## A SURVEY OF CORONATION PEALS

**M**AGNIFICENT seems to be the only word that adequately sums up the tribute of the ringers of the British Commonwealth for the Coronation of Queen Elizabeth II. While our columns have had to limit the record to peals and quarter peals, there were many hundreds of occasions when the bells rang out joyfully. Indeed, it would be accurate to say that in almost every tower where a Sunday service band operates regularly the bells were gladly heard by the people. In connection with this Coronation there was a new feature in our English life by the television service of the B.B.C., which enabled millions of people in their homes to watch the historic ceremony at Westminster Abbey. Indirectly this great innovation affected ringing. Many towns and villages expressed the wish that there should be no ringing during the actual service and ringers accordingly respected these wishes.

According to the records compiled in our office the number of peals rung for the Coronation was 352. This must not be taken as the final figure, or an accurate figure, as there were peals rung at the time of the Coronation for other purposes which were specified as such, but which perhaps in guild or association reports or even in the locality were regarded as rung in honour of the Coronation. These 352 peals came under the following categories: On 12 bells 11, ten bells 32, eight bells 154, five and six bells 155 and handbells (in a village where there were only two bells in the tower) one.

A more detailed analysis of the peals gives the following information:—

On 12 bells: Spliced Surprise Maximus (12 methods) 1, Little Bob Maximus 1, Stedman Cinques 6, Grandsire Cinques 3.

On ten bells: Surprise Royal 3, Plain Bob Royal 5, Kent Treble Bob Royal 1, Stedman Caters 10, Grandsire Caters 13.

On eight bells: Surprise Major 16, Double Norwich Court Bob Major 6, Kent Treble Bob 17, other Treble Bob Major methods 3, Plain Bob 40, Little Bob 2, Stedman Triples 15, Grandsire Triples 51, Bob Triples 4.

On five or six bells: Minor 88, Doubles 67.

The low ratio of Surprise ringing was not unexpected. A Coronation peal is not, unless the band is very experienced, a time for experiments. It is difficult to explain failures to the lay mind, and with few exceptions they do

not worry whether a peal attempt is successful or not providing the bells are rung with a good rhythm. On eight bell ringing the ratio of 16 Surprise to 138 other peals principally in the four standard methods was lower than we expected. Grandsire, or as a West Country ringer called it, 'Ringer's Ruin,' with 50 peals was outstanding. There is this also to be borne in mind about Coronation ringing: the bands are invariably raised in the locality, although there were noted exceptions such as a ringer travelling from Cornwall to ring at St. Paul's, London, and others from Yorkshire and Cheshire to ring at Stratford-on-Avon.

Every peal in its own district rung at such a time is an 'occasion,' but there were certain of the peals which might be regarded as national. There was genuine regret in London ringing circles when it was learnt that the peal attempt at Westminster Abbey immediately after the Coronation was not successful, and great satisfaction when the peal was successfully brought round three days later. Similarly peals at St. Paul's are very rare, and it was at the second attempt that the efforts of the Ancient Society of College Youths were crowned with success. The 'go' of St. Paul's bells is far from satisfactory, and experienced ringers had previously expressed doubts whether such a performance would have been possible. The peal is proof that we have ringers of this generation of the stamina of their sires of old.

Our readers will note with great satisfaction that a peal of Royal was rung on the bells of Edinburgh Cathedral in connection with the Queen's State visit to Scotland, though not by a band of all Scots. The Coronation peal attempt at Glasgow was lost after three hours' 'good ringing.' Windsor also can put up a new peal board to record the Queen's entry after her Coronation into the Royal Borough. The Society of Royal Cumberland Youths can record a peal of Cinques at their headquarters, St. Martin-in-the-Fields, and the good feeling that happily to-day exists between this Society and the Ancient Society of College Youths was shown by the peal of Cinques at Shoreditch by six members of each Society. The record also contains two peals from Ireland, three from Australia and one most precious by the Cape of Good Hope Society. We have yet to hear from our friends in Canada.

While our records are not complete, it is interesting to observe how the peals we have received so far are divided. The Essex Association and the Lancashire Association have each rung 22, followed by the Oxford Diocesan Guild with 19. Then follow Kent County Association 18, Nor-

wich Diocesan Association 15, Leicester Diocesan Guild and Chester Diocesan Guild 14, Hertford County Association 13, Lincoln Diocesan Guild, Worcester and Districts Association and Bath and Wells Diocesan Association 11, Hereford Diocesan Guild, Peterborough Diocesan Guild, Gloucester and Bristol Diocesan Association, Yorkshire Association 9, Ely Diocesan Association 8, Sussex Association 8.

One of the most gratifying features of Coronation ringing was that 165 ringers rang their first peal. We hope that, encouraged by this initial success, they will try to advance in the art. At the other end of the scale was the peal on Coronation Day by Leicester Cathedral band of Spliced Surprise Maximus in 12 methods. This is a new stepping stone on the path of progress, and we feel sure they will receive the congratulations of the Exercise on a really wonderful achievement.

## Peals Rung in Honour of the Coronation of Queen Elizabeth II

### OPPORTUNITY FOR NEW READERS

This is the second issue of the second half of 1953 and is an opportune time for new postal subscribers to join. Subscriptions and renewals should be sent to Mr. J. E. Jeater, Greystones, Cusgarne, Truro, Cornwall, without delay. Rates: half-year 11s. 8d., three months 6s.

There was a pleasant ending to the day's celebrations of the 124th anniversary of Lavenham Ringing Festival on June 20th. The famed Leicester Cathedral band, headed by Mr. Harold J. Poole, who were spending their annual outing in Suffolk, made their appearance. They were accorded a hearty welcome and the freedom of the belfry was extended to them. Many towers were represented at the Festival and methods rung were Plain Bob, Grandsire, Stedman, Kent Treble Bob, Oxford Treble Bob, Double Norwich, Cambridge, Superlative, Bristol, London and Yorkshire Surprise Major.

Mr. J. G. Clay, of Otford, Kent, who is a member of the Ancient Society of College Youths, rang on the old bells of St. John's Cathedral, Hong Kong. The provision of a new octave shortly to replace the original four damaged by the Japanese is reported in our news columns.

To the list of ringing Mayors must be added the name of Ald. John B. Hidderley, who has twice been Mayor of Macclesfield in the past four years. When he was installed as Mayor for 1953, ringers of Christ Church, his old tower, rang a peal of Double Norwich Court Bob Major.

Northfleet, Kent, scored their Coronation peal on June 24th. The Coronation Day attempt for Stedman Triples was lost after 2 hours 14 minutes. Another attempt was planned for the following day but the hand met short and when another ringer was found it was too late to start a peal. A quarter was attempted but this came to grief owing to the organist putting out the lights and coming into the ringing chamber to look for the Vicar, who is a ringer, but was not ringing on this occasion.

## BELFRY GOSSIP

On June 28th an exchange of vicars, organists, choirs and bellringers took place between the Parish Church of Wednesbury and Claverley, Shropshire. Before each service the ringers rang a quarter peal. Details of this delightful exchange will be published in a later issue.

We are asked to state that Llandelo were placed fourth and not sixth in the St. David's competition.

A correspondent suggests that a good method of encouraging honorary members is to invite them to participate in annual outings of towers. Many towers, we are afraid, neglect this practical method of getting 'well-wishers' of bells and ringing together.

