## THE EASTER VENTURE

**H**ARDLY a week passes without one or more obituaries in this journal; never a day without a long list in the daily papers of people departed this life. The shadow of sorrow lies always over our world. The fact of Death is inescapable—one thing which has never been tempered or changed by the philosophies of the ages, nor disproved by the cleverest logicians. Systems of ethics, fathered as by Aristotle, may point to Happiness as the greatest good of man, but can never screen men from the sadness involved by death. All such systems remain in the realm of the temporal. And in any attempts they make to pierce the veil they only take refuge in a doctrine of the 'Unknowable.' So their followers wander through the mystery of human existence and find no rest for the soles of their feet.

But over and over again in these obituaries tributes are paid to what this man or woman has accomplished; to something which they have contributed to the world's movement; to the uplifting of their fellows; to the triumph of the spiritual over the animal nature; and to a faith which no spectacle or threat of mortality has been able to weaken. Something which lives on after them, inspiring courage and effort, witnessing to the truth

'That men may rise on stepping stones  
Of their dead selves to higher things.'

For the fact of Death, real as it is, has been eclipsed by the great historical fact of the Cross of Jesus Christ and His Resurrection from the dead. And in the process of that eclipse the Cross with all its agony and darkness and sorrow must come first. That can never be glossed over, or forgotten, for it was, and is, for all time the revelation of the Way of God for the redemption of human life. The Way of God can never again be imagined as the way man might wish it to be—a path of glorious sunshine, and not rather a way of suffering and the bearing of the Cross. But now, in the light of Easter, Christian disciples faced with the Cross breathe the air of eternity: they are conscious of being touched by that Wisdom which to the ordinary man is folly. Now in the Cross is mirrored the reality beyond all that is earthly:

'O world invisible, we view thee,  
O world intangible, we touch thee,  
O world unknowable, we know thee,  
Inapprehensible, we clutch thee.'

Easter, then, points us to the real understanding of the way of accomplishment. The Resurrection is the proclamation of the truth that though the steep ascent to Heaven has to be climbed 'through peril, toil and pain,' the value of such experience has an enduring quality, and emerges into the glory as of a lovely flower breaking forth from the seed which had to die to bring it to birth.

Thus, on Easter Day, we are not merely commemorating a unique event in history—an Act of God which freed His Son Jesus Christ from the fetters of death. He does not remain a lone figure on a distant horizon. By virtue of His Risen Manhood He brings men on to the new and living way towards God which He has trodden ahead of them for that very purpose. He is the leader of all men towards the gate of Heaven which by His own obedience and travail He has opened to all believers. He is, indeed, the undying hope and ever-present joy of all who follow Him and share the grace of His onward movement.

The bells of the Christian Church, then, on Easter Day are echoing the 'Reveille' of the open Heaven. Awake, they call, and arise to the dawn of ventures beyond the corruptible! They are the *Sursum Corda* to a travelling and floundering humanity. The Son has accomplished 'the work which the Father had given Him to do,' and in His Name and through His Word the victory of faith is sure. 'In the world ye shall have tribulation; but be of good cheer, I have overcome the world.' 'Heaven and earth shall pass away, but My Words shall not pass away.'

May we who ring the Easter bells take this to heart afresh. Progress, whether it be in the technicalities of our art, or in its social ideals, is beset with difficulties and frustrations: and sometimes that has meant, and can mean, a dropping off the path, an abandonment of effort, or a turning to other interests which seem to offer less discouragement, more kudos, and to make fewer demands upon one's patience. Well, that is simply a misunderstanding, perhaps desertion, of the Cross making it a barricade to enlightenment: whereas the true Christian conception of its nature in one's life is that expressed by Thomas a Kempis: 'If thou bear the Cross cheerfully, it will bear thee, and lead thee to the desired end, to wit, where there shall be an end of suffering: *though here this shall not be.*' And Easter is the ringer's incentive, through all the apparent drudgery and humiliation of failures, through every shadow, through any checks to concord, to tread with unshakable faith the new path to the ultimate triumph of the Spirit of Christ, by Whom and in Whom all our service here shall be glorified.

## HERTS COUNTY ASSOCIATION Northern District

A successful ringers' meeting was held at St. Nicholas', Norton, on April 2nd. After a late start many people enjoyed a ring before the Rev. G. G. S. Kenyon conducted the service, with Mr. K. Rooke as organist. This was the last ringers' meeting during Father Kenyon's incumbency.

Another 'last time' was for Mr. G. Debenham, president of the Association, whose current term of office ends this month. He honoured us by his presence, and took the chair at the business meeting which followed the excellent tea provided by Mrs. H. Werrett and friends. Miss H. Pound, of Norton, the Misses J. Carling and H. H. Starte, and Mr. M. Trigg, all of Hitchin, were elected ringing members. The next meeting will be at Anstey, not Ashwell, and the next quarterly business meeting at Knebworth.

Later, ringing continued in methods to suit all, from rounds to Bristol Surprise Major. J.S.

Bells will be heard prior to the broadcast of the morning service on Sunday, April 24th, at 9.45 a.m. in the West Home Service, from Sutton Veny Parish Church, near Warminster, Wiltshire. The service will be conducted by the Rector, the Rev. D. V. Evening, and the captain of the ringers is Mr. A. Eyres.

Mr. Alfred Ballard, of Leicester, rang his 800th peal on March 22nd.

