AND SHALL TRELAWNEY DIE?

By CYRIL A. WRATTEN

THANKS to Parson Hawker's famous lines, the name of Trelawney and its association with Cornwall is well known to generations of school boys and girls. And although

"Here's twenty thousand Cornishmen
Will know the reason why"

few could tell you just what Trelawney had done to deserve his fame. And I wonder how many Cornishmen today could say what association the name has with change ringing in the Duchy? For association it has, and a strong one, too, although the name is that of a later Trelawney than Hawker had in mind.

Harry Reginald Trelawney was the second son of Sir William Salusbury Trelawney, Bart. He was born on December 12th, 1826, at Harewood, which lies in a loop of the River Tamar just outside Calstock in eastern Cornwall. He started his education at Ottery St. Mary, in Devon, and it was while he was there that he learned to handle a bell. Later he went to Westminster and from there he went to the Royal Military College at Sandhurst.

In 1845, at the age of 19, he joined the Army, subsequently serving in the 36th Regiment and in the 6th Inniskillen Dragoons. Throughout the love of ringing which he had acquired while at school in Devon remained with him, and a brief sketch of his life published in the early 1880's records that

"... and so very early in life he learned to be proficient in handling bells; as he proved one day, when his regiment was quartered at York, by going into the belfry of the Minster and raising the tenor single-handed."

Eight years later, in 1853, he retired from the Army but without completely severing his connection with it, for the same year he was appointed Adjutant of the Royal Cornwall Rangers. (He became the regiment's Colonel some 20 years later.) His ringing at this time was still limited to what "Church Bells" used contemptuously to call "ups and downs and rounds and rounds," but in about the year 1863 a copy of Hubbard's "Campanalogia" came into his possession. This opened a new world to him. The intricacies of scientific change ringing fascinated him, and he at once set out to master them.

With no help other than that to be found in the pages of Hubbard's book he succeeded by sheer perseverance in teaching himself and the local band to ring a six-score of Grandsire at Calstock. This would probably have been in 1864 or 1865, and was thought to be the first change ringing in the county. The band continued to practise regularly, and on June 24th, 1866, Trelawney and four of the local men, aided by William Banister, from Devonport, rang a 720 of Grandsire Minor on Calstock bells.

Not content with his increasing proficiency on tower bells—or perhaps inspired by his success—Colonel Trelawney induced his wife and his four children to take up change ringing on handbells with him. Each morning they practised regularly for half an hour, each ringing two bells. And again success crowned their efforts.

On January 28th, 1869, the Rev. H. T. Ellacombe, then Rector of Clyst St. George, gave a lecture on "Bells and Ringing" at the Athenæum in Exeter. Sir Stafford Northcote took the chair, and the hall was crowded. To illustrate various aspects of the talk, the Rev. Mr. Ellacombe had the assistance of "The Harewood Band"—in other words, Colonel Trelawney and his family. Four of them started by ringing a touch of Grandsire Triples, following this by a plain course of Stedman Triples. But the highlight of the evening was a course of Grandsire Cinques rung by

Eleanor Trelawney (aged 12)	1-2
Edith Trelawney (aged 13)	3-4
Beatrice Trelawney (aged 14)	5-6
Mrs. Trelawney	7-8
Colonel Trelawney	9-10
Harry Trelawney (aged 10)	11-12

Even today, nearly a hundred years later, with change ringing flourishing throughout the country and with many ringing families in the Exercise, this is a feat it would be hard to equal. (Perhaps the nearest would have been the Johnson family at Hinton-on-the-Green just before the First World War, but I don't know that even they aspired to ringing Cinques.)

In 1870 the Trelawneys moved from Harewood to Poltair, near Penzance, where the Colonel was able to continue his ringing on the new eight at St. Mary's. In November of the following year the "Penzance Society of Scientific Change-ringers," together with Colonel Trelawney and his family, paid a visit to Plympton St. Mary in Devon, where they rang touches of Grandsire Triples on the heavy eight.

"Much joy and satisfaction were evinced" (says the "Church Bells" account) "by the more intelligent of the population at this unusual occurrence (scientific change ringing being but little practised in the district), which was greatly enhanced in the evening by a handbell entertainment at the Parish Schoolroom by the same band, in conjunction with one from Devonport under the direction of Mr. W. Banister, before a fashionable audience, who by their oft-repeated applause manifested a high degree of joyful gratification. These social meetings contrast very favourably with the unseemly gatherings of prize-ringing contests, and reflect the utmost credit to the promoters, Colonel Trelawney and J. Woolcombe, Esq."

Under Colonel Trelawney's leadership, the band at St. Mary's progressed, and in 1873 rang a half-peal of Grandsire Triples on their bells. However, the Colonel apparently rang few full peals, probably because of the difficulties entailed. One I have, however, been able to discover was on September 13th, 1866, when he rang the 6th at Lewisham to 5,040 Grandsire Triples. Another member of the band was his friend William Banister.

When Colonel Trelawney died and what other achievements he added in later years I do not know. He was doubtless instrumental in the formation of the Truro Diocesan Guild in 1897, having been able to see the effects of Troyte, Ellacombe and Banister's work in forming the first of the county Guilds in Devon 23 years earlier. Perhaps someone with closer connections with Cornish ringing than I have will be able to fill this intriguing gap.

GREAT ADVENTURE II

QUEENSLAND — A Social Triumph But No First Peal On Bells

THE eight tourists who, on September 29th, made the 750-mile journey to Maryborough, Queensland—a plane journey to Brisbane and a second to Maryborough—had undoubtedly a social triumph and the night spent in this town of houses on stilts and galvanised iron roofs was one to be remembered. The public interest was widespread. Appropriately, "The Maryborough Chronicle" carried a banner "A Touch From Across the Sea" to a three-column article which focused attention on the party. In 1934 Maryborough was left in the cold; because of this the visitors were doubly welcome.

Waiting at the airport were Messrs. E. Yurel, L. Brittle and E. M. James and we were at once transported to St. Paul's Church to bow to the demands of Press and television. As we ascended the detached tower a television man, perched at the top of the stairs, took individual pictures of ringers. Shots were also taken of the ringing and a somewhat perilous business of the bells revolving.

