OUR COVER PICTURE

St. Matthew's Church, Harwell, Berkshire

By DOUGLAS JORDAN

THIS parish church was mainly built in the 13th century; its size reflects the existence of a considerable population in the village, then on the main Wallingford-Goucester highway. The church has rubble walls of clunch covered with plaster inside and with roughcast outside and stands on a small eminence adjacent to Prince's Manor Farm. It is likely that there was a church here at the time of the Norman Conquest, probably a chancel and aisleless nave. Of the latter, some foundations which included stones set in the herringbone style were found in 1963.

The present building, completed about 1325, appears to have been constructed as follows:

- 1190-1200 N. and S. Transepts.
- 1200-1220 Tower and Nave Arcades.
- 1270-1310 Chancel.
- 1275-1325 S. and N. Aisle Walls reconstructed. Porch.

The interior of the church, simple yet spacious both in width and height, reflects the concepts of the original designers and exhibits several interesting features of mediæval craftsmanship in stone and in wood.

The upper parts of two windows on the north side of the chancel contain various fragments of mediæval grisaille glass which were reassembled in 1959.

The shield in the east window is that of Piers Gaveston, who became connected with the church when created Earl of Cornwall in 1307, and a stone nearly ten feet long, placed centrally on the floor of the chancel and having on it the matrix of a large cross, may commemorate the Rector (Roger de Marlowe) in whose time the chancel was built.

The timbered oak roofs are mainly original and therefore of particular interest because the survival of such early roofs is rare. The oldest, that in the south transept, consists of scissor-braced trusses with a central purlin; this type of roof was later modified by providing massive tie-beams and kingposts in the manner seen in the nave. The presence of two horizontal collars per truss and the jowl on each kingpost are unique for this area but occur in the roofs of similar date in Essex and Northern France.

The chancel roof presents a slightly later and more elegant form of kingpost construction; some of the timbers were replaced when the chancel was restored in 1932.

The roof which supports the ringing chamber in the tower is a further example of original mediæval work and the presence of nook shafts at the angles of the upper stage of the tower and the design of their capitals are relics of the Transitional Norman style. Of the two clocks in the tower, clearly seen in our cover photograph, the modern clock commemorates Valentine Baker, Pilot Officer, R.A.F., killed in action 1943, and replaced the single-handed clock dated 1703. The old clock is still in good condition and the stone weights are now used—to stretch new bell ropes!

Of the nine bells hanging in the tower eight are ringing bells and one a sanctus

bell. Details of founder, date and inscriptions are as follows:

- Treble.—E, 4 cwt. 1 qr. 24 lb., J. Taylor and Co., 1932.
- 2.—D sharp, 4 cwt. 3 qr. 7 lb., J. Taylor and Co., 1932.
- 3.—C sharp, 5 cwt. 3 qr. 11 lb., W. Yare, 1611.
- 4.—B, 6 cwt. 3 qr. 2 lb., J. Carter, 1590.
- 5.—A, 8 cwt. 14 lb., W. Yare, 1611.
- 6.—G sharp, 9 cwt. 3 qr. 11 lb., W. Yare, 1615.
- 7.—F sharp, 13 cwt. 1 qr. 27 lb., J. Carter, 1597.
- Tenor.—E, 16 cwt. 1 qr. 26 lb., W. Yare, 1612.

The inscriptions engraved on the bells are:

Sanctus: "R. Wells, Abourns" (no date). No. 3: "Humphrie Loder gave this bell 1611".

No. 4: "Prayse ye the Lorde—1590".

Nos. 5, 6, 7, 8 each have on them: "This bell was made . . ." followed by the date, as given above.

The two bells cast in 1932 have just the founder's name and date on them. It was in 1932 that extensive work was carried out to the tower and staircase and a new metal bell frame installed. Two new trebles were added and the complete octave rehung in the new frame. All this work was entrusted to the founder of the new bells, J. Taylor and Co., of Loughborough.

Since this date little has needed to be done in the way of repairs, except perhaps when the tenor clapper fell out and Whites of Appleton came along to repair a split in the bell frame. This has not altered the "go" of the bells in any way which, in the writer's opinion, is second to none in the county.