South Wales Nomads at their meeting at Llanfrechfa, elected three new members. Despite the rain, which persisted all day, the meeting was well attended. A motor-cycle shuttle service was operated at the conclusion to get all ringers home.

Immediately after the wedding of Miss Elizabeth Sams, at Nazeing, on April 2nd, six members of her family rang the bells for a short touch, her father being the tower captain. A peal of Plain Bob Minor followed and afterwards the band was kindly entertained by Mr. C. Sams.

Winchester Cathedral band informs us that there will not be a practice either in Holy Week (which is usual), or in the following week. They expect to be open to visitors on April 27th at 7.30 p.m. and on subsequent Wednesdays. The College Youths are attempting a peal on the Cathedral bells on Saturday, April 23rd.

Mr. Seymour R. Barker, tower captain of St. John the Baptist, Cardiff, has been ill for the past five months, but is now on the road to recovery. He has been associated with this tower since 1906, and has rung over 100 peals in its belfry. Perhaps his most memorable peal was that of Stedman Triples, rung on January 20th, 1938, in this tower, by Past Masters of the Llandaff and Monmouth Diocesan Association. The band consisted of John Phillips (Master, 1931) treble, S. R. Barker (1932) 2, Fred Atwell (1901) 3, J. W. Jones (1898) 4, Frank Bailey (1922) 5, Charles Perry (1928) 6, Albert Pitman (1926) 7, Tom Page (1910) tenor.

## BELFRY GOSSIP

The Coventry Diocesan Guild are making their first contact with the new Cathedral and its authorities at their annual meeting on April 23rd. The service will be held in the Chapel of the Cross in the new Cathedral, and tea served in huts in the Cathedral precinct.

After being silent for ten years, the bells of Stow Bardolph, Norfolk, were rung to a quarter peal on March 30th.

The late Mr. Harry E. Wills, concerning whom information was recently requested, rang in three peals at St. Patrick's Cathedral, Dublin, in 1927, when he was a member of St. Patrick's Change Ringing Society.

We are still receiving quarter peals for the birth of Prince Andrew. The latest to be received is from Eastham, Wirral, Cheshire, rung on February 19th. Methods rung were Plain Bob Minor and Single Oxford and the band consisted of B. C. W. Jenks (first quarter) 1, G. Halford 2, Mrs. F. R. Ferris 3, R. E. D. Hamn 4, K. C. Edwards 5, F. R. Ferris 6.

Mr. Hugh Falkner, of the College of Technology, Kingston, Jamaica, is never certain of the sequence of the arrival of his 'Ringing World': This is how his copies have arrived this year, January 1st, January 15th, February 5th, January 22nd, February 12th, January 8th, January 29th and February 19th. He writes: 'I really wouldn't know what method of change ringing could produce that order from normal rounds.' He sends greetings to Cirencester and Croydon ringers.

In St. Patrick's Cathedral, Dublin, on February 28th, the Very Rev. J. W. Armstrong, Dean of the Cathedral, dedicated a memorial brass peal board in the ringing chamber, erected in memory of Mr. R. S. F. Murphy, P.C., who was a member of the St. Patrick's Society of Change Ringers for 59 years and president for nearly 25 years. Members of the family and his fellow ringers were present at the ceremony.

## WEDDINGS

## Two Slough Ringers Married

Slough ringers went all festive on Sunday, April 3rd, when two of their number, Mr. David Livingston and Miss Janet Adamson, were married at Slough Parish Church by the Rev. E. W. Perkins, Rector, and chairman of the East Berks and South Bucks Branch of the Oxford Diocesan Guild.

Mr. Livingston came to Slough a few years ago from Sidcup, Kent, in connection with his work in the Post Office Telephone Engineering Department, and was taught to handle a bell by Mr. George Gilbert, of Burnham, but later joined the Slough band. Miss Adamson began ringing at Slough, while still a pupil at Slough High School, and has rung a number of peals in various methods.

The wedding was held on Sunday as no choral services or wedding bells are allowed during Lent, and the Rector very kindly broke a year-old ban on Sunday weddings in the parish to please both David and Janet, and the ringers. The congregation included well over twenty ringing friends, and it was a great pleasure to have with them Mr. W. Hibbert and Mrs. Pat Lewington, of St. Laurence's, Reading, with whom the bride and bridegroom had rung a 'quarter' of Stedman Cinques a few days previously. Among the hymns chosen was 'The Ringers' Hymn,' and the choir was certainly not needed to help with that, as the 'ringers' choir' made their presence heard in no feeble manner.

After the ceremony the Rector, as president, made a presentation of china-ware to the happy couple, beneath the tower, on behalf of their ringing colleagues. They arrived at the church to the tune of Grandsire Caters and Bob Royal and left to the sound of Grandsire Caters and Cambridge Major. A quarter peal of Plain Bob Royal was rung in the evening, details of which appear elsewhere.

The reception was held at the bride's sister's home at Widbrook Common, near Cookham, where all the ringers present voted it the most enjoyable wedding they had ever been privileged to attend. The best man was Mr. John Norsworthy, captain of Bray-on-Thames ringers, and Miss Mary Adamson, sister of the bride, and also a Slough ringer, was bridesmaid. The happy couple are spending their honeymoon in South Devon, and on their return will live in Maidenhead.