The bells of All Hallows', Twickenham, which will be available for ringing to-morrow week at the Middlesex Association meeting, and the tower, were formerly situated in Lombard Street in the City of London. The tower and a good deal of the church furnishings, including a magnificent organ, were removed to Twickenham before the war. The blending of old and new has been skilfully done and visitors should make a point of seeing the church as well as ringing on the melodious ten.

Regarding the Coronation peal at Totnes (see page 433), Mr. W. Shepherd writes that the first peal was scored on December 28th, 1901. 'I well remember the streets being thronged with people, the cheers which greeted us after the peal, the hastily-prepared banquet presided over by the Mayor, also the old draughty railway carriage for the journey home.' Abraham Rudhall, he adds, cast the original six in 1732 but no peal was ever rung on them. Warners added the present fifth and tenor in 1863 but it was not until 1901 that the first peal was rung. The bells thus went 169 years without a peal.

# CORONATION RINGING

## Our Fourth Instalment

### JOINT CORONATION PEAL IN LONDON

In his speech at the Ancient Society of College Youths' dinner last November Mr. George H. Cross, Master of the Society of the Royal Cumberland Youths, suggested that the two Societies should ring a joint peal for the Coronation. This took place at St. Leonard's, Shoreditch, on June 27th, when six members of each Society rang a peal of Stedman Cinques. The peal itself was not without incident. A rope parted at the fourth course end but this was speedily repaired, a fresh start made and the peal brought round without further trouble. It was regretted that Mr. George Cross was not feeling well enough to stand in the attempt. The peal was rung for the St. Martin's Guild for the Diocese of Birmingham.

After the peal the usual rites were observed at a nearby hostelry. The happy relationship between the Societies was further exemplified the following Sunday when several members of the band stood in a further quarter peal.

### SCOTLAND'S WELCOME

Her Majesty's visit to Scotland was marked by the ringing of the bells of St. Mary's Cathedral and St. Cuthbert's Parish Church by the local companies at the time of the state entry into Scotland. On June 27th a peal of Plain Bob Royal was rung at the Cathedral Church of St. Mary, conducted by Dr. J. E. Spice. It was the first peal of Royal for four of the band.

### EARLY RINGING ON CORONATION DAY

Probably the earliest ringing on Coronation Day was at Dursley, in Gloucestershire, where a start was made at 5.25 a.m. and continued until a special service at 8 a.m. Ringing consisted of Grandsire Doubles and call changes. All the ringers were under 21.

The whole company, numbering 21, assembled again at 11.30 a.m., with one visitor, and ringing continued throughout the day. A good supply of refreshments was provided out of the funds.

Were these the first bells to be rung on Coronation Day?—Ed.

### AT KINGTON MAGNA, DORSET

After having established a record in 1911 by ringing up at 3.28 a.m. for King George V's Coronation, the ringers took it easy this time and heralded Coronation Day with ringing and firing at 7.15. The bells were rung again during the Queen's return in state from the Abbey and in the evening before a thanksgiving service in a field, when the instrumental music was provided by one violin, eight handbells and three tambourines. The bells were heard once more at 10 p.m. as a bonfire blazed up on a lofty hill.

### ALL IN THE SAME TOWER

Mr. Percy H. Derbyshire rang his first peal for Queen Victoria's Diamond Jubilee on June 22nd, 1897, and has rung at the Coronations of Edward VII., George V. and George VI., and rang a peal for the proclamation of Queen Elizabeth II.. He lost a peal for the Coronation of Queen Elizabeth II. after ringing just over one hour and a half. All these peals were rung at St. Mark's Church, Worsley, Manchester.

Mr. E. Barnett, of Crayford, has rung for every Royal occasion, both joyful and sad, since Queen Victoria's Diamond Jubilee in 1897, when he rang his first quarter peal at the age of 12. At the express wish of the then Rector it was rung immediately after midnight.

### HONG KONG AND THE CORONATION

To commemorate the Coronation of Her Majesty Queen Elizabeth II., the Hong Kong and Shanghai Banking Corporation, through the Chief Manager, Mr. M. W. Turner, Hong Kong, have presented to St. John's Cathedral, Hong Kong, a ring of eight bells (tenor 27 cwt.). This will replace the old original ring of four bells which was damaged and put out of action when the Japanese made a direct hit on the tower in the assault on Hong Kong in the beginning of the last war. Owing to climatic conditions tower ringing is out of the question, so this chime will be operated from a hand clavier, and, in addition, a motor-driven chiming machine is being added.

The ring is being cast and shipped by Messrs. Gillett and Johnston, Ltd., Croydon, who, in 1906, installed in the tower of the Bank's offices in Peking, North China, a clock and ring of five bells (tenor 4 cwt.). This chime still rings merrily every quarter of an hour in the old Legation quarter there.

The Bourdon will be cast about July 17th, when a Coronation 5s. piece and a silver Hong Kong dollar will be dropped into the molten metal, and it is expected that the bells will be shipped to Hong Kong by S.S. 'Corfu' on September 16th.

### CORONATION RINGING AT YORK MINSTER

The York Minster Society, in its centenary year, played a full part in the Coronation celebrations. After the Abbey ceremony the Minster bells were rung for 40 minutes before Evensong, after which the Society's chaplain, the Rev. A. J. McMullen, conducted a brief belfry service.

Having regard to the special nature of the occasion the Dean and Chapter had readily given permission for a peal attempt on the middle eight and a start was made for Bob Major. Shortly before the half-way mark, however, it became apparent there was some doubt as to the peal being brought to a successful conclusion so it was decided to bring the bells round at the half-peal end. The majority of the band are not experienced peal ringers, but on this occasion did very well.

The Society was honoured by being invited by the B.B.C. to ring a short touch for inclusion in the programme 'World Round-up of Coronation Celebrations' on Coronation night. Grandsire Caters were rung from 9.15 p.m. to 9.45 p.m. and the bells were on the air for a few minutes about 9.30. The concluding rounds, having been recorded, were included in a North Region programme the following evening. The Coronation Night ringing was also included in an overseas broadcast on the following day.

A telegram of loyal greetings was sent to Her Majesty The Queen and this was suitably acknowledged.

### NORTHAMPTON

The bells of the churches of All Saints. Holy Sepulchre, St. Edmund, St. Giles, St. John-the-Baptist, Kingsthorpe, St. Mary-the-Virgin, Dallington, and St. Peter heralded Coronation Day at 7 a.m.. For 16 minutes the bells of these churches were rung at the same time and it is believed the first time to be recorded.

## ARCHDEACONRY OF STAFFORD Special Coronation Year Report to be Published

THE annual meeting of the Society of Change ringers for the Archdeaconry of Stafford was held at Lichfield on June 20th. The attendance of 75 was not as large as on previous occasions. Well-known visitors attending were Prebendary E. V. Cox, president of the Devonshire Guild of Ringers and a former secretary of the 'Staffords,' and Mr. and Mrs. J. Thomas, of Hinton-on-the-Green. Ringing during the afternoon and evening took place at the Cathedral, St. Mary's and St. Michael's.

The service at St. Mary's was conducted by the Vicar, Prebendary H. S. Cresswell, who also gave the address. Prebendary E. V. Cox read the lesson.

After tea, in St. Mary's Schools, the business meeting took place. The Archdeacon of Stafford (Ven. W. A. Parker) occupying the chair. In his remarks the chairman stressed the importance of obtaining new recruits. The Archdeacon also thanked the officers of the Society for their services during the past year.