Of the men and women who have handled these bells during the past (nearly 400 years) very little is known of the early ringers, and indeed if a complete history were forthcoming space would not permit such a chapter to be recorded. The writer has, therefore, decided to limit the time from roughly the turn of the century to the present day; even so it will only be possible to name a few of the well-known ringing families and maybe one or two individual ringers. The first family that one recalls is, of course, the Hitchmans, who at one time were able to turn out a band themselves, and indeed often did so under the leadership of W. Hitchman. Among the individual ringers one can recall such names as Rice, Cox, Palmer, Gee and many others, all of whom were known by some members of the present band. Of the band as it is today and in fairness to all concerned one must, I think, mention one name, Mr. W. Corderoy, who in addition to being tower foreman has completed 50 years' ringing in this tower, this event being duly celebrated with a peal and presentation earlier this year.

This then is a very brief history of the church, bells and ringers of Harwell, and should any reader wish to find out more may the writer suggest that there are four good roads leading to this village and that a trip down this way may be worth while.

UDALL SURPRISE

Frank Udall's "mystery tour" of Saturday, June 21st, proved to be yet another attempt to conquer the East country. Ringers and friends from the Central London area left early, by coach, from South Kensington and those with a sense of direction soon guessed that our route would lead us to Essex. Our first call was a surprise, however, just over the border to Bishop's Stortford, Herts. This was our only 10 bell tower of the day, the others being the eights at Great Bardfield, Coggeshall and Great Waltham and the sixes at Systed and Greenstead Green.

Since many of the party were only learners, most of the ringing ranged from rounds to Grandsire and Plain Bob, though an "eminent London ringer" looked up his start and enabled the experts to ring Cambridge.

The best treat of the day was tea at Systed, organised by our friends from Bocking, who provided a magnificent country "spread"! Our thanks to all tower captains and incumbents, but especially to Frank and Julie, whose organisation gave us an excellent day out.

Healthy Look About W & P Guild

THE 1969 annual general meeting of the Guild was held on July 5th at Christchurch. The morning was spent ringing in the New Forest area, the route ending at the Priory.

The meeting itself, held in the pleasant surroundings of a newly-refurbished Priory Hall, was attended by about 60 members and friends, who were welcomed by the Master of the Guild, Mr. R. R. Savory.

In presenting his balance sheet for 1968 the general treasurer, Mr. T. H. Francis, revealed a healthy financial situation. The balance was down by only £14 even though over £90 had been donated to restoration and augmentation funds.

RECORD PEAL YEAR

A record peal total of 106 was reported by Mr. D. T. Matkin, the peal recorder. This was the first time a century had been scored, a major contribution having been made by the Andover District of 35 peals, under the leadership of Mr. G. K. Dodd, to celebrate their 40th anniversary. In 62 towers peals had been rung, 237 ringers taking part under 38 conductors, with 38 members ringing their first peal.

Unfortunately the librarian was not present at the meeting and he had not submitted a written report, thus this was not available.

The Master, as junior member, summarised the 1969 C.C. meeting at which, once again, the Guild was fully represented. All our representatives were unanimous in rating this meeting the dulllest they had attended.

RISE IN MEMBERSHIP

The general secretary, Mr. D. J. Forder, reported on the Guild's activities of the past year. Membership at the end of 1968 stood at 800, an increase of 150 in three years. Restoration work had been com-

pleted at Upper Clatford, Crawley and Overton, the Guild having contributed to all these. At last year's A.G.M. Mr. R. R. Savory had been elected Master; the secretary expressed his thanks to Canon Felstead, the previous Master, for the assistance he had received during his first three years as general secretary. Mrs. M. Chapman, on leaving the area, had retired after nine years' service as general treasurer, for which the Guild was most grateful.

The first Guild dinner was held in March 22nd at the Royal Hotel, Southampton, at which 98 were present; in fact it was oversubscribed by about 30. The event had been unanimously declared a success and it is to be hoped that this will become an annual occasion.

A change of rule, proposed by the Master and seconded by the secretary, which included Southampton in the list of A.G.M. venues, was carried unanimously.