The afternoon was spent at a sugar cane factory, viewing the whole process from cane to sacks of sugar being removed by rail. The preliminary ringing gave evidence that the bells would require attention before a peal could be attempted. The nine bells were cast by Mears and Stainbank in 1888 with a tenor of 21 cwt. 4 lb. Accordingly, Pat Cannon, Wilf Williams and Mark Damerell made a special visit to the tower. Pat and Wilf worked on the tenor, which had not been rung for two years. It was on ball bearings but was not true to the frame and one of the bearings moved as it revolved. Mark greased the others, which were in a fair condition.

The Rector (Canon L. W. Grayson) and the churchwardens arranged a dinner at 6 p.m. at the Hotel Central. This was a sumptuous repast and a speech of welcome was delivered by the Mayor (Ald. R. Stafford), to which Mr. T. J. Lock replied. It was not until 7.25 p.m. that a departure was made from the dining hall to the tower for the serious business of the day. The heat had given way to a cool evening.

PEAL STARTED AT 7.40 P.M.

Again there was a bevy of Press and more television cameras to greet the ringers and outside a crowd had assembled to hear the ringing. Among local ringers who fraternised were Messrs. D. and E. Hurford, N. Turner and Mrs. A. Vollmerhouse. Finally, at 7.40., a start was made on a peal of Plain Bob Major. The company stood: Len Stilwell 1, Arthur Mason 2, Anne Horsford 3, Rev. Malcolm Melville 4, T. J. Lock (conductor) 5, Mark Damerell 6, Wilfred Williams 7, A. P. Cannon 8. Some 12 courses were rung with a good beat and then, after 55 minutes, a miscall occurred and Tom reluctantly called "Stand." A touch of Stedman Triples followed.

Eight different families entertained the ringers, who assembled at the church the next morning and were conducted to the airport, where farewells were said.

Those left at home spent a very pleasant day on the beaches of the North Peninsula, being entertained by Margaret Goodyer, Enid Roberts and Sue Wright. In the evening they attended the practice at Parramatta after being the guests to dinner of Ralph Clark and Sandra.

A SLIPPED ROPE

October dawned, and with every hope of making a good start the team motored to Parramatta, about 15 miles out. These bells were cast in 1860 by Mears and Stainbank, the tenor being 10 cwt. 1 qr. 5 lb. This is a popular church for weddings, and the ringers devote the whole of the proceeds of wedding fees to the Bell Fund. The object is the recasting of the six and the addition of two more bells. The attempt was Minor in four methods (Cambridge, Oxford, Kent and Plain Bob) and a very good start was made.

Towards the end of the sixth extent when that "in the bag" feeling was beginning to develop, Tom Lock, who had selected the difficult fifth bell, had the mortification of the rope slipping the wheel. It hung tantalisingly in the air and would not come down. Participating in this gallant failure were Anne Horsford 1, Ralph Clark 2, A. J. Lancefield 3, L. Stilwell 4, T. J. Lock 5, A. P. Cannon (conductor) 6.

Two trips were arranged for the others. One was to the Blue Mountains, a beauty spot of worldwide fame which thrilled all with their grandeur, and the other was to the Jenolean Caves, which rank as one of the principal tourist attractions in Australia and were discovered in 1838.

(To be continued)

TWO GOOD RINGERS FOR TASMANIA

Mr. Frank J. Leë, of Newcastle Cathedral band, who is a professional engineer of Jesmond, and Miss Elaine Murcott, of St. Paul's, Whitley Bay, who is editorial secretary to the Durham and Newcastle Association, photographed after their wedding at St. Mary's Church, Monkseaton, on September 4th. They are to make their home in Georgetown, Tasmania, in November.

The bride did Trojan work to bring up to date the Association's peal book, which was some 300 peals behind. She is a prominent member of the Newcastle peal band and has rung some 80 peals, mostly Surprise. A peal attempt of London was lost on the day of the wedding, but a peal of Cambridge Surprise Major was rung later.

[Photo: Northern Counties Photo Service.]

TOM LOCK TELLS HIS STORY TO THE MIDDLESEX ASSOCIATION

Although St. Augustine's, Kilburn, still has five years to go before reaching its centenary, this beautiful church is an outstanding example of the architecture of the Gothic Revival at its best and has been called "the Cathedral of North West London." Despite the erection of blocks of modern flats in the near vicinity, the tall imposing spire can still be seen from many angles.

The highlight of the North and East District meeting at this church on October 16th was a resumé by Mr. T. J. Lock of his experiences on Great Adventure II to Australia and New Zealand, which were most interesting and instructive.

Nearly forty ringers took part in the ringing during the afternoon and evening, although only just over half that number sat down to tea.

Following the service, conducted by Father Palmer, a short organ recital was given by Mr. Douglas Birkinshaw, a pleasure appreciated by all present.

At the business meeting reference was made to the passing of Mrs. Edith Kate Fletcher, an honorary member of the Association, and following a few words from Mr. Alick Cutler members stood in silence in tribute to her memory.

E. H. K.

THE HESSE WEEK-END

The annual get-together to mark the memory of Major J. H. B. Hesse was held at Wrington during the week-end of October 15th and 16th.

A peal attempt of Plain Bob, conducted by the Rev. R. O. Fry, was unfortunately miscalled at Yatton on Friday evening, whilst the peal of Grandsire Caters at Wrington on the Saturday was lost after just after an hour's good ringing.

Mrs. Hesse was hostess to the ringers at the tea which followed, and in his vote of thanks Mr. H. J. Sanger asked the company to remember three ringers who had died recently—Mr. H. A. Price, Mr. J. T. Dyke and Mr. A. Reeves, the latter two having rung many peals with the late Major Hesse.

The company included the Rev. B. Lee, Messrs. J. Baker, J. Brain, L. Derrick, H. W. Knight, W. Kingcott, E. Naylor, G. Prescott, H. J. Sanger, S. Smith, F. Sandy, W. Rice and M. White.

J. B.

HERTS COUNTY ASSOCIATION

St. Albans District

The odd-struck eight at Old Welwyn provided quite a challenge when the tower was open for the District meeting on October 16th, but methods up to courses of Surprise Major were quite recognisable during the afternoon. The local cafe could not cater for us before 6 p.m., so the business meeting was held after the service.

The Association president took the meeting, which was held in the belfry. Peter Morely, of Hatfield, was elected a new member. The meeting on November 20th will take the form of a day's course with four lectures, followed by tea and an open evening meeting, and the meeting on December 18th is to be at Radlett. The District dinner is at St. Michael's Manor, St. Albans, on December 4th, and tickets are now available from all committee members.