## A Blunsdon Wedding

Two well-known ringers—Mr. Brian Bladon and Miss Lesley J. Hawes—were married at Blunsdon, Wilts. on April 2nd, the ceremony being attended by local ringers and certain 'Friends of the Exercise.' The bridegroom taught the bride to ring at Stamford Hill, Tottenham.

The bride, dressed in ivory satin brocade, and wearing a coronet with short veil, was attended by two bridesmaids dressed in blue satin brocade. The best man was Anthony R. Peake.

The reception took place at 'The King's Arms,' Swindon, and the honeymoon is being spent in Somerset.

The bells at Blunsdon were rung before and after the service. A 720 of London Surprise Minor was rung by: B. S. Sheppard, Mrs. P. Mayne, W. H. Trueman, Miss F. Secker, Miss J. Secker and J. R. Mayne.

## Tips For Beginners—16

If you wish to start conducting you will find it a help to remember that you can call three bobs in the same position in consecutive courses to give a complete touch in any method in which three bells are affected by a bob.

## SERVANTS OF THE EXERCISE – No. 16

MRS. P. J. STANIFORTH,  
President of the Ladies' Guild.

Mrs. P. J. (Jill) Staniforth can only be described as the gifted and talented daughter of brilliant parents, and the devoted wife of another equally brilliant ringer, Peter J. Staniforth. Her record is so remarkable that it should stimulate all ringing members of her sex (aye, and the other sex, too!) to emulate her achievements. Yet in spite of all this Jill is a most modest and unassuming young lady. She stands high up in the affections of all who know her.

UNIVERSITY OF BRISTOL  
SOCIETY

On March 12th, members of the Society were very fortunate in being able to hear a most interesting talk given by Mr. York-Bramble on the instruction of those learning how to ring. The meeting was held at Christ Church at the kind invitation of the Rector, the Rev. Mr. Calderwell, the University tower of St. Michael's being too small for the occasion. Professor Brocklehurst, the president of the Society, was in the chair.

Mr. York-Bramble, who is the Principal of the College of Campanology, gave a most instructive talk—a talk which, being delivered with such attention to important detail and covering the ground from teaching the beginner how to handle a bell to when he learns change ringing, was divided into two parts, the second half following after a most delicious tea in the Church Hall, to which the Rector had very kindly invited us.

Another popular occasion was the coach outing of the term which took place the following Saturday and was attended by most of the Society. Towers visited were Stone, Tewkesbury Abbey, Quedgeley and Dursley, all of which gave us much enjoyment and new experience, especially Tewkesbury Abbey, where although the tenor sometimes required three people to handle it, there was still polite rivalry as to who should ring it.

After admiring the Abbey we had tea in one of the many picturesque cafes in the town and finished up at Dursley after visiting Quedgeley on the way. We arrived back at Bristol at about 11 p.m. after what, I think, all would have called a very enjoyable outing.

M. B.

Born in 1928, she commenced her education in the County Primary School, and from there went to Newark Grammar School, finishing at Leicester Commercial School. After working for the Leicestershire County Council she took up secretarial work with the organiser of the County Council's Home Help Department, at the age of 21.

Because of the 1939 war, Jill had to learn her ringing the hard way, for the bells had been silenced. Not to be deterred, however, she learned to ring on handbells, and rang her first peal (Stedman Triples) with her parents and A. H. Pulling in 1942, before she could ring on tower bells. Indeed, she rang nine peals 'in hand' before her first tower bell peal, again Stedman Triples, in 1944. She could only learn on silent tower bells—for, in spite of the war restrictions, the Leicester Cathedral band held regular silent practices.

The first opportunity she had to ring with the bells 'open' was when they were ordered to be rung for the El Alamein victory. Then she went forward with a rush, and in October, 1944, rang a peal of Cambridge Surprise Maximus—being only 15 years old, and the youngest of her sex to ring a peal of Maximus. Among the many other noteworthy performances of this extraordinary young lady are a peal of Stedman Sextuples (the second ever rung) and a peal of Treble Bob 14 in, on handbells. She is the only lady who has rung Cambridge Surprise on handbells from Minor to Maximus, and in November, 1954, conducted a peal of London Surprise Major which was her parents' 100th peal that year. She has rung peals in 19 Maximus methods, plus Spliced Surprise in 2, 3, 4, 6, 7, 8 and 10 Maximus methods. Bristol Surprise Maximus is also amongst her achievements.

She married Peter John Staniforth in 1951, and they have one daughter, Rosemary, who was made an honorary member of the Ladies' Guild when three weeks old. At the time this young lady was born, Jill was listening to a peal of Gartree Maximus, which was being rung at Leicester Cathedral, not far from the Nursing Home. Naturally, a lady with such fine accomplishments would soon be preferred for high office, and she served as secretary, Midland District, Ladies' Guild, from its formation; Central Council representative Ladies' Guild from 1951 to present date; District Committee member and District chairman, Leicester Diocesan Guild, and in 1959 was elected President, Ladies' Guild. Her peals total is tower 266, conducted 16, handbells 108, conducted one, 374 in all.

It is safe to predict that under Jill's capable leadership and example the Ladies' Guild will progress to even greater heights.