GRANTS TO TOWERS

Requests for grants for tower restoration work were received from Heckfield, Easton and Bishop's Waltham. Donations were voted to all three.

Mr. A. V. Davis proposed that the Guild once again donate £10 10s. to "The Ringing World". This was seconded by Mr. T. H. Francis. After some debate and a show of hands this was carried by a 2 to 1 majority.

Mr. L. D. Duguid, secretary of the Portsmouth District, proposed the election of Mr. Morgan Marshall, of Havant, as a life member, he having completed 50 years' Guild membership. Canon Felstead seconded and it was carried unanimously.

Basingstoke was agreed as the venue of the 1970 meeting, and after some pleading by Canon Felstead for a change in date the first Saturday in July was decided upon.

ERITH RINGERS REACH 700 PEAL MARK

On August 15th a peal of Grandsire Triples was rung at St. John-the-Baptist's Church, Erith, bringing the number of peals on these famous bells to the remarkable total of 700. Fred Cullum, now 70 years old, has taken part in exactly 400 of this huge number—more peals have been rung at this church than any other, the secular tower at Loughborough Bell Foundry being the only place to exceed this total.

Fred lives in the house in which he was born, some quarter-mile or so from the church where he has been a ringer for 54 years. A past Master of the Society of Royal Cumberland Youths, he rang his first peal at Crayford on December 26th, 1917. He was joined in the 700th peal at Erith by a lifelong friend, Bert Audsley, also a past Master of the Cumberlands, and Arthur Mason, who was a chorister at St. John's over 50 years ago. These old friends have in recent years become known affectionately to the younger generation as the Three Wise Men. There is no immediate record of the number of peals in which all three have taken part together at St. John's but it must be considerable. All three took part in the 500th, 600th and 700th peals on the bells.

Philip and Andrew Corby took part in both the 600th and the 700th peals, and for the 700th peal Fred, who conducted Holt's Ten-Part, decided to make the method Grandsire Triples so as to include Jim Stevens and Bill Blewitt of the local band. The eighth member of the band was Trevor Cross, who has taken part in a good many of the Erith Friday night peals.

A picture of the band with the priest-in-charge, Rev. H. K. Freestone, was taken for "The Kentish Times" and appeared with an account of the event in the issue of August 22nd.

Fine Doubles Achievement from Hampshire

HAMPSHIRE is fortunate in that it has two areas in which Doubles ringing thrives. Not just Grandsire, Plain Bob and Stedman, but all the colourful methods and variations which have featured in "The Ringing World" during 1968, and which, in the writer's opinion, can introduce that speck of variety into a 6-bell practice, enabling at least four ringers to continue progressing beyond the "standard three".

In the Hordle/Ringwood area quarter peals of multi-Doubles are frequent, and they are now pealing them on handbells. In the Winchester/Southampton area several peals have been attempted, with some success. The achievement by Cambridge University on March 1st, 1968, at Litlington, in ringing 220 methods/variations seemed then a record that was unsurpassable, especially as, that Whitsun, extents used at Litlington containing six Grandsire type variations were banned by new Central Council rules.

Our first ray of light came from Mr. F. T. Blagrove, who explained, in some very detailed letters, how a peal of 168 methods/variations was possible under the new rules. This was followed by long lists of acceptable methods in "The Ringing World"; but how to put all these together for a record composition! It seemed, however, that we

had underestimated the abilities of Mr. A. J. Mason, tower captain of Winchester College. He used up a complete vacation and several exercise books to present before us, neatly typewritten, a peal of 221 m/v. Sundry peal and quarter peal attempts were arranged to ring sections of this, generally without success. More vacation work resulted in 223 m/v, but still no ringing success.