The Washington Peal

This superb new 12-inch L.P. record marks a great occasion: the famous inaugural peal of the Washington Cathedral bells by a specially-invited team of English ringers, recorded by Douglas Hughes. In a playing time of 40 minutes, **The Washington Peal** records the highlights of a complete peal of 5,000 changes of Stedman Caters rung on the new bells two days after their dedication, before an estimated audience of over 10,000 people. Other tracks include the team's first rehearsal on the bells of St. Giles', Cripplegate, as well as their handbell ringing of Grandsire Caters. The record's laminated sleeve contains a written history and account of the English team's visit to the United States.

PRICE 26/6 including post and packing.

The Sound of Bells

Here is the definitive book on the art and the history of ringing. Written by Edgar C. Shepherd, it will delight experts and novices alike. **PLUS** an E.P. record of different peals (some from famous cathedrals), carillons and hand bells. **PRICE 26/6 including post and packing.**

To order, fill in this coupon **NOW** and post with a cheque or postal order to Dept. X.

Record Books Limited,

200 Gray's Inn Road, London, W.C.1.

Please send copies of **The Washington Peal** and/ or copies of **The Sound of Bells** (each priced at 26/6 per copy, including post and packing) to me at the address below.

The Clappering of A Bell

by

F. H. KING, J. W. McCLENAHAN
and B. D. THRELFALL

A BELL is said to ring "right" when, at the end of a revolution, the clapper catches up the bell, strikes on its leading edge and remains there. Conversely, ringing "wrong" means that the bell catches up the clapper, the latter striking the trailing edge of the bell and remaining there. In this article both are assumed to mean that a bell will not change over into the other type of ringing, but will continue to ring "right" or "wrong" for more for one or two blows.

It is usually better to ring bells "right"; the clapper strikes once, positively, without bouncing; there is no chance of its changing sides if the bell is bumped slightly on the stay; and since the striking is usually adjusted to be even when a bell is "right," if rung "wrong" it can make it considerably odd-struck.

By considering the mechanics of motion of the bell-clapper system, equations can be derived connecting the weights of bell and clapper and the various physical dimensions of the system. Three members of the Cambridge University Engineering Department have collaborated in considering this mechanical system; in producing an electrical analogue of the system on an analogue computer, this analogue being checked by experimental work on two actual bells; and finally in reducing the results to an easily-usable chart.

Several factors, initially considered, were discarded as having little or no effect on "right" and "wrong" ringing; bearing friction, the pull on the rope, the odd-struckness of the bell and the amount of swing—provided, however, in this case that the bell is reasonably well up. Ringing up and down has not been considered. In fact, for a good approximation, three measurements only need be made on a bell to determine whether it will ring "right" or "wrong," or both, or neither, when up.

The first measurement— r —is the distance in inches between the axis about which the clapper swings from the axis about which the bell swings. It can be simply made in the tower, as follows: From some convenient level—say the belfry floor—with the bell down, measure vertically to the centre of the clapper pin and from the same level vertically to the centre of the bearings. If both these measurements are made in inches, the difference between them is r . Note that if the clapper axis is above the bell axis when the bell is down, r is taken as negative.

The other measurements required are the times in seconds for a small swing of both clapper and bell. To do this, time, say, ten consecutive small swings of bell or clapper (by small is meant 10 degrees or less on either side of the vertical) counting the swings when bell (or clapper) swings past the vertical in the same direction (being careful to start timing from 0, not 1!). For each of these two times—let us call them t_1 and t_2 for bell and clapper respectively—multiply them by themselves and then by 9.77 to give two quantities b and c , so:

$$b = t_1 \times t_1 \times 9.77$$

$$c = t_2 \times t_2 \times 9.77$$

These are the lengths, in inches, of the simple pendulums having the same times of swing as bell and clapper respectively.

Now having these three quantities, r , b and c , form two ratios A and B from these, such

that A is r divided by c , and B is b divided by c . These are both numbers; and the relationship between them is shown on the diagram*. A being marked horizontally between $A = -0.3$ and $+0.5$, and B vertically between 0 and 2.2.

It will be noted that, on this diagram, certain areas are hatched downwards from left to right: bells giving quantities of A and B for points in these areas will ring only right, and similarly for the areas hatched downwards from right to left and for the area cross-hatched. In the blank area, the bell will ring neither right nor wrong: in practice this means that the clapper will fall one way or the other, but waits in the middle for some little time before doing either!

Two examples may serve to show the method: first an experimental bell as hung by a foundry.

r : as measured = 4.75 inches.

c : 16.3 sec. for 10 swings, so $t_2 = 1.63$ secs.

and $c = 1.63 \times 1.63 \times 9.77 = 26.0$ inches.

b : 17.6 sec. for 10 swings, so $t_1 = 1.76$ secs.

and $b = 1.76 \times 1.76 \times 9.77 = 30.1$ inches.

Hence, $A = r/c = 4.75/26.0 = 0.081$;

$B = 30.1/26.0 = 1.15$.

Referring to the diagram, this point, marked as X , is in the cross-hatched area and this bell will therefore ring "right" or "wrong"—this was borne out in practice.

Second, a bell which was hung by one of the authors. Here, the dimensions led to the point Y on the diagram in a region where the bell would ring only "wrong"—a fact which he had already discovered the hard way! But modification can now be sensibly attempted: B must be reduced, and one way this can be done is by counterbalancing the clapper, so increasing its time of swing and increasing c . This will also decrease A , but cannot make A less than 0 provided r remains positive.

Grateful thanks are due to Professor Sir John Baker, for permission to undertake the investigation and for financial assistance, and to Messrs. Mears and Stainbank, for the loan of an experimental bell.

* Copies of diagram from Mr. Brian D. Threlfall, 6, Pigtle Close, Harston, Cambridge, for stamped self-addressed foolscap envelope and 6d. in stamps to cover cost of producing same.

WEDDING BELLS

Dear Sir,—Like Mr. Len Fox at Stepney, we secured a considerable increase a year or two ago in the fees payable for ringing for weddings at St. Clement Dares', partly for the reasons he mentions, that it is not easy to find people willing to give up a large part of Saturday for the purpose (there is, of course, no local band and all concerned live in the suburbs or beyond), and we hoped to reduce the number. But it has made no difference, we still get about 20 a year to ring for and I am very grateful indeed to those who cheerfully come along whenever possible.

In fact I wonder whether the greater charge the more worthwhile people think some things are! At Crayford new fees for the services of the organist and choir as well as for the bells are being introduced next month, but the Rector told me that as far as the two first-named are concerned (we don't normally ring for many weddings) the demand seemed to be increasing rather than otherwise. — Yours faithfully,

Crayford.

