeting of the Yorktown District was held at Bagshot, when members attended from Camberley, Chertsey, Egham, Farnborough, Reading, Sandhurst, Worplesdon, and the local band. The Rev. Canon R. Stewart dedicated a peal board, recording the first peal on the bells by a local company, and members then attended the short service, at which the Rev. R. M. Curwen, of Yorktown, gave an interesting address.

An excellent tea had been arranged by Mrs. Nye and other lady ringers at the Parish Room.

The business meeting followed, the Rev. Canon Stewart occupying the chair. Among those present were Miss Middleton (Yorktown), Mr. H. G. Tidd, and Mr. G. Miles.

The officers for the year were elected as follows: Mr. J. B. Hessey (hon. secretary), Mr. H. J. Chaffey (Ringing Master); representatives on the Central Committee, Mr. Smith (Camberley) and Mr. H. J. Chaffey.

The hon. secretary's report and balance sheet were accepted, and the Ringing Master gave an account of the ringing done in the district. The proposed places for meetings in 1924 are: Pirbright, Weybridge and Yateley, and the annual meeting at Hersham.

A hearty vote of thanks was given to Canon Stewart for the use of the bells, and for arranging with the choir-boys to be present; also for presiding at the tea and meeting.

The ringers afterwards again visited the tower, and various methods were rung.

SURPRISE METHODS.

MR. CARTER'S REPLY.

Dear Sir,—In reply to the Rev. E. Bankes James, in your issue of Nov. 16th, the Method should be called 'Bristol Delight,' as the 'C.C.' Book says:—

'(5) Delight Methods — having places made at all but one cross section.'

'(6) Surprise Methods — having places made at all cross sections.'

By referring to the half lead, it will be seen that

at No. 1 — 4th place is made,

at No. 2 — 6th place is made,

at No. 3 — 5th place is made,

at No. 4 — no place whatever is made.

If you condemn the 'C.C. Legitimate Methods' Book, what are you going to do with London, Cambridge and Superlative?—Yours faithfully, JOHN CARTER.

FIFTY YEARS A RINGER.

Mr. Benjamin Morris, of Rushden, who has been a ringer for fifty years, passed away on Saturday, Nov. 24th, at the age of 67. Mr. Morris was a native of Stanwick, Northants, and until ten years ago used to walk to Stanwick, a distance of four miles each way, twice on a Sunday to ring for service. Afterwards he was a member of the Higham Ferrers company, and was very regular in attendance. He has been a member of the Central Northants Association since it was founded.

The funeral took place at Rushden, on Thursday, Nov. 29th. The service was conducted by the Rev. J. B. Dollar, of Stanwick, who had known Mr. Morris for a number of years. The ringers of Stanwick were represented, and the Higham Ferrers band was represented by Mr. A. Smeathers, of Rushden. A wreath was also sent by the ringers.

In the evening the Higham Ferrers bells were rung deeply muffled to several touches, and a quarter-peal of Stedman Triples was brought round by A. Smeathers 1, A. Everatt 2, W. Gray 3, W. Hall 4, L. Chapman 5, G. Brown 6, W. Garrett (conductor) 7, W. Croft 8.

DEATH OF A HORLEY RINGER.

We regret to record the death of an old Surrey ringer, in the person of Mr. Albert Songhurst, of Horley, who passed away on Nov. 28th, after a very short illness. Deceased, who was 80 years of age, was secretary to the local ringers for over 30 years, and was very regular in his attendance for Sunday Service ringing and practice. He rang his last touch of Bob Major as recently as Sunday evening, November 18th.

The funeral took place at Horley, on Saturday, when his brother ringers of Horley, and Mr. E. Dewey, of Redhill, attended the service. Afterwards a quarter-peal of Grandsire Triples was rung with the bells fully muffled: F. Sadler 1, P. Etheridge 2, G. Ilman 3, S. Kenward (conductor) 4, A. J. Bull 5, F. Voice 6, G. Hollingsbee 7, G. Welch 8.