Mr. F. Brotherton, hon. treasurer, presented the accounts, which showed an increase in the balance in hand of £5 17s. 11d. This was very satisfactory after the losses in recent years.

The committee's report, given by Mr. Fred Bennett, lay secretary, gave pride of place to the Coronation and the seven peals rung by members of the Society in celebration of this important national occasion.

It had again been a good year for peal ringing and the previous year's record total for the Society of 81 had been exceeded by four, making the total for the current year 85.

Mr. Bennett referred to the increase in the Society's balance occasioned chiefly through the saving in printing costs in omitting the peals from the annual report. There had naturally been criticism of the committee's decision to omit the peals, but the improvement in the Society's finances justified the action taken.

The attendances at meetings during the year had again been very satisfactory.

The officers of the Society were all re-elected as follows:—Ringing Master, Mr. Maurice Turner; hon. treasurer, Mr. Frank Brotherton; clerical secretary, Rev. C. H. Barker; lay secretary, Mr. Fred Bennett; hon. auditor, Mr. Eric E. Speake. A new appointment was Mr. Eric E. Speake as peal secretary.

Mr. C. Wallater was re-elected as one of the Central Council representatives and Mr. B. G. Key was appointed as the second representative to take the place of Mr. Herbert Knight, who asked in a letter to be released.

Meetings for the next twelve months were provisionally arranged as follows:—August, Codsall; October, Wombourne; January, Stafford; March, Cannock; May, Yoxall; June (annual), Lichfield.

It was again decided to hold a dinner in the late autumn.

A further discussion then took place on the omission of peals from the annual report. It was finally recommended by Mr. B. G. Key that a special Coronation Year report including peals be published, such report to be sold to members at 2s. per copy.

A vote of thanks to the Archdeacon for taking the chair, and Prebendary Cresswell for conducting the service and allowing the use of the schools ended the meeting. F. B.

### 20 pp. AGAIN THIS WEEK

The Editorial Committee confidently present to its readers another 20 page Coronation issue this week. The three large issues have absorbed the gifts of our readers during this period, but we are conscious that the goodwill of the Exercise is behind the journal, and we shall not be let down.

## ST. JOHN-THE-DIVINE, LEICESTER

### Threat of Demolition

Dear Sir.—No doubt this news will shock many throughout this land. The Leicester Diocesan Reorganisation Committee have drawn up a proposal to close, demolish and sell the site and fittings of St. John-the-Divine Church, Leicester, which, as many ringers are well aware, possesses one of the finest rings of ten bells in the country.

Their reason for this, so they say, is to provide funds for churches on the new housing estates on the outskirts of the city.

The procedure of this step is this: The Church Council have been informed that if and when the proposal passes the Bishop (who, by the way, is to resign in September), it will then pass to the Ecclesiastical Commissioners, who will forward to the Church Council a form on which to register its protest (if any) and, believe me, we do mean to protest. After the formal protest has been received, then the Commissioner will give judgment accordingly by either accepting or rejecting the plan.

This beautiful church, which has been embellished throughout the years by valuable gifts from generous donors, was consecrated in 1854. The living was then only £73 a year, which had to be made up by setting aside 400 of the 950 seats for pew rents varying from 8s. to 20s. per sitting annually.

Some years ago the congregation of those days subscribed a huge sum of money amounting to several thousands of pounds which, when invested, augmented the stipend, thereby making all seats free by abolishing pew rents. Many of those who subscribed to this scheme are still with us to-day and actually attend the church.

To take away these endowments whilst the church is still in a healthy condition would cast a shadow of dishonour on the memory of those whose efforts made it possible, and grievously hurt those still with us to-day.

We have good congregations and are financially strong, apart from the balance on the

cost of demolishing the spire two years ago (£800). We have already raised £300 off the loan of £1,000, the whole cost being £1,320. We have a strong following of youth, which can be proved by the various youth organisations here. Its team of ringers is the youngest in the city, the majority being under 18 years of age.

The back eight bells were given as a memorial to Queen Victoria by the late Samuel T. and Sarah Bunning in 1902, being augmented to ten in memory of these donors in 1928 by gift of the late William Willson, for many years Master and steeplekeeper of St. John's. If the proposal goes through it provides that £100 per year be added to the stipend of the neighbouring Church of Holy Trinity, and £50 per year to the Cathedral Benefice, the rest to go to the Diocesan Stipends Fund.

We have already consulted an eminent architect, who informs us that the demolition of this lovely church would cost £10,000. It is here, sir, that I want to appeal to all ringers for their help by sending to me their protests, particularly those who have had the pleasure of ringing here.

The local Press have dealt very fairly with us. We are having grand support through their efforts (the evening congregation last Sunday was in the region of 250). The time has now come when we must make an all-out stand to fight what, in our opinion, is an act of sacrilege and desecration.

These protests, when received, will (if the circumstances are such that a formal protest is necessary) be sent to the Ecclesiastical Commissioners in support of our cause.

Protests and correspondence may be sent to my address: S. Harrison, 73, Hopefield Road, Leicester; or Mrs. J. F. Walley, 1, Upper King Street, Leicester (Churchwarden).

May I add that we have been without a regular Vicar for six years now, and still going strong.—Yours sincerely,

S. HARRISON.

## SWANSEA AND BRECON GUILD

### Visit to the Forest of Dean

The clock in the tower of Sketty Church was striking 7.30 a.m. on June 20th when this year's outing was 'off' to the Forest of Dean. With Mr. and Mrs. 'T. M. R.' aboard, South Wales was well represented by four Central Council members.

The 'Coffee Pot' was the first stop and between tea and biscuits the ringing of handbells could be heard coming from the inner room. The sun had not shone on the party as yet but now there were signs of it breaking through.

St. Mary's Church, Usk, was the first tower visited with a lovely ring of eight (tenor 14½ cwt.). We were met by Mr. Luff and the party made the bells speak for nearly an hour. Then on to Monmouth for lunch.

After leaving Monmouth we were well and truly in the Forest of Dean, and the spire of St. John-the-Baptist's was soon seen, at which church a nice eight was made ready by Mr. Beard.

Next came St. Mary-the-Virgin, St. Briavels, another eight (tenor 11 cwt.). Mr. Reynolds met the party and before going into the tower the beautiful view of the Wye Valley held the visitors' attention. The bells were soon kept going to rounds and various methods—until someone started to dodge with the movable oil lamp in the centre of the tower.

The last tower was St. Mary's, Chepstow, a ring of eight (tenor 19½ cwt.). After a good tea Miss Jacqueline Evans met the party at the church and soon had the bells going to various methods, and finished off with a course of Cambridge Major.

During a short stop at a wayside cafe Mr. 'W. M.' was thanked for arranging such an excellent lunch and tea. The day was all too soon nearing its end and with 'For he's a jolly good fellow', 'Goodnight, Sweetheart' and 'Auld Lang Syne' sung by the youngsters, the coach rolled into Sketty at 11.30 p.m. J. A. H.

## MIDLAND COUNTIES GUILD

### Pleasant Village Meeting

After a period of five years the Guild again visited Lullington, on June 20th, and the members who ventured to this picturesque Derbyshire village received a warm welcome.

This unspoilt village is situated on the extreme border of the county and a meeting at such an isolated tower is always a doubtful venture, with transport being the most difficult proposition.

Special efforts, however, were made, and the result was most gratifying as touches in a number of methods were brought round during the visit.

During the afternoon a short service was conducted by the curate (the Rev. A. J. Veness), with Mr. W. G. Soar at the organ.