WEST DORSET RINGERS' GIFT  
TO CANON C. C. COX

Bell ringers from eight West Dorset towers gathered in Bridport Church House recently to make a presentation to Canon C. Carew Cox, who retired in December, after 31 years as chairman of the West Dorset Branch of the Salisbury Diocesan Guild. Canon Cox received a wrist watch from the ringers, the presentation being made by Mr. J. Barrett, the West Dorset Branch secretary.

Mr. Barrett said that looking back through the minute book, he realised that considerable progress had been made by the branch during Canon Cox's 30 years as chairman. It was largely due to his untiring work for the branch that it was in its present healthy state.

There were about 50 members present and Mr. Barrett said the size of the gathering was indicative of the respect in which Canon Cox was held.

Thanking the members for their generosity and good wishes, Canon Cox said it had been a pleasure to work for such a smooth-running branch with such able officers and loyal members.

Members rang the bells of St. Mary's Church before and after the presentation.

## A STAFFORDSHIRE VILLAGE TOWER

[Photo by permission of 'Stone Guardian']

This picture is given as typical of English ringing in our villages today. It was taken on a practice night at St. Mary's, Swynnerton, near Stone. Left to right in front are three juveniles, Derek Howard, Leslie Howard and Malcolm Skiffins. In the centre is the Ringing Master (Mr. W. H. Watkins). Miss E. Hotston and Miss Ann Vickery, and behind is Mr. A. Vickery. Two other members of the company, W. Warrillow and Miss Antonie Vickery, are not in the picture.

Swynnerton was at one time the living of the late Rev. J. B. Frith, who was a member of the Central Council from 1932-35 as the representative of the North Staffordshire Association and was instrumental with Mr. W. R. Frith in getting the bells rehung in 1926, the work being done by James Groves, of Birmingham. He rang in a peal (Grandsire Doubles) on the bells on February 23rd, 1929, the other members of the band who came from Stone being Willis Buckley, Harry Hodson, Jack Heal, Arthur Rowley and Claude Templeton.

In 1939 the present tower master took over and Mr. Watkins has remained in office ever since. The bells were rehung in February, 1954, and were rededicated by the Bishop of Lichfield.

The weights of the light six are: Treble 4 cwt., second 4 cwt. 23 lbs., third 4 cwt. 2 qr. 2 lbs., fourth 4 cwt. 2 qr. 8 lbs., fifth 5 cwt. 19 qr. 4 lbs., tenor 7 cwt. 19 qr. 8 lbs. in A.

### GUILDFORD DIOCESAN GUILD Chertsey District

Owing, perhaps, to the warm spring weather, the meeting at Ottershaw on April 2nd attracted representatives from most towers in the district and also several visiting ringers from places as far distant as Amersham.

Prior to the service, conducted by the Rev. D. Hiam, those present stood in silence in memory of Mr. Bob Andrews, who had passed away during the week. Until his retirement, due to ill-health, five years ago, he was a faithful and respected member of the Ottershaw band, and it was with deep regret that all those who knew him received the news of his passing. He was a regular attender at Guild meetings and always inspired everyone with his friendly attitude and words of advice.

Following a very good tea at the Otter Hotel, a short business meeting was held. Mr. F. Hawthorne thanked the Vicar, organist and all those concerned in organising the meeting. Before returning to the belfry, where ringing continued until 8.45 p.m., a collection was made for the Cathedral Bells Fund.

H. E. P.

A different clergyman came to the village. On meeting a veteran in the churchyard, he said: 'So you are one of the ringers, John?' John replied: 'Yes, sir.' Clergyman: 'You have been ringing a good many years?' John gave the same answer. He then asked: 'Did ever you ring the old year out and the new year in?' John quickly replied: 'Oh yes, sir, hundreds of times.'—G. E. SYMONDS.

## STRAIGHT WORDS TO 'BIG FOUR' OF VARSITY RINGING

Dear Sir.—If, as Mr. Lakin believes, the other University Ringing Societies have been neglected by the 'big four,' how can he be certain of our ringing standards?

Where do our Southern contemporaries find cause to class themselves as the 'big four'—from the peal columns? The number of peals, relatively speaking, is no true guide to the standard of a ringing society. Some of the best striking in the country comes from ringers who have never taken part in a peal attempt. A well struck peal of Plain Bob, also, is often a much better achievement when people are learning (which is, I am told, what we come to University for) than one of a new Surprise method fired round—this despite the views of a certain well-known ringer who thought peals of Plain Bob were rung by some people as 'safe' to assist their peal totals.

If people were to read further into their 'Ringing World' they would not find the other Universities lagging so far behind. Of the advertised tours that of Manchester seems, besides being the longest, by far the most ambitious. Also a peal week is being planned for the early summer, and tours of the Lake District and Scotland have already been enjoyed this year.

Our handbell ringers at 'Tech' may not have the time or inclination to ring peals but their one achievement this year has been very great. To ring non-stop for 11 hours, whether or not the ringing followed Central Council decisions, is magnificent, and we must also remember it helped to raise money for very deserving charities—and who hold the record for Rag collections?

Although we cannot claim to be of the same resident size as Cambridge and others, eight bells are always rung at Salford and attendances of over 20 are normal at Tuesday night practices when up to 12-Spliced is rung. Members also avail themselves of the practices in the area, especially at the Town Hall and Cathedral, where opportunity is provided to learn proficiency on the higher numbers.