E. A. BARNETT.

UNIVERSITY OF WALES SOCIETY

Summer Tour

THE Society's summer tour began on Wednesday, September 22nd, on a somewhat unsatisfactory note with a peal attempt of Plain Bob Triples at Whitchurch lasting about 50 minutes. To cheer ourselves up and to fill in the time, we were successful in our attempts at a "grab" at Prees, where we had half an hour's ringing on the pleasant six.

We then returned to Whitchurch to find our accommodation and the rest of the party, including Derek Elderkin (who soon became one of us), but were sorry to find that John Cornelius could not join us. Our evening's activities included handbell ringing, further ringing at Whitchurch, eating Chinese style and visiting a local hostelry.

Saturday began with a ring at Holt, the only Welsh tower of the tour, and continued with a succession of eights—Farndon, Eccleston, St. Mary-without-the-Walls and St. Mary-on-the-Hill, Chester, Christleton and Tarporley. Unfortunately we could not do justice to the beautiful bells of Eccleston, but were more successful at Tarporley, where some good Double Norwich was rung. Tarporley was considered by many to be the best eight on the tour. The evening was spent at The Hollies, good food, followed by handbells.

Friday was a more eventful day. Alsager Church was found after a short hunt and was well worth visiting. At Church Lawton we were joined by a local ringer who acted as a stabilising influence, enabling a good course of Yorkshire to be rung. However, disaster (financial) almost overtook the Society here, as the secretary's handbag, containing funds, was lost, and only regained by fishing for it with the aid of the belfry's electric fire plug. After lunch we visited Congleton and Holmes Chapel, where we were joined by Peter Else, who remained with us for the rest of the tour. The day finished at Crewe on the bells of Christ Church. The disappointments of the day were forgotten by the good ringing here.

Saturday began at Wistaston, where we rang before a wedding, and calls of bobs and singles were interspersed with "Is she coming?" Four good towers followed—Nantwich, Audlem, Market Drayton and Hodnet; and we were thankful to have Neil Bennett with us to improve our ringing standards.

Unfortunately that evening some of the party were suffering from 24-hour flu (or plague of such-like nature) and during the next two days several were "stricken" and did not really feel up to ringing, although they each managed to ring at all towers on the programme. By now we were ensconced in Shrewsbury and we took advantage of the Lichfield Diocesan Festival to visit St. Chad's and St. Mary's.

After lunch on Sunday and before service ringing at Oswestry we decided to attempt another tower grab, at Bicton, where we were warmly welcomed by the Vicar.

Monday's ringing was on three good sixes, which was probably just as well since our numbers were now depleted. We had enjoyable rings on the light sixes of Stanton-on-Hine Heath and Moreton Corbet, and fittingly concluded the tour with Clive, the heaviest six in Shropshire, which go very well.

Thanks are due to all who made the tour a success, including tower captains and incumbents, and also our drivers. D. M. B.

BELL ROPES

JOHN NICOLL

SEE BACK PAGE

C.C. President at Peterborough Guild Dinner

THE 1965 annual dinner was held at the Angel Hotel, Peterborough, on October 16th. During the afternoon various towers in the vicinity were open for ringing, although only a small number of ringers took advantage of this hospitality.

The president (Canon G. F. Turner) was in the chair and he was supported by the Chancellor of Peterborough Cathedral (Canon J. L. Cartwright) and Mrs. Cartwright, the President of the Central Council (Canon A. G. G. Thurlow), Mr. and Mrs. P. J. Staniforth, the Master (Mr. J. H. Bluff) and Mrs. Bluff, Mr. and Mrs. R. H. Daw, Mr. B. Austin and Mr. E. Billings.

The toast of "The Church" was proposed by the Master of the Guild, who expressed the great debt that ringing owed to the Church and listed some of the things about ringing which made it attractive as a branch of church work—the companionship it engendered, the ability it had to be enjoyed both intellectually and scientifically, and the fact that it drew its devotees from such a variety of people. He concluded by emphasising that ringers should have a deep attachment to the Church and it was their duty to see that bells were rung properly for service.

In his reply Canon J. L. Cartwright explained that ringers had helped to bring an element of beauty into the Church's worship because the sound of bells encouraged a deeper feeling of religious awareness in its listeners, especially at times of rejoicing and thanksgiving.

Canon A. G. G. Thurlow proposed the toast of "The Peterborough Diocesan Guild" with a very entertaining speech. His amusing stories illustrated all the dangers inherent to

those who have speeches to make. He congratulated the Guild on its officers, making special reference to the excellent way they had organised the recent visit of the Central Council. In conclusion he spoke about the useful work that is undertaken by the Council, in particular "The Ringing World" and the work of the Towers and Belfries Committee.

The president (Canon G. F. Turner) responded and said how pleased he was that the dinner was being held this year in his native town. He agreed with the opinions of the proposer concerning the officers of the Guild and singled out the good work of the general secretary (Mr. E. Billings), on whom had fallen the bulk of the arrangements for the Central Council's visit.

Mention had been made of the bells of Peterborough Cathedral, continued the president, and he expressed the hope that something definite could be suggested to enable these bells to be rung again. He stressed how fortunate the Guild was in having so many young, keen ringers.

The toast of "Our Guests" was proposed by Mr. B. Austin, and how much the cause of ringing owed to the activities of the three was acknowledged by Mr. P. J. Staniforth, who spoke of his many close connections with the Peterborough Guild, saying that he did not feel a guest at all as there were so many of his friends at this gathering.

A very successful evening was brought to a close by the showing of three films—"Ringing the Changes," "Ringers Required" and "Washington Cathedral Tower and Bells."

OBITUARY

MR. REGINALD LUCAS

The band at SS. Peter and Paul's Church, Warsop, have lost, through the death of Reg Lucas, one of its most regular and conscientious Sunday service ringers. After a short illness, he died on October 19th, aged 52.

He was not a prolific peal ringer, but an excellent striker, and a first-class method ringer. There was nothing he enjoyed better than a well-struck quarter peal. Of these he stood in a large number, in many different Minor methods, including London Surprise. On a number of occasions he rang with the Warsop team in cup contests.

On the day of his funeral, October 22nd, 1,260 Single Oxford Bob Minor was rung half-muffled by R. Spencer 1, Miss A. C. Rooke 2, Miss I. Cooke 3, J. T. Rooke 4, F. Cooke 5, H. T. Rooke (cond.) 6, followed by the whole-pull and stand 52 times. On the following Sunday 1,440 Norwich Surprise Minor was rung half-muffled.