HERTFORD COUNTY ASSOCIATION.

A successful meeting of the Northern Division was held at Hitchin on Saturday, November 17th. Ringers arrived from Baldock, Graveley, Kimpton, North Mymms, Long Stanton, Royston and St. Albans, to meet the local band. Service was held in Trinity Chapel, when for the first time most of those present saw their secretary (Mr. G. W. Cartmel) robed in his capacity as lay reader, accompanied by the Vicar (the Rev. L. B. Ashby). On this occasion Mr. Cartmel came specially to address the meeting, as one ringer addressing another, and his inspiring words will long be remembered by many of his hearers.—Mr. J. R. Foster (captain of the local band) presided at the organ.

Tea was served at the Grange, and was honoured by the presence of three honorary members, a fourth honorary member, Mr. Times, regretting his inability to be present.

At the brief meeting, the Vicar was voted to the chair.—One new life member was elected, and Mr. Cartmel spoke of the remarkable progress the association had made during his long connection with it.

The bells were kept going during afternoon and evening, in standard methods, also Superlative and Cambridge Surprise.

A WOLVERHAMPTON PEAL BOARD.

Sir Robert Bird unveiled a peal board at St. Peter's Church, Wolverhampton, on Saturday, November 17th, recording two peals, one rung on Feb. 13th, 1922, half-muffled, as a mark of respect to his deceased father, Sir Henry Bird, M.P., who was accidentally killed at Hyde Park Corner, on Feb. 7th, 1922, and the other on March 24th, 1923, as a peal of welcome to the Rev. Prebendary Stockley (Rector) upon his return from India. The first was a peal of Grand-sire Caters, and the second a peal of Stedman Caters. The board is the gift of Mr. H. J. Haddock.

Sir Robert Bird, who was accompanied by his mother and sister, spoke of the tribute paid to his father in that the latter's name was given a place in the noble and beautiful church of St. Peter; and the Rector said what a pleasure it was to him, on his return from India, to hear the bells of the old church ringing out again.

The Rector then dedicated the gift, following which Sir Robert expressed thanks to the donor and to the ringers, and said if a special peal were rung on the occasion of the Armistice, and it had not been commemorated on the walls of the belfry, he should like very much to be allowed to do this.

THE BEDFORDSHIRE ASSOCIATION.**DISTRICT SECRETARYSHIP GOING BEGGING.**

The annual meeting of the Bedford District was held at St. Peter's, Bedford, on Saturday, Nov. 17th. Tea at St. Peter's Hall was followed by the business meeting, with Miss D. Steel in the chair. Members were present from Thurlough, Clapham, Biddenham, Bromham, Kempston, Harrold, Roxton, Olney and Bedford.

The committee were re-elected en bloc.

Some discussion arose over the district secretaryship. The district secretary is resigning, but could not get another to fill the office. The appointment was, therefore, left over until the next meeting, to be held at Clapham on December 15th, of which notice will appear in 'The Ringing World.'

Mention was made of the late Charles Herbert, of Woburn, and the Rev. J. E. Gilbert, Rector of St. Peter's, the members standing in silence.

A vote of thanks to the church officials for the use of the bells, to the chairman, and to the ladies for waiting at the table, brought the meeting to a close.

240 GRANDSIRE DOUBLES.**NEW CALLING FOR SIX-SCORES.**

Mr. A. J. Pitman of Port Talbot, writes as follows: I feel sure that the following 240 of Grandsire Doubles, which I obtained some time ago, will be found useful to conductors of peals etc., in this method who would like further variety in calling, as it is certainly monotonous, having only ten 120's to call four times at least.

The 240 will be found to consist of two distinct 120's combined, counting 12345 and 13245 as the first changes of first and second 120 respectively.

There are also twelve variations to be obtained by commencing the calling as from each lead end in the usual way.