Following tea in the Colville Arms Mr. W. H. Curson (chairman) opened the business meeting and on behalf of the Vicar welcomed the members to Lullington. Two new members, one from Ashby and the other from Swenstone, were elected members. The secretary (Mr. J. W. Cotton) gave a report of the Central Council meeting recently held at Bournemouth and the meeting expressed thanks for the brief but interesting account. The next meeting will be held jointly with the Derbyshire Association at Melbourne on July 25th.

Thanks were expressed by the secretary to the Vicar for the use of the bells, to the curate for conducting the service at short notice, to the organist, and lastly to the chairman of the Guild (Mr. W. H. Curson) for having the bells in readiness and arranging tea.

## HERTS RINGERS AWHEEL IN THE CHILTERN

A cycle tour was held on June 3rd around a few of the villages in the Chilterns. Nine hardy ones were lined up at nine o'clock at Baldock, only two having failed to put in an appearance, but one could not blame them with such a strong wind and driving rain.

The first stop was made at Wallington. Here some of the youngsters came in contact with a single rope at the tail end and sallies round their knees: they did not think much of it.

Our next halt was at Rushden, a pretty village with thatched cottages. Then on to Sandon, where we were joined by D. P. Jones. Here the youngsters found the length of rope a little difficult. Lunch was provided by Mrs. Ambrose at the Six Bells (only five in the tower). Afterwards we met the Rector (the Rev. David Bickerton), who is in charge of all three parishes and showed great concern at Rushden bells sounding so out of tune: maybe we shall see six there one day.

Next we visited Kelshall (5) and Therfield (6), both with bells hung dead. D. P. Jones showed us how Stedman Doubles should be tapped: probably the first on the bells. We then made the five-mile trip to Ashwell (6), with a grand old tower and commanding view. The bells are heavy going but they make up for this in tone: the tenor is reputed to be 19 cwt. The only touch of Cambridge was rung here and Mr. D. P. Jones bade us farewell, as he was due at Hitchin for a peal attempt in the evening.

After a well-earned tea at the Three Tuns we pushed on to Hinxworth (6). Here the ropes were lower still and one ringer found it more comfortable sitting on a form to ring than standing up. The last call was at Stotfold (6), just over the border. What a pity these bells are not rung more often as one could not wish for bells to go and sound better.

After some light refreshment we made our way home with the hope we had done some good and that our young people had learned something. Towers represented were Baldock, Hitchin, Norton and Stotfold. E. G. B.

## OXFORD DIOCESAN GUILD

The five-bell tower of Piddington and the eight at Ambrosden were selected for the quarterly meeting of the Bicester Deanery Branch on June 27th.

The Guild service was conducted by the Vicar (the Rev. A. F. Gatehouse), and the lesson read by the Deputy Master (Mr. F. Sharpe) and the Rev. J. Elkerton preached an excellent sermon. Mrs. Bayliss was organist.

Tea was served at the Seven Stars and the Branch president (the Rev. C. Cowland Cooper) took the chair at the business meeting. Miss B. Johnson, of Charlton-on-Otmoor, was elected a member, and the next meeting fixed for October 17th, at Launton.

Votes of thanks were passed to those who assisted at the service, the Branch secretary (Mr. C. H. Kinch), Mrs. Bayliss, Mrs. Lee and Mrs. Jones.

# LETTERS TO THE EDITOR

## FIRST PEAL OF SURPRISE AT GRENDON

Dear Sir,—In a recent issue of 'The Ringing World' is the report of a peal of Cambridge Surprise Minor with a footnote claiming it as the first peal of Surprise on the bells of Grendon.

On Saturday, October 6th, 1923, six members of the Warwickshire Guild rang a peal of Cambridge Surprise Minor in 2 hours 58 minutes. The peal was conducted by Mr. Wilfred Hooton and I had the privilege of ringing the tenor.—Sincerely yours,

A. ROBERTS.

Stoke, Coventry.

## MINOR FIVES

Dear Sir,—There are several fives like those referred to by Mr. Sharpe tuned to the minor scale in Northamptonshire. Besides ours at Weston Favell, there are minor fives at Ashton, Everdon and Nassington (Northants), North Kilworth (Leics) and, I believe, at Roxton and Everton (Beds). Besides Lillingstone Lovell (Bucks), where the bells have just been made a minor five by the addition of a treble, Wappenham (Northants) has a first five of eight. The five at Everdon are possibly the heaviest of their kind—tenor approximately 18 cwt.

P. AMOS.

Weston Favell.

## AN EXPLANATION

Dear Sir,—I would like to explain the reason for the notice which appeared in 'The Ringing World' in the issue of May 29th (No. 2654) to all it may concern.

It was to correct the wording of the notice in 'The Ringing World' issue of May 22nd (No. 2637), which did not follow correct procedure inasmuch:—

(a). A body—namely, the Peterborough Diocesan Guild—was invited to attend (not procedure for private meeting notice).

(b). That no name of authorisation—i.e., tower captain or secretary—appeared.—Yours sincerely,

E. NOBLES.

Duston, Northants.

## DELIGHT METHODS

Dear Sir,—In answer to Mr. Poyner's letter in 'The Ringing World' of June 12th, in which he states that Delight methods are of such simplicity that they do not warrant a conductor's attention, I should like to point out Chelsea Delight as a method that will disagree with this theory.

In my opinion this Minor method is even more difficult to ring than London Surprise, which is generally considered as the most difficult of the standard Surprise methods and also possesses the same callings as these.

The figures are as follows:—

123456	624513
213546	265431
125364	526413
215346	526143
251436	251634
524163	256143
521436	521634
254163	512364
524613	152346
542631	513264
456213	153624
465231	156342
642531	

Yours faithfully,

G. K. DODD.

Highclere, Hants.

CAMBERLEY, SURREY.—On June 8th, 1,260 Grandsire Doubles: F. J. Farr 1, F. Marchant 2, R. Bath (first as cond.), 3, H. Everett (first quarter) 4, H. Noakes 5, E. Hunt 6.

## THE TOWER CAPTAIN

### A Cornish Viewpoint

Dear Sir,—Some time ago you published a leading article on the necessary attainments of the tower captain. In my opinion you are wrong, wrong, out of the hunt and wrong.

The first necessary attribute needed by this august personage is, surely, that of attracting learners to his tower. Then, having attracted them, partly by his personality and approachability, he must see that they receive instruction from his fingers, which brings the second necessary attribute, namely, that of engendering team spirit.

Now, having got his learners to handle a bell in rounds, he needs tact and the persuasive powers of the devil to get his ringers to leave their Superlative and Surprise so that these learners can be taught to ring Grandsire and Stedman. He must at the same time hold the balance between the peal ringing crank who uses practice periods in the tower to further his own ends, and the regular, reliable service ringer who is actually the foundation of the band.

Next, he must encourage the young conductor by allowing him opportunity to make mistakes constantly and to sort them out by himself.

Also, he must keep at bay the petty jealousies which are liable to infect any tower: he must see that the atmosphere of the tower is kept cool, calm and philosophical—proof against all acrimonious or self-satisfied post mortems.

He must be ready to see that visitors have the first choice of the ropes, and how better can he do this than by the personal example of standing back for them, thus encouraging his own ringers into similar courtesy.