Sympathy is expressed to his widow and brother-in-law, Mr. Fred Flint, and the members of the families.

MR. L. W. STEAD

St. Mary's, Southampton, ringers were shocked when gathering for their practice on October 15th to hear of the sudden death of their hon. secretary, Mr. L. W. Stead, in hospital the same afternoon. Les, as he was known to his ringing friends, was recovering from a ligament operation and had been expected home within a few days.

His ringing interest lay primarily in loyal service to St. Mary's, and to St. Nicholas', North Stoneham. He was a former chairman of the Southampton District of the Winchester and Portsmouth Diocesan Guild.

Mr. Stead was a regional Trade Union official. His work, often involving ironing out trade disputes, irregular hours and frequent attendance at conferences, doubtless placed more strain on him than we realised.

Before Evensong on the Sunday following his death, the Rector gave permission for the local band to pay their tribute by ringing a quarter peal to his memory. K. S. B. C.

MR. GEORGE F. SPERRING

With deep regret we record the death of Mr. George F. Sperring at Chester Royal Infirmary on October 9th. He was 58 years of age.

He was taken ill suddenly in January of this year and although he had undergone two operations there were hopes of a complete recovery, but unfortunately complications set in after a third, which proved fatal.

While George did not progress in advanced methods, he was a very reliable ringer in the standard methods and was an excellent striker. He was for many years a loyal member of the band of St. Mary-within-the-Walls under the captaincy of his father, the late Mr. R. Sperring. He later transferred to the Cathedral and St. Mary-without-the-walls company, showing the same devotion and loyalty. He rang his first peal in 1924, but kept no record of his performances. He estimated, however, that he rang in the region of 200 peals.

He had been a member of the St. John Ambulance Brigade for 35 years and had risen to the rank of superintendent, and in consequence was ideally suited for the position he occupied with the City of Chester Ambulance Service.

The funeral service was held at All Saints' Church, Hoole, Chester, on October 14th, conducted by the Rev. J. A. Burrows, at which ringers from the towers in Chester and Dodington attended. In addition, members of the City Ambulance Service and the St. John Ambulance Brigade were present.

We in Chester have sustained a severe loss of one who was always ready to co-operate and had been most generous in making transport available for meetings, peal attempts and outings. Our deepest sympathy is extended to his widow, son and relatives. J. W. G.

CIRENCESTER RINGERS' OUTING

Cirencester ringers, together with friends, journeyed westward to the Ross area for their autumn half-day outing. The first tower was Weston-under-Penyard, which is situated on top of a hill overlooking the Wye Valley. At St. Mary the Virgin, Linton (another good light ring) we were intrigued with the half-muffled effect, especially on the front when the bells were being raised. Upton Bishop, a pre-war Taylor ring, are a little odd-struck. Ringing ranged from rounds to Cambridge Minor.

Tea was eaten in the coach en route for Ross-on-Wye. We did not easily find the correct pace for the majestic eight, but with the help of friends from Hereford Cathedral we were able to ring Double Norwich and a good touch of Erin Triples.

The last tower of the day was Mitcheldean (a good light eight rehung by Taylors in 1964). Here we rang Grandsire and Stedman Triples and Double Norwich and Cambridge Surprise Major, finding that it was necessary to ring fast to get the best from the bells.

Our thanks are due to all those who made their bells available for us. E. M. B.

BISHOP ASKS FOR £5,000 FOR CATHEDRAL LIFT

THE Cathedral bells and the approach to ringing chamber were the main themes at the annual dinner of the Guildford Diocesan Guild, held at Newlands Corner Hotel, Guildford, on October 23rd. The president, the Bishop of Guildford, who was accompanied by Dr. Alix Reindorp, was much concerned at the lack of foresight in not providing a lift to the ringing chamber and made an appeal for £5,000. It was stated that only one of the residentiary canons, Canon A. C. G. Oldham—who was present with Mrs. Oldham—would climb the stairs to the belfry. The Dean also refused. With the Bishop sat the Master (Mr. D. A. R. May) and Mrs. May, Mr. F. E. Collins was toastmaster, and Mr. J. F. M. Maybrey Master of Ceremonies for dancing that ended the evening. During the meal the president took wine with the ladies and also the oldest ringer present (Mr. T. W. White). The Master took wine with his officers and also with the Past Master present (Mr. C. W. Denyer). An apology was received from Mr. Albert Harman.

Proposing the toast of "The Church and the Ringing Exercise," the Master said that they both had similar problems—to keep the young people interested. At one time there were plenty of young people and old people in the Church, but nobody between 25 and 45. The same age problem occurred in ringing. He was giving up the Mastership of the Guild this year and he had been looking round to find someone between 30 and 40 to carry on what was a wonderful job.

CATHEDRAL RINGING

Regarding the Cathedral bells they had managed to ring for three services each Sunday and the ringing had been of a fair standard. They also held a weekly practice. Frankly, he thought they were doing too much. He did not think they had the people to ring for all three services on a Sunday. This meant 20 ringers Sunday by Sunday, and if they came once a month it meant they needed 80 names. Mr. Ponting, the secretary, had difficulty in finding the people and it often meant the same person Sunday by Sunday. The time had come to review the situation and they were proposing to call a meeting of all interested on November 9th. He thought the final solution would be a trained resident band.

As regards the ringing chamber they would need some fires for the winter months and he hoped that the boxes of books which came from Farnham Castle would eventually be removed and that they could install some bookcases and their own books. If only they could get rid of these crates of books the place would not look so dowdy.

The Bishop, in reply, said the remarks about the ringing chamber would be dealt with by the Dean and Canon Oldham, the Chaplain to the Cathedral Society. Dr. Reindorp said he was not Bishop when the Cathedral was planned and the tower built else he would have insisted on a lift being provided to the tower. The lift of Westminster Cathedral was a substantial source of revenue. He agreed with the Master that a notice board was necessary in the belfry and he hoped that it would be executed by craftsmen and be worthy of the Cathedral.

Congratulating the Master on giving up the office after only four years, the Bishop said he felt that such offices should go round. In the Church they had people holding office far too long, particularly churchwardens. He commended the principle employed in Canada, where a person was people's warden for one year and then Rector's warden the following year for 12 months only.