Manchester are bringing themselves up (or perhaps it's down) to the level of the other four by contemplating Central Council affiliation. Any idea the Southerners have that they form 'the big four' should here and now be scotched. And Manchester are sure there are other Societies as well as themselves who could scotch the theory.

As far as the Universities Association is concerned it provides little more than a marriage bureau (that's what you said, Mr. Roaf, I believe). Normally all their activities are definitely southern, both in origin and location. It is with some delight we see that they are coming as far north as Sheffield this year. I hope they bring plenty of soap!—Yours sincerely,

R. J. JOHNSTON.

## A BELL RINGER'S ADVENTURE

Dear Sir.—With reference to the article 'A Bell Ringer's Adventure' on page 236, the original story was named 'The Man in the Bell,' and was written by W. E. Aytoun, who lived from 1813-1865.

Incidentally, I first read this story in bed at 12 midnight, with a howling gale outside!—Yours faithfully,

A. M. COOMBS.

Penarth, Glam.

## FIRST PEAL AT HALKYN?

Dear Sir.—With reference to the peal at Halkyn, Flintshire, I am given to understand that a peal has never previously been rung at this tower. We did make an attempt in 1953, but were defeated by one of the ropes slipping wheel and the excessive noise in the ringing chamber. Since that time the bells have been overhauled and the wheels, which were in a bad condition, renewed. This 'go' is now quite good, although they are still somewhat noisy in the ringing chamber.

A further attempt was made last summer, but unfortunately our visit coincided with the village fete, and as the noise of the bells interfered with the performance of the band, the attempt had to be abandoned. Another band also made an unsuccessful attempt.

It is understood that this church was built by the first Duke of Westminster, and it is interesting to note that with one exception they were all dedicated to St. Mary. The churches concerned are: St. Mary, Eccleston; St. Mary the Virgin, Pulford; St. Mary without the Walls, Chester; St. Mary the Virgin, Halkyn, and St. John the Baptist, Aldford.—Yours faithfully,

JOHN W. GRIFFITHS.

Upton-by-Chester.

## THE 1911 PEAL AT VANCOUVER

Dear Sir.—The letter from Mr. Weatherby, of Los Angeles, in your issue of April 1st, makes interesting reading, but the information which he gives concerning the peal at Vancouver in 1911 needs some correction.

Mr. Weatherby rightly mentions that all the band were Englishmen who were then resident in Canada. The ringers, however, were not as he states, but were as follows: Alfred C. Limpus (Windsor) treble, George W. Foster (Borden) conductor 2, Frank M. Bressy (Wanstead) 3, Gilbert Pearce (Bristol) 4, William R. Warner (South Weald) 5, Matthew G. Bennett (Burbage) 6, Reginald J. Carrier (Bedford) 7, Farrington Jones (Wolverhampton) tenor.

The time taken was 2 hours 59 minutes.

The full story of this peal and the history of the bells appeared in 'The Ringing World' of August 18th and 25th, 1916.—Yours faithfully,

P. L. PEARCE.

Filton, Bristol.

## THE ROYAL MAUNDY

### An Historic Occasion at Windsor

Last year for the first time since the Middle Ages the Royal Maundy—the Sovereign's gift of specially minted silver coins—was distributed by the Queen at St. George's Chapel, Windsor Castle.

Among those privileged to receive the traditional purses was William Welling, of Old Windsor. I wonder if this is the first time a ringer has been so honoured?

It was a simple ceremony, not to be forgotten by those present—the warm spring sunshine filled the Chapel as the colourful procession of Military Knights, children of the Chapel Royal, choristers, clergy and almoners followed by the slight figure of Her Majesty the Queen passed up the nave into the Quire to the strains of 'Praise to the Holiest in the height.'

The great dishes containing the alms in little green and white and red and white purses were then borne on high by the Yeomen of the Guard.

The service proceeded and the Queen came down into the nave and gave away the little purses to her people of Windsor.

The triumphant strains of 'Praise, my soul, the King of Heaven' ended the ceremony and the Queen passed on her way leaving sunshine in the hearts of her people.

The distribution of alms and the washing of feet on the Thursday of Holy Week is of great antiquity. The Maundy can be traced back in England to the 12th century, and there are records of the distribution having been made on Maundy Thursday from the reign of King Edward I.

The service derives its name from the Latin word 'mandatum' meaning a commandment, and its opening words have always been 'A new Commandment give I unto you,' etc.

From the beginning of the 15th century, the recipients have numbered as many old men and as many old women as the Sovereign is years of age. Each of them receives, in the specially minted Maundy money, as many pence as the Sovereign is years of age. The Maundy is distributed in the traditional red and white purses. They are placed on the silver gilt Maundy dish which dates from the reign of King Charles II and is part of the regalia.

The Lord High Almoner and his assistants are girded with towels in remembrance of the feet washing which was once part of the service, and they carry nosegays of sweet herbs. The service used to be held whenever the Sovereign was in residence. For many years it took place in the old Chapel Royal (now the Banqueting Hall) at Whitehall. Since 1890 it has usually been held at Westminster Abbey. In 1955, however, it was held at Southwark Cathedral to mark the golden jubilee year of the diocese of Southwark, and in 1957 at the Cathedral and Abbey Church of St. Alban.

In mediæval times the Sovereigns sometimes 'kept their Maundy' at Windsor, but this would appear to be the first time that the service has been held in the existing Chapel of St. George. G. E. BARKER.