## SUBSCRIPTION REMINDER

*Will quarterly and half-yearly postal subscribers note that their subscriptions are overdue? These should be sent to Mr. J. E. Jeater, Greystones, Cusgarne, Truro. Rates, six months 11s. 8d.; three months 6s.*

He must work in close, almost brotherly, co-operation with the ecclesiastical authorities and must disregard all external bodies, because the incumbent is in sole charge of the bells.

He should combine his captainship with the post of steeplekeeper so that he knows his bells as he would know his wife, and their fittings and necessary parts equally as intimately. His ringers he must know as himself.

Finally, it is not necessary that he be an expert in any branch of ringing provided he has the type of personality that can stand as itself and not as what it does. He need not be rich and educated, for I call to mind William H. Sleeman, some time captain of the Cathedral Church of the Blessed Virgin Mary at Truro, who was a simple, unlettered workman always teaching youngsters, or the present captain at Wendron, who, before the war, was the dullest of the band then learning to ring: on his return from the Army he found that he was the only one who was left of the original band but, undaunted, he set to to teach another band.

These men, and others like them, may not scintillate in the ringing firmament, but they are among the salt of ringers and their example of tenacity—in the creed of tower first, ringers second, captain last—leaves little to be desired: and if all ringers adopt the creed of tower first, brother ringers second and self last the ringing fraternity will be a better company of men than heretofore.—Yours sincerely,

E. V. WILLIAMS.

Bodmin, Cornwall.

## POSTPONEMENT OF SAFFRON WALDEN GREAT RINGING DAY

Following the sudden death of Councillor Phillip Lewis Allen, Mayor and churchwarden, on Tuesday, June 23rd, the Vicar (the Rev. M. R. Sinker, M.A.), decided to postpone the ringing festival.

By the death of Phillip Allen the borough has lost a much-loved Mayor and councillor. The Parish Church has lost a churchwarden who had served in that office for over 25 years.

It is ironical that his first memory of the day he came to Saffron Walden, just 49 years ago, was of the church bells. When he was made Mayor, 12 months ago, he said, 'The church bells were ringing a merry peal and I really thought I had come to Fairyland. The church bells did not say "Turn again." as Bow Bells did to Dick Whittington: there was really no need because I had no thought of turning back. I realised at once that I was amongst friends, and so it has turned out to be.'

Many people gathered to pay their last respects at the funeral at Saturday afternoon and as the cortege drew slowly away from the church the back eight of the grand old ring added their homage in half-muffled tones, expressing the grief that the citizens and ringers felt in their hearts.

## EAST GRINSTEAD & DISTRICT GUILD

On June 13th a most enjoyable meeting was held at Wadhurst. The Vicar (the Rev. A. N. H. Roscamp) met the ringers as they arrived, the first one being William Stote, of Coventry, and, later, Mr. Stedman, from Wyke Regis. Mr. E. J. Ladd saw that everyone had a ring and methods ranged from Doubles to London Minor.

After tea the business meeting was held in the tower. Three new members were elected, viz., Stanley Jenner, of Edenbridge, and Mervyn Potter and Colin Hyder, of Ticehurst. Byncombe was chosen for the August meeting and then Mr. Bassett gave an account of the proceedings at Bournemouth.

With the meeting over, the Vicar conducted a short service, with Mr. S. G. Ponting at the organ. As the ringers went back to the tower they heard the lovely music of Wadhurst's fine set of handbells being guided through a course of Grandsire Triples. Ringing until 8.30 rounded off a very good meeting.

## HERTS COUNTY ASSOCIATION Northern District at Great Hormead

An iced cake in the shape of a bell was a feature at the tea table when the Northern District met at Great Hormead on June 27th. The tea, which was free, had been provided by the local ringers and their wives. Gratitude was expressed by a collection among those present towards the cost of repairing the local band's handbells: this amounted to £2 14s. Forty members and their families did justice to a fine spread.

The Vicar (the Rev. G. A. Hancock) was elected to the chair for the business meeting. Two new members were elected, viz., Miss P. Dodds (St. Ippolyts) and R. Castledene (Baldock). A joint meeting will be held with the St. Albans District at Welwyn and Tewin on Saturday, July 11th, and a District meeting at Aston on August 15th, with the special method of Sandal Treble Bob.

The Vicar, who conducted the service, and the local band were thanked. In reply, the Vicar hoped the District would soon visit the tower again. In the evening Anstey bells were also available and many enjoyed their first ring at this central tower, where the ropes hang in the chancel.

## FORTY YEARS AGO

Extract from 'The Ringing World'  
July 11th, 1913

London.—On April 13th, for a special Odd-fellows' service, at St. James', Bermondsey, 1,131 Stedman Caters in 45 minutes: C. F. Winney 1, T. H. Taffender (conductor) 2, C. H. Hughes 3, W. J. Kemp 4, R. N. Runham 5, R. W. Green 6, C. W. R. Grimwood 7, A. D. Barker 8, F. J. Hardy 9, C. S. Burden 10.

[The existence of a ring of ten in Bermondsey is probably unknown to many ringers. The bells have been unringable for many years, and the above must have been one of the last performances of consequence upon them, although Mr. C. H. Kippin and his band from the Croydon area did accomplish a peal of Grandsire Caters ten years later.]

## THE LADIES' GUILD

### Western District at Bridport

On June 13th the Western District of the Ladies' Guild held their quarterly meeting at Bridport. A coachload of ladies and their escorts journeyed there from the Bath-Bristol district and having started off well by getting lost in Keynsham, eventually arrived at Bridport, after enjoying a ring at West Coker and Axminster and partaking of lunch at Lyme Regis.

An enjoyable service was conducted by the Rector of Bridport (Canon G. C. Clare) after which the ladies held a short business meeting, in the course of which it was decided to hold the June meeting next year at Twerton, subject to the necessary permission being obtained.

After the meeting the ladies rejoined the gentlemen at the tower for further ringing and on the way home a stop was made at Martock where the day's ringing was brought to an end.

## GLASTONBURY PILGRIMAGE

The traditional good weather for the Pilgrimage excelled itself this year with a most glorious day, so hot and sunny that it was found impracticable to ring handbells on the site of the tower in which before 1539 hung the bells of the Abbey. However, a suitable shady spot was found only a few feet away, and at 10.25 a.m. the bells were rung to a few rounds and then fired 25 times to commemorate the 25th Pilgrimage to the Abbey by the West of England Pilgrimage Association.

The bells were suitably amplified so that the vast congregation who were assembling could hear them as they made their way up the nave to the chancel, where the Solemn Eucharist was to be celebrated. The St. Ambrose ringers Guild had been invited to provide the ringing for this service and were happy to ring a quarter peal of Plain Bob Major as a fitting prelude to the offering of the Holy Sacrifice, which was attended by the Bishop of Bath and Wells, wearing cope and mitre, who gave the Blessing at the end of the service.

After the service followed spliced handbell ringing—Plain Bob, Little Bob, Crayford Little Bob and Wellington Little Bob being the methods rung. It was estimated that over 4,000 pilgrims attended the service, and a great crowd watched the ringers in action at the end of the service, many taking photos of a rather difficult subject. The St. Ambrose ringers feel privileged to have been chosen to perform the first change ringing in the Abbey and it is recalled that two of the band rang in the first handbell peal to be scored in Bath Abbey on June 13th, 1952.

The quarter peal of 1,260 Plain Bob Major was rung by Eric Sutton 1-2, Frederick J. Sampson 3-4, Reginald G. Hooper 5-6, John F. Pedler (conductor) 7-8.