"I want to congratulate you from the bottom of my heart," he said. "that the bells are complete and ring out Sunday by Sunday to the countryside around. It is a glorious sound, although the louvers are only half open." The Bishop also congratulated Jill May, the wife of the Master, on ringing a

bell at the dedication service, instead of a big burly ringer. It was a great night in the history of the Cathedral when those bells rang out for the first time, calling people to worship. The Bishop hoped that in 1968, when the university was established, it would be able to provide some ringers.

The toast of "Continued Prosperity of the Guildford Diocesan Guild" was proposed by Canon Oldham, who said in three parishes he had got bells out of the church and put them back again and on each occasion the Guild had supported him through thick and thin. He could well remember when the belfry, in some cases, was cut off from the ordinary life of the church. The ringers would go up and ring and then come down but they did not go into the church. The time had come when that sort of ringer went the way of all flesh.

INCUMBENT'S DUTY

The Canon said he also remembered the first lady going into the belfry and how it shocked the congregation, who thought that ringing was not becoming for her sex or good for her figure. He felt it was the duty of every incumbent in the Diocese to be a frequent visitor to his tower and make contact with his ringers. It was a great joy to him that many of the ringers after ringing at the Cathedral came down and sat in the ringers' pew for the service.

Mr. C. W. Munday, the Guild general secretary, replied, and also proposed a toast to the memory of John S. Goldsmith and other officers and members of the Guild. He said it might interest the company to know that 32 years ago the Guild took steps towards providing bells for the Cathedral by resolving to transfer from the Guild's general fund one guinea annually toward providing a ring of bells for the Cathedral. In 1962 Major Bragg suggested that each of the four Districts should be responsible for providing a bell. In two years they had collected over £800 and were then in a happy position of closing the fund.

DISAPPOINTED

Unfortunately, they had been a little disappointed with the bells. They had heard that evening about the glorious noise and they hoped that a little more could be done to control it. These bells were not as easy to ring as they should be; there were four bells in a straight line. He knew there was a

reason for this. There were one or two points which they would be pleased for Canon Oldham to attend to.

The Guildford Diocese was formed in 1927 and it was John S. Goldsmith who acted as organising secretary for three months before the Guild was formed. Forty-three towers were represented at that meeting on December 31st, 1927, when the Guild was inaugurated and he was elected the first secretary, a post he held for many years. It was sometimes said that a tower needed twice as many ringers as its bells. In the Guildford Diocese they had 450 bells, but only 550 members. A lot of them from outlying parts found it difficult to get to Guildford by 9 o'clock for Sunday ringing.

Referring to losses by death, Mr. Munday said they all remembered with gratitude the special work of Charles Hazelden in founding the Guild library and hoped that the Cathedral would be regarded as a suitable place for it. Stanley Russell, their general secretary, had died during the year, and also William J. Beeson, of Cranleigh, who had rung many peals for the Guild and attended the inaugural meeting. John S. Goldsmith would be remembered in three ways. The sanctus bell at the Cathedral was in his memory; he founded their weekly paper, "The Ringing World"; he did more for the Guildford Guild than any other man and served as its secretary from its foundation until 1936.

BISHOP'S GIFT

The Bishop said he would like to see an appropriate plaque in the belfry of the Cathedral recording the dedication and those who rang on that occasion. As president he would like to give from some secret coffers he had the sum of 20 guineas to mark this historical occasion. He would like the plaque to be made by craftsmen in the diocese and to be completed by December 25th.

Bouquets were presented to Dr. Alix Reindorp, Mrs. Jill May and Mrs. Oldham by the Misses Kathie Williamson (Aldershot), Sally Parrott (Christ Church, Epsom) and Sally Hooper (St. Martin's, Epsom). A touch of Grandire Triples was rung by Major E. H. Bragg 1—2, K. Williamson 3—4, Tom Page 5—6, W. G. Viggers 7—8.

The concluding toast, that of "The Organising Committee," was proposed by the toastmaster. These were Mrs. Jill May, Mr. J. F. M. Maybrey and Mr. P. G. Sherwood.

LLANDAFF AND MONMOUTH DIOCESAN ASSOCIATION

The Monmouth Branch held a very enjoyable meeting at Blaenavon on October 9th with some 60 ringers attending, representing 14 towers.

The Blaenavon tower captain, Mr. Gorden Jones, was unavoidably absent, but all visitors to the church and tower were warmly welcomed on his behalf by Mr. David Frumin.

Ringings were under the direction of the Branch Master, Mr. Lionel Jones, who catered mostly for the large number of learners present.

The service was conducted by the Vicar, the Rev. J. T. E. Davies, himself a ringer and a member of Blaenavon band. David Frumin read the lesson and Mr. Harris was the organist. Tea was waiting in the nearby Methodist schoolroom and Mr. Reuben Clench thanked the ladies who had so kindly prepared this.

A very long business meeting followed with many interesting and varied points of view arising.

Eleven new members were elected—these being four from Blaenavon, one from Caerleon, three from Usk and three from Chepstow. It was interesting to note that all eleven new members were ladies.

Badge patterns were displayed, having been submitted by Miss Anne Tippins, of Abergavenny, and Miss Sheila Salkeld, of Chepstow.

Next meeting: Ebbw Vale, January 8th, 1966.

A BRIDE FROM CONSETT

Miss Marjorie Pearson, of Christ Church, Consett, band, Durham and Newcastle Diocesan Association, and Mr. Brian W. C. Street, Egremont, of the Cumberland and North Westmorland Association, smile at the photographers after their wedding at Consett, while the bells were merrily ringing out Grandsire Triples.

Essentially a ringing wedding, Miss Wendy Askew was the bridesmaid, Mr. Leslie Boumphrey the best man, and Messrs. M. and R. Pearson and B. Allan ushers. After the reception ringing was resumed, the bridegroom's parents, Mr. and Mrs. Street, and Mr. Roger Wetenhall joining local ringers in short touches.

TAYSON'S TRAVELLERS

FOR the sixth year Taysom's Travellers journeyed to Devon for the annual week-end. The party consisted of David Barnett, Terry Milsom, Barbara and David Burt, Karen, Jean and Alan Lee (Twerton-on-Avon), Rita and Bill Lampard, Derek Smith, Brian Metcalfe, Elizabeth Webb (Warmley), Barbara Dench (Corston), Hugh Evans (Bristol) and Henry Taysom (Frampton Cotterell). Lustleigh was reached on October 15th about 10.30 p.m.