## SUNDAY SERVICE NEWS

### Sapcote, Leics.

On April 3rd, six lady members of All Saints', Sapcote, Sunday service band rang a course of Cambridge Surprise Minor. They were: Dorothy Page 1, Mrs. M. E. Brown 2, Christine Stratford 3, Jennifer Stratford 4, Dorothy Stratford 5, Rita Stratford 6. Five of the above also rang a touch of London Surprise Minor, with Michael Brown to make the sixth. 'Our ladies grace our belfry with brains as well as beauty,' writes M. E. B.

# ALPHABET FOR BEGINNERS

By T. J. LOCK

"C"

*We continue our new series of articles dealing with terms and words met in change-ringing which will be of great help to beginners and also to many other readers. This list has been compiled by a member of the Central Council, who would like in the preparation of this glossary to acknowledge the help given by other well-known ringers.*

**CENTRAL COUNCIL OF CHURCH BELL RINGERS.**—This is an advisory body which meets annually, its deliberations and conclusions being designed for the benefit of the Exercise as a whole. The Council consists of representatives members elected by affiliated societies; honorary members; and life members. Affiliated societies are required to subscribe to an undertaking loyally to abide by the rules and decisions of the Council. The first meeting of the Council was held on Easter Tuesday, 1891, and—well much more can be read in the Central Council Handbook containing seventy pages, on sale at two shillings and sixpence per copy.

**CHANGE.**—A change implies a different order in which the bells strike—a change from the previous order. To explain with figures 1 2 3 4 5 6 or rounds  
2 1 4 3 6 5 first change as in Plain Bob Minor. 2 1 4 3 5 6 is also a change from rounds and could be rung in a tower where call changes are used to produce the music of the bells. In method ringing the rules require that to produce a change any bell may move only one striking position at each change.

**CLEAN PROOF SCALE.**—This term is applicable to Treble Dominated methods; that is, to methods in which the treble takes on a special work, different from that of the other bells, defining the structure of the method by periodically returning to lead. The LEAD is used as the unit for the proof of such methods, the process of proving being essentially that of determining what leads contain changes common to the first lead of the method: i.e., the lead beginning with rounds.

Confining our attention to symmetrical methods, the arrangement of places in the second half of the lead is a mirror image, of that in the first half. This symmetry always makes it possible to ring one and the same lead both forwards and backwards. To put it another way, it is always possible to choose two leads beginning with different rows which are actually identical, the rows in one being arranged in the opposite order to those in the other.

Now in the case of methods where the treble plain hunts it is easy to show that the above kind of repetition is the only one that can occur—apart, of course, from the even more obvious one of ringing the same lead over again in the same direction. Such methods, e.g., Double Norwich Court Bob Major, are said to have a Clean Proof Scale, and this is the first sense in which the term may be used. The second sense, which is more complex, concerns methods where the treble hunt contains dodges. It is then possible for duplication of rows to occur by a mechanism different from that described above. The process of proof is still the same in essentials but more complicated in practice since it will often be found that there are many leads which share rows with the first lead. When these leads have been found the proof of the methods is strictly finished, but it is usually convenient to proceed a stage further and rearrange the information so that it is known to what courses the leads belong which are false against the leads contained in the plain course. Sometimes it will be found that no falseness occurs in courses where the tenors occupy the same relative position as they do in the plain course. In such cases, e.g., Bristol Surprise Major, the method is said to have a Clean Proof Scale with the tenors together, or, often more briefly, it is simply said to have a Clean Proof Scale.

It should now be easy to understand other more specialised uses of the term. As an

example, consider London Surprise Major. If calls are made at In and Fifths a composite course is formed comprising a section with the tenors parted sandwiched between two sections with the tenors together. This arrangement has the property that none of the leads false against the course beginning with rounds occurs in any of the other possible courses. Thus, provided only this type of course is employed, there is no possibility of falseness. This is expressed by saying that 'In and Fifths London has a Clean Proof Scale.'

**COURSING ORDER.**—Coursing order is one secret of success, so if you have desires of becoming a complete ringer, study this subject as much as you can by grasping the fundamentals from available literature, putting your pen to paper and then applying your knowledge in a practical way in the ringing chamber. It is an interesting subject and undoubtedly adds pleasure in the execution of ringing, moreover, it is so important that if each ringer knew only his coursing bell then there would be just nothing (indisposition, a broken rope, conductor miscalling, or the like excepted) which could go wrong in the completion of any touch or peal. Coursing order simply means the order in which the various bells are coursing each other. Admittedly it becomes complicated in some methods, particularly Surprise methods, but it will grow with you as you gain experience.

Write out the Plain Hunt or Original on six bells and you will see that the bells come to lead in the order 2, 4, 6, 5, 3, 1. This is the coursing order. Imagine you are ringing the second, you will see that the fourth takes you off lead, you then strike over or after the sixth, then the fifth, then the third, then the treble, when you will be up behind or at the back striking last. As you hunt down to lead you again strike 4, 6, 5, 3, 1, in that order which is the coursing order to the exclusion only of your bell. Now, imagine again that you are ringing the second, still to Original, and, we will say, the fifth took you off lead, you would be entitled to call to the fourth to take you off lead and to call to the fifth that he should be behind and coursing the sixth and certainly not be taking you off lead. To press one of my points, the fifth would not attempt to take you off lead if he knew the coursing order as the only bell he takes off lead is the sixth.