F. J. S.

## MEMORIAL TABLET TO MR.

### E. J. AVERY

The monthly practice meeting of the Axbridge Deanery Branch of the Bath and Wells Association was held at Churchill on June 27th. The meeting was well attended by members of the Axbridge and neighbouring branches of the Association.

At seven o'clock the Vicar (the Rev. C. J. Pagett) conducted a short service which included the hymn 'Through the night of doubt and sorrow,' the lesson being read by the president of the Axbridge Branch (Prebendary C. S. L. Alford). The Vicar, local ringers and officers then processed to the belfry, where a memorial tablet to the late Mr. E. J. Avery, a ringer in the tower and an officer of the branch for many years, was dedicated.

After the dedication ringing was continued until nine o'clock when the six bells were lowered in peal. The tablet with the lettering in Roman and the name in block capitals reads: 'Diocesan Association of Change Ringers. In memory of Edward John Avery. Died Sept. 12th., 1952. Ringing Master of the Axbridge branch 1937-1941. Hon. Secretary of the branch 1941-1952. A regular ringing member of this tower.'

## BAN ON SCIENTIFIC RINGING

*During Whitsun week permission was given by the Vicar of South Brent to Mr. A. L. Bennett for a meeting of the Guild of Devonshire Ringers to be held in his tower. A fortnight later Mr. Bennett received the following letter from the Vicar (the Rev. A. L. Vesey):*

*'Dear Mr. Bennett,—Since seeing you last week I have heard from the Lord Chief Bellringer of the parish that there would be scientific ringers at the proposed meeting on June 27th. I am very sorry to appear unfriendly, but I am afraid we have a rule here against scientific ringers in this tower as it is felt that an extra strain is placed on the ropes.*

*'I very much regret having to go back on my invitation which I gave to you last week, but I feel it is only right I stand by the rule which we have in this Church.'*

## BARNESLEY & DISTRICT SOCIETY

The monthly meeting and annual shield contest was held at Royston on June 13th. The draw took place at 3 p.m. The result of the draw and the ringing was:—

	Faults	Penalties	Total
FriezeLand .. ..	89	0	89
Sandal .. ..	174	0	174
Silkstone .. ..	71	0	71
Shelley .. ..	79	0	79
Cawthorne .. ..	68	10	78

Silkstone were the winners and hold the shield for twelve months and each ringer of the band received a glass goblet, which was also a Coronation souvenir. Mr. H. Chant (Felkirk) and Mr. T. Hilton, jun. (Darfield) were the judges.

At the short business meeting the Vicar (the Rev. A. S. Leavey) presided and also presented the shield and prizes to the winners. He assured all of a very hearty welcome and he said it was the first time he had ever had the opportunity of meeting a society of ringers, but he had enjoyed it very much and hoped to meet them again before long. Thanks were accorded the Vicar, the local company for the splendid tea, and to the judges.

## FOR BEGINNERS—

### And a Word to the Older Hands

XXXV.

## A SIMPLE LESSON IN CHANGE RINGING

When you begin change ringing the fewer bells you use at the start, the easier, obviously, will it be to observe and understand what you are doing. For that reason some instructors prefer to start their young ringers on four bells only and others on five.

For the sake of the public it is often best to confine the four-bell practice to handbells, if they are available, for the necessarily slow ringing which changes on four bells involves is not always appreciated. Nevertheless, changes on four bells only are a valuable means of starting a beginner, because unless he is very dense, an explanation with paper and pencil, coupled with the practical demonstration, should quickly enable him to grasp what is required of him and to see something of the principles of change ringing.

In the previous article of this series dealing with progress from call changes to half-pull ringing, we showed how plain hunting was effected: namely, how, with six bells, by changing first all three pairs and then the two middle pairs successively, a 'course' of twelve changes was produced, which brought the bells back to rounds.

On any number of bells this method of procedure will produce twice as many changes as there are bells employed. So that if you reduce your change ringing at the start to practice on four bells, your 'course' will be eight changes. But having thus rung a 'course' until you can definitely see your way up and down—starting from the lead, first over one, then over two and next over three bells until you are 'behind,' and then over three bells, over two bells and over one bell respectively until it is again your turn to lead—you will quickly want to go on to ring the rest of the 24 changes of which four bells are capable.

To do this, each time the treble leads, the bell which led before it, and then immediately strikes over the treble, has another blow in 2nds, making a 'whole pull' over the treble and then leads again. That is called making 2nds place and it causes the other two bells to make a 'dodge'; that is, instead of continuing their course, after passing one another, they step back a place before going on.

If, for instance, at the end of the hunting course no 2nds place is made you will have the bells striking in order in each change as shown in A, but if 2nds place is made you get a new succession of rows as shown in B:—

A	B
3 4 1 2	3 4 1 2
3 1 4 2	3 1 4 2
1 3 2 4	1 3 2 4
1 2 3 4	1 3 4 2
2 1 4 3	3 1 2 4
2 4 1 3	3 2 1 4

In B, the 2nd is said to dodge in 4-3 (sometimes described as 3-4 down) and the 4th in 3-4 (otherwise 3-4 up). The one is *after* a whole pull behind, the other *before* the whole pull behind.

This work does not interfere with the 'plain hunting' of the treble, and it is cyclical for the other three bells. Each makes 2nds, and dodges in 4-3 and 3-4 in turn, but they begin the cycle at different places. It comes in this order after leading:—

	2nd bell	4th bell	3rd bell
First lead	dodge 4-3	dodge 3-4	2nds place
Second lead	dodge 3-4	2nds place	dodge 4-3
Third lead	2nds place	dodge 4-3	dodge 3-4

Remember when dodging over another bell you must 'hold up' a little, and when dodging under you must cut down just a little. Unless you do, you will break the rhythm. Your ears can tell you whether you are too close or too wide. Use them.

## OBITUARY

### MR. FREDERICK H. CROOK

It is with regret that we record the passing of Mr. Frederick H. Crook, of Watford, Herts, on June 18th, at the age of 60.

He learned to ring in his native county (Norfolk) and came to Watford Parish Church in 1930 from London, where for some years he had been associated with the bands at Hammer-smith and St. Andrew's, Holborn.

A capable ringer, he had rung about 65 peals in most methods up to Surprise Major. He possessed an amiable and unassuming disposition and was well liked by all who knew him. Sympathy goes to his widow, son and daughter in their loss.

A peal of Grandsire Caters, half-muffled, was attempted at Watford on June 30th and although not completed, three and a quarter hours' good ringing on these fine bells was a fitting farewell to one whom it was a pleasure to know.

### MR. ROBERT EDWARDS

#### An Appreciation

This most excellent ringer, who was 87, resided at Tenterden, Kent, and the writer had known him over half a century. Bob Edwards was about the best ringer Tenterden ever had. A bold assertion to make, but the writer believes it to be true and without fear of contradiction.

Away back in the late Victorian and early Edwardian eras local change ringing at Tenterden reached its summit. The Tenterden party were tip-top strikers. They knew the pace and beat for Tenterden's heavy ring and kept the correct compass. It was delightful to listen to hear their ringing in touches and peals. Bob Edwards often conducted. He was always out for good ringing and would rather cry 'Stand' than tolerate a lot of mistakes. His brother ringers of those days possessed the same views and consequently when Bob and his men rang peals they no doubt—very rightly—were proud of their excellent achievements.