On Saturday, August 9th, we assembled at Stockbridge for another attempt, and after two false starts were well under way when "something funny" happened in Shipway's Place. Over refreshment we agreed to try for the full peal the next day and, in pessimistic mood, also booked December 20th, 21st and 22nd as well! On the Sunday we met at Barton Stacey, to be greeted with the news that the fifth rope was worn on the garter hole and the new rope hadn't arrived. Inspection proved that one strand had gone, but after shifting the rope up it was decided that it would be good practice anyway. The start was remarkably smooth and all went surprisingly well, although somewhat slower than in previous attempts. By the time we reached extent 15, the last of the spliced methods, the conductor couldn't believe it and hence became erratic in the first of the variations. Apart from

some roughness in this, the first lead of extent 16, the ringing was of a very good standard and speed until, in extent 37, the fifth rope started to creak. A sudden slowing of pace in St. Simon's and many unspoken prayers kept the rope in one piece, and so after 2 hours and 35 minutes the impossible had been achieved.

Those taking part were Miss Katharine J. Maundrell, of Winchester Cathedral, Messrs. R. S. Parratt and D. R. Fallick, of Romsey Abbey, the last-named being deputy captain, Mr. A. J. Mason, tower captain of Winchester College, Mr. B. R. M. Johnson, ex-Winchester College and now at Watford, and Mr. D. C. Jackson, of Fawley.

The conductor wishes to commend most sincerely the efforts of Anthony Mason in his composition, and to thank the many treble and tenor ringers of our lost attempts who would have rung their first peal, or who have been wheedled into participation by honeyed words and gargantuan promises by the conductor.

LYMPNE, KENT.—On Aug. 16th, 1,260 Doubles: Judith Brooks 1, Rachel J. Sinden 2, Elizabeth A. Todd (cond.) 3, R. J. Elliott 4, B. G. Butcher 5, M. J. Taylor 6. A wedding compliment to Patricia and Brian Machin.

HANDBELLS IN THE ARCTIC

This summer four ringers from St. George's, Jesmond—Andrew Craddock, Rodney Yeates, John Pardoe and Geoffrey White—spent two weeks in Sweden and Finland. They took with them six handbells borrowed from Newcastle Cathedral, to educate the natives!

On the boat out they rang a quarter peal and found it a most effective method of clearing the deck. After an unfortunate accident they rang a handbell peal outside the police station at Ivalo in Lapland. ("If they put us away, think of the number of peals we'll get!" someone commented.) Fortunately the police did not blame them and they travelled south.

Later events included a night in the open outside Rovaniemi Station, Lapland. The party were approached by four Finnish "yobbos" who spoke no English. Imagining they were Anglophiles, the four rang handbells for them, hoping they would think it was the latest thing from the land of the Beatles. They weren't very impressed!

The peal was the first rung in the Arctic Circle. It was appropriate that it should be rung for the Durham and Newcastle Association. Other notable stunts for the D. and N. have been the first peals on the continent of South America and the first down a coalmine.

A LITTLE TOUR OF DEVON

A noble company of two left Hythe, Kent, in the small hours of Sunday, July 27th, gradually picking up bleary-eyed members along the road to Rolvenden. With "the load" stabilised by hammer and string, we (ten ringers and one mini-bus) had a good run down to the picturesque county of Devon. A suitable camping site was found, and by the time that the tents were erected the whole of Devon must have realised that we had arrived.

The deluge of Monday caught some of the party unprepared and forced them to arrive wringing wet at various towers. David and Jenny Manger rang with us on Monday and Tuesday and camped with us on Tuesday night—sufficient time for David to discover that our tents weren't long enough to accommodate him.

All 31 of the towers rung at were well worth the visit, with Buckfast Abbey providing many of our men with their heaviest bells to date. We were proud to view the Abbey at different angles from the ordinary tourist. At another tower a local ringer taught us Devon call changes so "look out, Kent."

Non-ringing activities included a lunch-time swim, a knobbly knees competition, an un-floodlit game of football and a search for a tower that was seen in the distance on several occasions. It turned out to be a memorial to Stringer Lawrence, a British soldier!

On our last day we joined the rank and file of British tourists who visited the Becky waterfalls. Unlike most of them, some of our party got to the top of the falls the hard way, bathing one of our organisers in the process. We extend our thanks to the incumbents and ringers of the towers where we were able to ring for their kind co-operation, to Keith for arranging the towers and to John for pedalling so hard.