Have a look at Plain Bob—which is similar to Original up to the time the treble gets back to lead—but do not include the treble as this bell continues plain hunting and does not do the work of the method as the other bells.

**CROSS SECTION.**—This term means the point at which the treble passes from one dodging position to the next, e.g., from 1-2 to 3-4 going up or in reverse when coming down to the lead. The following diagram should make it clear:—

## OBITUARY

MR. ROBERT J. ANDREWS

In our last issue we briefly announced the death of Mr. Robert J. Andrews, of Addlestone, Surrey.

Mr. Shepherd writes: Mr. Andrews came to Addlestone from the Dorking district and was a keen worker and supporter of the Chertsey District of the Guildford Diocesan Guild. While working as a welder he met with a serious accident in a gas explosion and this affected his eyesight, caused a serious illness and cut short his ringing career.

Affectionately known as 'Bob', he did what he could in his quiet, but thorough, way and his love for a quarter peal on six or eight bells was great. He was only 48 when he was called to higher service and he was silently remembered on the day of his funeral (April 2nd), when his District met at Ottershaw, the tower where he loved to help, teach and conduct.

MR. H. E. WILLS

AN APPRECIATION

In our issue of March 25th, R.F.L. paid a tribute to the memory of Mr. H. E. Wills, who died on March 5th. Mr. T. A. Blow, leader of St. Peter's Society, South Croydon, sends the following appreciation of Mr. Wills' work for ringing during the years he was at Croydon:

For many years Mr. Wills was a member of St. Peter's band, South Croydon, joining in 1916. He held, at different times, all the offices of the Society and was elected leader in 1939. When the war came, he had to go to Yorkshire on Government work. During the periods he was able to spend in Croydon, in those years, he taught some of the members of the Girls' Club, attached to the church, to ring handbells and silent bells. This was of great help in forming the nucleus of a band to ring the open bells immediately it was allowed: the 1939 team being weakened through losses by death and members being retained in the forces.

In the belfry of St. Peter's Church, his name is recorded as having rung a peal of Kent Treble Bob Royal in May, 1931, and a peal of Stedman Caters in November, 1935. There is no doubt that he rang other peals, but his great interest was to help keep a band together for service and practice ringing.

MR. W. BAYLISS

With the death, at the age of 80, of Mr. W. Bayliss, Bradley, Staffs, has lost the last remaining link with past activities at St. Martin's Church.

'Bradley Bill,' as he was affectionately known locally, was a most conscientious service ringer, and until a few years ago could be seen at every meeting in the district. Although not a great peal ringer himself, his love of bells would take him almost anywhere to 'hear a peal.'

As the only survivor of the Bradley band, his joy was unbounded when, after a silence of some fifty years, the bells rang out again from this tower, just over two years ago, and a long cherished ambition became a reality as he took part in a few rounds on the new eight.

The same eight bells rang out half-muffled, for the funeral service, which took place on March 25th, conducted by the Rev. J. F. Heighway, Vicar of St. Martin's, assisted by the Rev. C. H. Barker, honorary clerical secretary, of the Archdeaconry of Stafford Society.

Later in the evening a last tribute to his memory was paid by the ringing of a quarter peal of Grandsire Triples with the bells half-muffled. Those taking part were W. Davies (first quarter) 1. E. E. Speake 2. C. R. Godfrey 3. E. Stith 4. A. D. Collins 5. G. Hughes 6. J. D. Holden (cond.) 7. F. Holden 8.

The sympathies of his fellow ringers go out to his two sisters with whom he lived throughout his life.

# THE BELLS OF A HERTFORDSHIRE TOWER

Miss Jean Sanderson has compiled a brief history of the Church of St. Nicholas, Norton, Hertfordshire, which has been published by the Friends of the Church. With the growth of Letchworth Garden City this old church, dedicated between 1109 and 1119, is likely to be engulfed in the spread of urbanisation.

The tower was not built directly against the west end of the nave, but about eight feet away, and by 1453, when the tower's three stages were completed, the nave had been lengthened to join the tower, the extension giving more than forty square feet extra space. The tower has an internal staircase as far as the bells, after which access to the low, pyramidal roof with what is commonly called a Hertfordshire spike, is over the bell-frame and up ladders. In common with the rest of the church the tower was repaired in 1908.

## THREE ORIGINAL BELLS

The bells of Norton have rung for centuries and their history is quite well recorded. In 1552 there were 'iij belles in the steeple and a Saunce Bell.' Was this Sanctus bell hanging in the cote above the chancel arch?

The bell which is now the seventh of the ring of eight was certainly one of the original three. This is one of the earliest bells of the Four Evangelists, so described because on its crown it bears four emblems, a man, a lion, an ox, and an eagle. It is dedicated: 'Sancte Petre ora pro nobis.' Between 1420 and 1440 lived Richard Hille, a London bell-founder. He died and his wife continued the business, placing a lozenge-shape above the founder's stamp. This bell has the diamond above the 'cross and ring' shield, so it should really be credited to Joanna Hille.

The present tenor is unlikely to be one of the bells there in 1552, although it is impossible to tell exactly when it was cast, or by whom. From its lettering and ornamentation it is probable that Robert Oldfield (1605-1640) cast it, perhaps using a relative's stamp, for the style of the IHS closely resembles that of Henry Oldfield II, who died in 1619.