In those days the local party included G. Neve, G. Cramp, A. Hinds, H. Holdstock, C. Tribe, A. E. Nunn, J. Bassett and F. Edwards, all, like Bob Edwards, really good strikers. Charles Tribe, who taught many recruits at Tenterden, left the town a few years ago. No one has heard anything of him. He would be about 95 years of age. Any information about him would be appreciated and could be sent to the Tenterden secretary, Miss V. Relf, 130, High Street, Tenterden.

But let us come back to the late Bob Edwards, who rang many peals. His favourite method was Stedman and in recent years peals of Stedman Triples were rung at Tenterden for his birthday. His age and condition did not permit him taking part, but he listened to the ringing throughout. However, in his octogenarian years, he was able to climb to Tenterden's lofty tower and ring short touches.

His funeral at Tenterden was attended by local ringers and many ringing friends from various places. Some of us walked on either side of the coffin, the Vicar of Tenterden (the Rev. C. S. W. Marcon) officiated and gave a short, suitable address. We then went to the Cemetery, where ten handbells were rung around the grave.

Half-muffled ringing followed at the church and again in the evening, this concluding our last tribute of respect and affection to one of Kent's most talented ringers, who was spared by Almighty God to enjoy his ringing throughout his long life.

G. B.

### MR. GEORGE THOMAS LEADER

Only last month we reported the death of Mr. E. T. Hooper, of Slough, Bucks. Now we learn of the decease of another Slough stalwart, Mr. George Thomas Leader, who died on Wednesday, June 24th, aged 88 years.

A few months older than Mr. Frank Sinkins, of Slough, Tom Leader learned to ring in 1879, when Slough had six bells. He found the change-over to eight bells rather a struggle but, under the instruction of Messrs. Wilder and Flaxman, like Ted Hooper, he mastered the standard methods on eight bells. For many years between the wars he was steeplekeeper at Slough Parish Church and, while attending to the bells, slipped off the frame and received injuries which incapacitated him for a long time and, when he eventually recommenced ringing, he always remained at the light end. He gave up active ringing shortly before the 1939 war.

Mr. Leader always delighted to relate how, during the 1914-18 war, when the men were all away on active service, he trained a complete band of lady ringers to keep Slough bells ringing, of which two of his daughters were part.

His peal total is small, his last peal being one of Bob Major at Slough in 1932 in commemoration of the late James Elliman (of Elliman's Embrocation), who was a great benefactor to Slough and gave the new tower and bells in 1913, and for whom Tom Leader worked for many years until his retirement.

Mr. Leader was cremated and his ashes were interred at St. Laurence, Upton, the original Parish Church. On the evening of his funeral a half-muffled quarter peal of Grandsire Caters was rung at Slough.

W. ROBERTS.

### MR. A. E. NICHOLS

After only nine days' illness Mr. Alfred Elias ('Ellis') Nichols died in Stoke-Mandeville Hospital on June 19th, aged 69 years.

By his passing, Maids-Moreton and Buckingham towers have lost one of the most loyal and devoted ringers. For over 50 years Mr. Nichols had been a regular ringer at Maids-Moreton. Although for the past 16 years he had resided at Buckingham, he never missed attending Maids-Moreton for evening service on Sundays and practice nights. It was in this tower he rang his last quarter peal on Coronation morning. He also gave loyal service to the Buckingham tower on Sunday mornings and practice nights.

Mr. Nichols did much to introduce change ringing into Buckingham. When he joined the tower, in 1938, it was a call change band. He had rung six peals—five of Doubles (one as conductor) and one of Minor. He always enjoyed ringing quarter peals and on June 25th, when he was interred in Buckingham Cemetery, 1,260 Grandsire Triples was rung half-muffled at Buckingham by his fellow ringers, viz., Miss M. Coleman 1, Miss D. Spokes 2, H. Jones 3, G. Gough 4, G. W. Holland 5, F. Vickers 6, W. Yates (conductor) 7, W. Townsend 8. Maids-Moreton bells were also rung half-muffled in the evening.

W. J.

### MISS M. E. THORPE

The death of Miss Mary Elizabeth Thorpe, of Ashton-under-Lyne, occurred on June 20th at the age of 69 years.

The Thorpe family has been ringing for a great many years and she was the sister of Benjamin Thorpe and a niece of John Thorpe, the well-known composers and conductors. 'Sis,' as she was affectionately known, had the distinction of being the first lady conductor in the North of England when she conducted a peal of Grandsire Triples to commemorate peace at the close of the 1914-18 war. She was also the first lady in Lancashire to ring a 12-bell peal and was a very active church worker.

The service was at St. Peter's, Ashton-under-Lyne, on June 24th, and was followed by cremation at Dukinfield.

A plain course of Grandsire Triples was rung on handbells by the following ringers:—A. Barnes 1-2, P.C. R. Benson 3-4, J. Carter 5-6, P.C. W. Robinson 7-8. Among those present were Miss E. Walker, ex-P.C. J. Mulliner, Messrs. J. Turner, G. Pye and B. Wilshaw.

## WILLIAM SOTTANSTALL

### A 19th Century Pioneer

From time to time the name of William Sottanstill appears in the peal columns as a composer of peals, chiefly those of Treble Bob, and more than once the writer has been asked various questions regarding this composer, therefore it may be of some interest to relate very briefly a few events in his life.

Born on July 9th, 1800, at Sowerby, Yorkshire, he was a son of John Sottanstill, a ringer at Sowerby for some 45 years. Young William did not get any day-school education owing to the shortage of schools, and his only means of learning was by Sunday School, coupled with the self-taught method. At seven years of age he had to start work as a bobbing winder, and at 14 he was put on to learn damask weaving, a trade he followed until machinery took over the work of hand looms.

In 1820 Sottanstill commenced ringing at St. Peter's, Sowerby, and it was nearly three years before he attempted his first peal. His first peal as conductor was in 1828, but how many he rang and conducted during his career I am unable to say. In 1838 he was appointed Parish Clerk of Sowerby, a post he fulfilled faithfully for over 50 years. Life was none too easy in those days, and it was a sad blow when his first wife died, leaving him with ten children, one only a month old.

Sottanstill wrote 'The Elements of Campanologia' (1867) during his few leisure hours, a work which took nearly 40 years. A Colonel Akroyd, of Halifax, gave half the cost of publishing Sottanstill's works, but apparently the printer failed with the result that all the parts were not printed. Some of the manuscript seems to have been lost before publication could be proceeded with and Sottanstill was unable to see his complete work in print or secure the return of his manuscript. Undoubtedly his favourite method was Treble Bob, and in this field he produced many fine peals, some of which are still rung.

Sottanstill was quite content to remain in his native Sowerby all his life and for over 80 years he was connected with the parish church, first as scholar, then teacher, singer, ringer and parish clerk. Jasper Snowden bestowed upon him the title of 'prince among Yorkshire ringers.' He was married four times, which is rather unusual. He passed away in May, 1889, within a few weeks of his 89th birthday. His zeal, patience and perseverance enabled the Exercise to obtain material of vast importance in days when ringing literature was none too plentiful.

WILLIAM SHEPHERD.

## GUILD OF DEVONSHIRE RINGERS

### Meeting at Buckfastleigh

The Mid-Devon and South-West Branches of the Devonshire Guild of Ringers held a joint meeting at Buckfastleigh on June 27th, when despite the moderate attendance, a very enjoyable time was spent.

The bells were well utilised during the afternoon, and after an excellent tea at a local cafe, hearty votes of thanks were accorded to the Vicars of Buckfastleigh and Dean Prior for the use of their bells.