The next morning we were pleased to welcome Mr. Aubrey Bennett, who had been out for over two hours in order to reach Lustleigh by 9 a.m. The first tower was Gidleigh, where we were warmly welcomed by the Rector and his wife, the Rev. and Mrs. J. Scott, whose son, the Rev. John Scott, is a well-known ringer. We were now able to welcome Mrs. Margaret Bould and Derek Jewell, who stayed with us until lunch.

Next on the list was Throwleigh, where we got mixed up with the local foxhunt. Henry's imitation of a hunting horn made the hounds very restless and got a very black look from the Master of the Hunt. After we had satisfied the hunt we were not members of the Cruel Sports League we proceeded to look for the key to the vestry, from which a vertical ladder gains access to the ringing room. This was duly found and we enjoyed the six restored by Gillett and Johnston in 1937.

Belstone, the next call, has an excellent six (tenor 5½ cwt.) rung from the ground floor—Kent Treble Bob was the best touch. At Okehampton we were met by the Vicar and the captain, Mr. C. E. W. White, who was Mayor of Okehampton last year. The bells are a very good octave.

After lunch a pleasant time was spent at Sowton, where we found a first class five restored by J. Taylor and Co. in 1961: we added Fortune and St. Colomb to our Doubles methods. On to Bridestowe, where the local captain had just finished putting on the ropes for us, as the tenor has been repaired and

the bells out of action for over a month—the bells were a joy to ring. Lydford followed and there we found another good six.

In Tavistock we found one of the octaves that are in the "superb" class—a ring restored by Taylor and Co. in 1925. Some of the best striking that we have done together resulted. Over Dartmoor to the last tower of the day, Holne, with a good five that need striking. A good supper was enjoyed at Buckfastleigh and we returned to Lustleigh.

Sunday saw us at Lustleigh Church and we rang for Matins and rang, by invitation, a quarter peal in the afternoon. Listening was a call change competition judge, Mr. Brewer, from Alphington, Mr. Sercombe, from Ideford, and Mr. Mark German. They seemed very pleased with our Doubles—the local ringers do not care for Minor as they cannot follow the tenor so well. On our way home we had the pleasure of ringing at Rockwell Green—restored by Taylor and Co. in 1907. This was the 60th tower that we have rung in together on these week-ends.

We thank Mr. Bennett for his excellent choice of towers and all Devon friends for their kindness. A. F. L.

SLEAFORD AND GRANTHAM DISTRICT OUTING

Five towers in Staffordshire were visited by the Sleaford and Grantham District ringers during their enjoyable outing on October 16th. These were Rolleston (8), Uttoxeter (8), Marchington (6), Tutbury (6) and Newborough (5). A good standard of ringing was maintained and thanks are accorded to Mr. Edgar Cole (the organiser), incumbents and those who met the party. E. A. C.

The ringer of the treble in the peal of Yorkshire Maximus at Aston (page 695) was Malcolm E. Wade, and not as printed.

Mr. Wilfred Williams, who conducted a peal of Yorkshire Surprise Maximus at Christchurch Priory on October 16th has now rung 60 different tenors to 12-bell peals.

BELFRY GOSSIP

The time taken in the peal of Bob Major at Market Harborough (page 710) was 3 hours 57 minutes, and not as printed.

Derby Diocesan Association are arranging at week-end course at Lea Green, Matlock, from November 12th to 14th. Details from Mr. B. J. Marshall.

"To confirm the interest of the ringers," so read a footnote to a peal of Doubles at Hertford in which there were five first peals and one first of Doubles.

The peal rung at Whitley on September 25th ("R.W." page 696) was for the Yorkshire Association by members of the Selby and District Society.

Mr. A. P. Cannon corrects the reference to Mr. Robin Turner on page 702 of "Great Adventure." Robin called a peal of New Cambridge at Sherborne: it was Pat Chapman who then called the tenor.

After a lapse of seven years of absence from peals in the Leicester Diocese, J. Frederick Milner has made a welcome return with a peal of London at Claybrooke. The band congratulate him and look forward to many more.

Congratulations to Mr. and Mrs. R. Waterman, of High Halden, Kent, on their golden wedding. A quarter peal of Plain Bob Minor was rung on October 23rd on High Halden bells, where Mr. Waterman is a ringer, conducted by G. Stewart. It was the first "inside" for J. Spree and M. French.

The Rector of Bideford, Devon (Rev. T. D. Davies), writes expressing thanks for the peal to mark the centenary of the church. He asks that no more peal attempt requests be made for 1966 as enough have been allocated and that requests for peal attempts in 1967 not to be sent before next September.

LIFE SAVING ACT

At the meeting of the Northern Branch of the Norwich Diocesan Association at Aylsham on October 23rd congratulations were extended to the Association's Ringing Master, Mr. F. C. Goodman, on his daughter Janet's life saving act a few days previously. Janet jumped into the river at Thorpe St. Andrew and rescued a lady from drowning. While he had a good report from his doctor, Mr. Goodman is still refraining from ringing.

NOTHING LIKE IT AGAIN

From a Sydney newspaper following the peal at St. Mark's, Darling Point:

Sweet the song of bells when the right man rings them. But some ungrateful ears tire when they go on for 2½ hours, as they did from St. Mark's, Darling Point, on a Sunday, with the English bellringers at the ropes.

After a second hour a resident phoned the Rectory to speak of her shattered Sunday peace.

"But this is unique," they told her. "We shall hear nothing like it again."

"I hope not," she snapped.

BELL RINGING IN GUERNSEY

A number of pupils at Elizabeth College, Guernsey, as well as two masters, have been learning to ring at the Vale Church. Progress has not been rapid, mainly due to the noise in the ringing chamber, which makes call changes very difficult and fault correcting almost impossible, but they have progressed from rounds to "set changes" and are hoping soon to progress to plain hunting. This year has seen the visit of two bands—the first since 1959. Maybe one day we will have a meeting.

J. E. D.

INSTRUCTION COURSE AT WALSALL

About 20 ringers from nine towers in the Archdeaconry of Stafford attended at the belfry of St. Michael's Church, Walsall, on October 18th to hear the first course of instruction devised by Messrs. P. G. K. Davies and M. W. Fairey for the purpose of instructing both learners and those who would like to teach the art of change ringing. All present were impressed by the quality of the course and the obvious efforts to make it interesting and practical.