There is a long gap; then a treble bell was cast by John Briant, a Hertfordshire founder of very good reputation. The inscription is short: John Briant Hertford Fecit 1815.

This may have been the original treble recast and not an entirely new bell, because in 1813 the Archdeacon recommended that 'a new bell be also provided in the room of the old one which was crackt and spoilt.'

In 1827 the bell-frame was repaired by William Saville, of Barley.

Apparently the bells did not form a regular set of three, for the interval between the treble and tenor was a major third, and between treble and second a minor third. Perhaps this grated upon someone's ears, for in 1908 a suggestion was put forward that the bells should be rehung and new ones should be provided. Nothing more happened until 1940, when the estimates were revised for work including turning and tuning, and the belfry steps were repaired. The bells and frame were dismantled and rehung.

## AUGMENTATION

In 1946 five more bells were cast by Messrs. John Taylor and Co. and were hung in June, 1947.

The new five all have inscriptions. Each has the inscription John Taylor and Co., Founders, Loughborough, 1946, in addition to the individual one.

Treble: In loving memory of Polly and Cornelius Smith, the beloved parents of Gypsy Smith, the Evangelist.

Second: To the glory of God and a thank-offering for our mother and father, Thomas B. Raban and Margaret, his sister.

Third: This bell was presented by Mrs. Annie Elizabeth Ashton (née Chamberlain) in memory of the Chamberlain family, of Norton.

Fourth: Given by the people of Norton and their friends to the glory of God and in thankful remembrance of the men and women who served during the war, 1939 to 1945.

Fifth: Presented by the British Tabulating Machine Company and their employees in this Parish, as a thank-offering to God, for

ST. NICHOLAS', NORTON

preservation from injury during the years of war, 1939-1945, and for ultimate victory.

A large share of the credit for this augmentation must be given to the late Thomas Werrett, whose enthusiasm did much to kindle local interest.

There are a few local customs at Norton. The 'sermon bell,' a single bell sounding just before the service begins, was rung here even in Elizabethan times. The bells were rung for the New Year, as in many places, but less common usage was the 'vestry bell' chimed

before the annual vestry meeting. This has had to be abandoned in the last few years as the meetings have been held in St. George's Hall.

Details of the first peal on the bells, in 1948, are given on the memorial tablet to Mrs. H. Bailey on the east face of the tower arch. The oak board, bearing details of the Coronation peal, hangs on the south wall above the ringers' gallery. This gallery was erected late in 1950; access to it is by a vertical ladder as it was inadvisable to pierce the wall of the internal steps.

## SUGGESTIONS FOR BELFRY PRAYERS

It is greatly to be desired that suitable prayers be used before ringing for service, and before practice. It is suggested that the captain of each tower shall use one or more of the following prayers, and that on some occasions all present shall join in the Lord's Prayer.

### BEFORE RINGING FOR SERVICE

Almighty God, may the sound of these bells, which we ring to Thy glory, cheer the sick, comfort the sorrowful, warn the heedless, and call all willing hearts to praise, through Jesus Christ our Lord. Amen.

Almighty God, who by the mouth of Thy servant Moses didst command to make two silver trumpets for the convocation of solemn assemblies, grant that the church bells may continually call together Thy faithful people to praise and worship Thy Holy Name; through Jesus Christ our Lord. Amen.

Grant, O Lord, that whosoever shall be called by the sound of the bells to Thine House of Prayer, may enter into Thy gates with thanksgiving, and into Thy courts with praise; through Jesus Christ our Lord. Amen.

Grant, O Lord, that all who are hindered by sorrow or sickness, or any other adversity, from assembling themselves together for Thy worship may, by the bells, be reminded to their exceeding comfort, of the prayers of the church, and may rejoice in the communion of saints; through Jesus Christ our Lord. Amen.

### BEFORE PRACTICE

Almighty God, who hast called us to fulfil the office of bell ringers in the Church; grant us to be of one heart and mind in Thy service, that the pealing of the bells may be dedicated to Thy glory and to the benefit of

Thy Holy Church; through Jesus Christ our Lord. Amen.

Grant, O Lord, that they who with their outward ears shall, in their daily calling, hear the sound of the bells, may be stirred inwardly in their hearts, and draw nearer in spirit unto Thee, the God of their salvation; through Jesus Christ our Lord. Amen.

Grant, O Lord, that all they who shall minister to Thy service by ringing the bells of Thine House of Prayer may be filled with all reverence and godly fear; and, mindful of the sacredness of Thy House, may both in the discharge of their service, and in the whole course of their daily life, keep themselves pure, both in word and deed; through Jesus Christ our Lord. Amen.

### FOR THE ASSOCIATION

Almighty God, giver of strength and skill, who alone makest men to be of one mind: Bless we beseech Thee, the work of our Association. Do Thou so guide us in the exercise of our art, that we may ring prosperity to Thy Church, peace and good neighbourhood to all our members, and eternal glory to Thy Holy Name; through Jesus Christ our Lord. Amen.

### GENERAL

Prevent us, O Lord, in all our doings, with Thy most gracious favour; and further us with Thy continual help; that in all our works begun, continued, and ended in Thee, we may glorify Thy Holy Name, and finally, by Thy mercy, obtain everlasting life; through Jesus Christ our Lord. Amen.

### THE GRACE

The grace of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.