BEDFORDSHIRE BRIDES

FLEMING—ELLISON

There has been romance in official circles in the Bedfordshire Association. Biggleswade District secretary Mr. Keith Fleming married at St. Mary's, Maulden, the press secretary, Miss Linda Ellison, of Stotfold. The bridegroom looked to the Association to provide his best man, Mr. Anthony Smith, and the groomsmen, Mr. Stephen Ivin and Mr. Colin Mann.

The ceremony was performed by the Rev. P. G. Oakley and there was ringing before and after the service. The bride wore an empire line white satin dress with a cotton crochet bodice, sleeves and skirt trim. She carried a bouquet of gold tea roses and her headdress, which held her long veil in place, was a flowered cap. Seven-year-old Frances Oakley was her attendant in an aquamarine open-weave dress. She carried a basket of lilies-of-the-valley and sweet peas.

The honeymoon was spent in Yorkshire and their new home is at 28, High Street, Houghton Conquest.

Iced Cake for Biggleswade District Meeting

The monthly meeting of the Biggleswade District of the Bedfordshire Association was held at Henlow on August 9th. Ringing began at 3 p.m. and continued until 5 p.m., when tea was partaken at the home of one of the local ringers. It was an excellent meal and included an iced cake, suitably inscribed and decorated with six bells. The cake had been provided by the mother of another local ringer and was duly cut, jointly, by the president of the Association and the District chairman.

Due to the absence of the District secretary and Press secretary, who were on their honeymoon, Mick Down and Mary Mann were voted in these respective positions for the meeting. The District officers were congratulated on their recent peal for the wedding of Keith Fleming and Linda Ellison, which was reputed to be the first by District officers. The meeting concluded with Mr. Rushton conveying a vote of thanks to the Vicar for the use of the bells, having previously thanked the ladies for the tea arrangements.

SCARBOROUGH & DISTRICT OUTING

The fifth outing of Scarborough and District ringers was on July 12th to Teesside, with morning ringing at Saltburn and Marske. An excellent lunch was served at a new cafe in Middlesbrough.

County Durham was entered to ring on the noble bells of Stockton Parish Church, where some of the party encountered ten bells for the first time. Back into Yorkshire to St. Cuthbert's, Ormesby, so beautifully tucked away in the trees; here a small belfry did not really suit the large party. Then a short ride to Guisborough for a picnic tea and a ring from the church balcony on the easy-going bells.

A glorious ride over the moors to the old-world fishing port of Whitby and the Church of St. Mary perched high overlooking the harbour. Here we were joined by Mr. S. Elwick and Dan Beach and ringing finished in fine style with a good fall on the back eight. Our thanks include a special one to Alan Grundy for acting, with great patience, as Ringing Master for the day.

OTTERTY ST. MARY, DEVON.—On Aug. 8th, 1,260 Grandisle Triples: J. Arbury (first quarter) 1, K. Clarke 2, L. Hine 3, C. J. Turner (cond.) 4, J. Arbury 5, E. Summers 6, C. C. Deem 7, A. Bennett (first quarter) 8. A golden wedding compliment to Mr. and Mrs. E. Marks.

MITCHELL—EDWARDS

The wedding took place on August 9th, at the Church of St. Mary-the-Virgin, Goldington, between Miss Mary Elizabeth Edwards, eldest daughter of Mr. and Mrs. J. H. Edwards, of 24, Mount Drive, Bedford, and Mr. Leslie Ian Mitchell, only son of Mr. and Mrs. P. Mitchell, of 40, Coventry Road, Bedford.

The bride was a pupil at Bedford High School and a graduate of Loughborough University of Technology and is a member of the Bedfordshire Association. The bridegroom is an employee of Messrs. Charles Churchill (Bedford) Ltd. and is a member of the Royal Observer Corps.

The bride, who was given away by her father, wore a classic dress of white embroidered satin and carried a bouquet of roses, lilies-of-the-valley and stephanotis. She was attended by her three sisters, Christine, Sylvia and Judith, who wore long empire line dresses of turquoise satin and carried posies of roses, carnations and stephanotis. Mr. Stephen Green was best man.

The ceremony was conducted by the Rev. G. R. S. Ritson.