One fully-qualified certificate was presented and one new member was elected to the South-West Branch.

The Mid-Devon Branch secretary (Mr. A. L. Bennett) reported that the meeting had been transferred to Buckfastleigh because permission could not be obtained at South Brent, and the meeting entirely disagreed with the reason given.

Ringing took place at Dean Prior in the evening.

A. L. B.

## LEEDS & DISTRICT SOCIETY

The monthly meeting at Kippax on June 27th was attended by members from Armley, Batley, Bradford Cathedral, Calverley, Guiseley, Halifax, Headingley St. Michael's, Leeds Parish Church, Rothwell, Collingham, Thorner, Elland and the local company, and also visitors from Sowerby.

The bells were raised in peal shortly before 3 p.m. and kept going in various Doubles and Minor methods till 5 p.m. when a halt was called for tea and the business meeting. The president was in the chair. The vote of thanks to the Vicar, churchwardens and local company was ably proposed by Mr. Sutcliffe and seconded by Mr. Dixon. Mr. Lawn replied. The next meeting will be at Bramley on July 25th.

The secretary read a copy of the loyal address sent to Her Majesty Queen Elizabeth on the occasion of her Coronation, and the reply received from the Home Secretary.

The list of towers for the next two years was read and approved. Further ringing till 8.30 concluded a very successful meeting, where youth was given every opportunity and encouragement.

## AT THE ODDFELLOWS' CONFERENCE

Thanks to the assistance of two visiting ringers, Mr. 'Ted' Walker, Dover and Mr. G. F. Ball, Stoney Stanton (doing his military service at Folkestone), and answering the note in 'The Ringing World', and to the local band, including Mr. F. G. Whittaker, secretary, Mr. T. J. Anderson and Mr. J. Willis, ringing took place for the special Oddfellows' service at their A.M.C., at the Parish Church of SS. Mary and Eanswythe, Folkestone. Oddfellow ringers included Brothers Arthur Spooner and son Edwin (Banstead), S. F. Millward (St. Giles', Northampton), J. G. Burgess (Frieze), Frank Verney (Elham, Canterbury) and W. Frank Stenson (Christ Church, Crewe).

The church was full to overflowing, approximately 1,200 attending. An inspiring address was given by Canon Ian H. White-Thomson (chaplain to H.M. the Queen) Vicar and Rural Dean, with Mr. R. Adams, A.R.C.M., at the organ.

Further ringing was enjoyed at St. Mary's, Dover, on Wednesday, and at Folkestone on Thursday evenings, when Mr. and Mrs. George and others joined in.

Now on to Southport for next year.

## Gratefully Acknowledged

The Editorial Committee acknowledge with gratitude the following contributions received towards meeting the cost of the 20-page issue this week:—

Personal.—North Staffordshire Ringers 15s. 6d., M. Baker 5s.

Quarter peals.—Oxhey 2s. 6d., Bacup 3s., Colchester 2s. 6d., Clunham 2s., Kempsey 2s. 6d., Rougham 3s., Streatham 2s. 6d., Roydon 2s., Rumney 2s., Hadlow 4s., Great Levermore 2s. 6d., Oxhey 2s. 6d., Wallingford 4s., Shore-ditch 2s.

## HELMINGHAM OUTING

Kent again proved a most attractive county to Helmingham ringers for their outing on June 27th. Headcorn, Tenterden, Biddenden, Goudhurst and Marden were the towers chosen and some good ringing from Kent Treble Bob to London. Bristol and four spiced methods was enjoyed. Our thanks are due to Mr. T. F. Sone for his valuable information, to Mr. G. W. Grant, Miss V. Relf, Mr. H. D. Deacon, Mr. F. Bond and that stalwart Mr. George Haytor, of Goudhurst, who has over 50 years' service at this tower and is still going strong. Also to Miss Vidler and others who helped to make this outing such a success. Some 230 miles were covered.

## OUTINGS

### ST. LAURENCE'S, READING

Whit Monday this year saw a very small party set off to the West Country, owing to the closeness of the Whitsun holiday to the Coronation. However, it was a happy day, as usual, and the first call was Queen Camel, everyone admiring the grand six.

Then on to Exeter for luncheon with the Devon Guild, who were holding their annual meeting in that city. The Reading people were delighted to have a few hours with the genial secretary of the Devon Guild, who rang with us for a considerable period some years ago and the writer was also glad to have fleeting moments with old friends in Preb. Cox, Mr. Stafford Green, the Myers family, the Stratton (Cornwall) boys and Capt. Poyntz.

Then followed ringing in the city—at the Cathedral, St. Thomas's and St. Mark's. We thank the Cathedral captain for putting the twelve entirely at our disposal for half an hour.

Leaving Exeter to find a charming eight at Sowton, where a fast three courses of Stedman Triples was thoroughly enjoyed by ringers and listeners alike.

Ringing was quite good at Honiton Clist on a good eight, but all the party agreed that the last tower of the day was the climax—the beautiful tower and bells at Broadclyst. It was with regret that we had to leave fairly early on our long run back to Reading. Thank you, Devon Guild, for your share in helping to make our day so happy.

W. HIBBERD.

### WANSTEAD AND WOODFORD

Fine weather favoured the Wanstead and Woodford ringers and their friends for their annual outing on June 20th, when a party of 70 visited Thaxted, Great Easton and Witham.

Many of the party visited Thaxted for the first time. This small town of Saxon origin, famous in the Middle Ages for its wool and cutlery trades, is proud of its magnificent church, dedicated to St. John-the-Baptist and St. Lawrence (Patron Saint of the Cutlers). All in turn took part in touches of Grandire Triples, Bob Major and call changes on a tuncful and easy-going eight (tenor 15 cwt.) restored in March, 1949. An hour or so passed quickly in this grand church with its wide open spaces, its simple altars and colourful hangings, carpets and banners.

Great Easton, reached after a short ride, has much to boast of besides its pleasing ring of six bells (tenor 11½ cwt.) and interesting interior. Eminent men including H. De Vere Stacpoole, H. G. Wells, Ralph D. Bloomfield, Sir George Causden, Gustav Holst and S. L. Benson have resided in this attractive locality, which is truly rural. Touches of Plain Bob, Kent and Grandire Doubles were rung and enjoyed.

Witham was reached on time and at the old Spread Eagle Hotel a high tea was provided and full justice done by all. A special feature was an artistically decorated cake to represent the Crown. At the end of the meal Mr. J. Chalk thanked everyone who had contributed to the success of the outing with a personal welcome to old ringing friends from Walthamstow, Loughton, Romford and Witham. Mr. C. F. Willis (Wanstead) responded on behalf of the non-ringers in an amusing and interesting speech o towers and bells.

Then followed a visit to the Church of St. Nicolas, regarded as one of the best edifices in Essex, with good examples of early 14th century workmanship. Touches of Bob Major, Grandire Triples, Bob Minor and call changes were greatly enjoyed on a fine-sounding eight (tenor 18 cwt.). This concluded a happy day among the bells and the pleasant countryside. The spirit of comradeship had been strengthened and confidence gained by those who had recently become Association members. All offer their sincere thanks to the incumbents for the use of the bells and to the ringers who greeted the party at their home towers.

## NOTICES

### Scale of Charges

The charge of Notices for meetings is one penny a word, minimum 2s. 6d. For additional insertions with no change of type one half of the above charge for each insertion.

Other Notices one penny per word, minimum 3s.