SOUTH BUCKS RINGERS' WEDDING

Full ringing honours were paid to Roger G. Hazell and Gillian N. Smith after their wedding at St. Michael and All Angels' Church, Hughenden, on October 2nd. Roger is tower captain of Lane End and a regular visitor to Hughenden, where Gillian is a member of the band and also sings in the choir. For the wedding service the bells were rung before and after by members of the Hughenden and Lane End bands. In the evening Hughenden ringers rang a peal and Lane End ringers a quarter peal on their respective bells.

The Vicar, the Rev. S. A. C. Dickens, officiated, and the bride, who was given away by her father, wore a white nylon dress and long veil.

DEAN STOPS EXETER CATHEDRAL PEAL

A peal attempt for Bob Maximus at Exeter Cathedral on October 23rd was stopped after 25 minutes by the Dean, who sent an apologetic message via the tower captain. Apparently there had been a clash of dates and the bells were interfering with the delicate work of organ tuning. The organ has been completely rebuilt and is shortly to be rededicated. The band consisted of Martin C. Press 1, Margaret A. Bould 2, Colin Reeves 3, Martin F. Lock 4, Anthony J. Davidson 5, Rev. A. S. Roberts 6, Frank D. Mack 7, Alan R. Pink (cond.) 8, Thomas J. Lock 9, Alan Carveth 10, Philip Mehew 11. D. Ray Bould and Robert A. Southwood tenor. Approximately 2,600 miles were travelled for this attempt.

BARSHAM BELLS PEALABLE

A quarter peal is recorded on the bells of Barsham, Suffolk, a subject of recent correspondence and the first on the bells for several years. Ranald Clouston, the Suffolk Guild's technical adviser, visited the bells and declared them safe, and a quarter peal was rung a week later for confirmation. Although the bells could hardly be described as in excellent condition they went well during the quarter and according to J. B. Pickup are quite pealable.

A PENZANCE CENTURY

The "Western Morning News" of October 22nd in its "100 Years Ago" column records: "Opening of church bells at Penzance on Tuesday week is to be a high day at Penzance. A peal of eight bells is to be opened at St. Mary's Church by the Woolwich Amateur Change Ringers, who are said to be the most accomplished ringers in the kingdom."

Lt.-Col. Jerram writes: "I wonder what the old stoney ringers of Cornwall in those days thought of the 'most accomplished ringers.' Even little more than 50 years ago when I asked the Charles Church, Plymouth, ringers to the opening of a ring in S.E. Cornwall, they were bored after ringing Minor and they were certainly very accomplished indeed."

STAFFORD'S NEW RECTOR

Stafford ringers gave their new Rector, the Rev. Ivor D. W. Knowles, a fine reception by a quarter of Stedman Triples for his induction service, at which the Bishop of Lichfield officiated. The State's recognition of the Church was indicated by the presence of the Lieutenant of the County, the Deputy Mayor and Town Clerk of Stafford, the Lord Mayor and Town Clerk of Stoke-on-Trent and the Earl of Harrowby. A quarter of Stedman the previous evening was lost in the last few minutes.

THE RETURN OF THE NATIVE

The peal rung at Folkham, Lincs, published this week, was arranged for Mr. W. R. Wetenhall, of Cockermouth, Cumberland, who was on holiday in Lincolnshire, and he much enjoyed meeting old friends after many years. Mr. Wetenhall resided in Stamford in the 1920's and was an active member of the late Mr. H. Day's Surprise band. The Folkham peal was also Mr. C. T. H. Bradley's 100th for the Lincoln Diocesan Guild.

MR. RODNEY B. MEADOWS LECTURES AT OLD SCHOOL

The annual "Fourth Centenary" lecture at King Edward VI School, Southampton, was delivered recently by the Master of the Ancient Society of College Youths, Mr. Rodney B. Meadows, who took as his subject "The English Art of Change Ringing." The chairman, Canon K. W. H. Felstead, introduced the lecturer by referring to his short though distinguished career at the school.

Before a select audience, Mr. Meadows proceeded to give a most effective exposition of the subject in stylish language laced with gentle humour. The lecture was illustrated by slides, photographs and tape-recordings, and a copy of the text will be bound with others in this series and placed in the school's Select Library. The audience included local ringers.

AFTER THE TANKARD A TOUR

Bramford, Suffolk, ringers have recently presented their captain, Neville Whittell, with a tankard to mark his 100th peal. Now we learn he has taken this band on an extensive tour of North East Suffolk, visiting Blythburgh, Southwold, Wrentham, Somerleyton, Lowestoft, Pakefield, Bungay, Ringsfield, Barsham and Halesworth.

At Barsham the Rector heard his bells for the first time and at Pakefield Mr. Clouston, who had joined the party earlier, set himself up in style with folding chair and hamper, writes our correspondent.

WHO WERE THEY?

Mr. Alan A. J. Buswell sends us a cutting from "The Portsmouth Evening News" concerning their "80 Years Ago" feature. This records that "a bell-ringing family opened their campanological entertainment at the circus in Bow Street, Landport, Portsmouth, and gave very great satisfaction to the audience. Their manipulation of the 152 sweetly-toned bells was skilfully accomplished. In all there are eight performers." Mr. Buswell asks if any reader can give further information of this party.

RINGING TO CONTINUE DESPITE INSULTS

Mr. J. Hedgcock, Ringing Master of St. Thomas', Ecclestone, St. Helens, writes complaining about vehement and insulting complaints regarding the bells of St. Thomas' and inaccurate statements in the local Press.

Despite this, he assures readers that ringing at St. Thomas' will continue as normal, i.e. Fridays 7.30-9 p.m., Sundays 10-10.25 a.m. and 6-6.25 p.m. Other ringing functions such as visiting parties on tour at week-ends and Branch meetings will continue. Ringers are also welcome when ringing is in progress.

"We are considering sound control and only the financial situation prevents this being adopted. If this is not adopted the P.C.C. and clergy are ready to go to the Law Courts if necessary in defence of the right to ring their bells."

SOME COMMEMORATION

On the occasion of the annual commemorative Snowdon Dinner a peal of Spliced Surprise Major in four methods (London, Bristol, Cambridge and Superlative) was rung silent and non-conducted at Penistone.

TOWER BELL PEALS

THE CAMBRIDGE UNIVERSITY GUILD.

LUTON, Bedfordshire.—At the Church of St. Mary.

On Sat., Oct. 23, 1965, in 3 Hours and 19 Minutes,

A PEAL OF 5040 CAMBRIDGE SURPRISE ROYAL

Tenor 25 cwt. 24 lb. in D.