The bells were rung before the ceremony by members of the St. Paul's, Bedford, band and afterwards by the Goldington ringers. J. H. E.

BATH RINGERS VISIT LITTLE-RUNG TOWERS

Ringers from the Bath area held a pleasant outing on August 9th, visiting the following towers in South Gloucestershire and North Wiltshire:—

Shipton Moyne.—Rehuing by Taylors in 1962, when the third and fourth were recast. Pleasant ring, just a trifle loud in the ringing chamber. No local band.

Oaksey.—Ground-floor ring, very pleasant, but although the bells were rehuing in 1960 after being unringable they are now only heard when visitors arrive.

Minety.—Excellent ring, major overhaul in 1958. Here the ringer is aware of a muffled effect when the sallies disappear through the ceiling of the ringing room.

Ashton Keynes.—The third tower without a local band and the first live. Ringing chamber roof timbers look reasonably new but the floor certainly does not feel over-good, even if it is safe. The five are of reasonable tone and need some effort although they are by no means bad.

South Cerney.—One knows on entering the ringing chamber that local activity exists. The six bells are very pleasant and are well kept.

Cricklade.—Here the famous five with a 96 foot draught of rope are not rung very much these days. The worst part is standing looking up at the roof because when one gets going the bells are very enjoyable. The party managed quite a well-struck quarter peal, in which some were inspired by the ringing surroundings with the sun shining on the altar.

A. F. L.

THE SUFFOLK GUILD

There was disappointing support for the North-West District quarterly meeting at Horringer, where there is a gallant young band, on July 12th. The next quarterly meeting is to be changed to Elveden as there is a difficulty in obtaining the Cathedral bells at Bury St. Edmunds. Thanks are due to the Vicar, the Rev. Price Jones, for the service, and parents and friends of Horringer ringers who prepared a splendid tea.

OTHER PEOPLE'S LISTS—Roger Baldwin's 500 Peals

A versatile total of first 500 peals, both in tower and hand, has been rung by Roger A. Baldwin, of Hertford.

Letters to the Editor

P. M. J. GRAY'S BRICK—AND OTHER MATTERS

Dear Sir,—P. M. J. Gray's letter about his misreported comments at the Central Council meeting prompts me to ask if he realises what a huge and leaden brick he dropped.

There was a point reached when the mood was for discarding methods and procedures laid down in the 19th century and for investigating afresh the most efficient and fair way for the Council to run itself. Rev. St. John Smith suggested an "ad hoc" committee to go into this problem; there was a loud murmur of approval from all parts of the hail and spirits (on the floor) rose at the thought that something, at least, might be done.

Up pops P. M. J. Gray to suggest that the Standing Committee should really have this task, not an ad hoc one, and the Establishment on the Top Table gasp with relief. More of "the boys" on the floor stick in their oars, the innocent bulk of representatives are deluded into accepting the suggestion, a vote is taken before they see the fallacy of it all, and the Standing Committee are given the very job they have a vested interest in not doing (as I only realised in time to point it out under "A.O.B." when it was too late to do anything more than to draw applause from a large number of people who had also seen the point—too late).

Very firmly are we back to square one, if "Counsellor's" recent letter in "The Ringing World" is any guide to the reactions of "The Club".

There is little doubt that people will think that P. M. J. Gray's "give the Standing Committee something to do" suggestion was so convenient for the Standing Committee that he was "put up" to say what he did. I do not consider he is the sort of man to lend himself to this sort of manipulation, but it would be very heartening to see a denial from him in the columns of "The Ringing World".

Especially so since this kind of "rigging" does go on: confident rumour has it that a later interruption by P. A. Corby was pre-arranged and that an earlier interruption had been planned to follow the raising of a certain point of order, but misfired because the gentleman concerned was fractionally too late in rising.

There is a moral to be drawn from all this: if you have anything remotely radical to say at a Central Council meeting, then make very sure indeed that only those sympathetic to your point of view have knowledge beforehand.

And there is a question to be put: what advantages do Associations obtain, beyond "fringe benefits", from membership of the Council? The standard reply to a query of this type is "What you get out of membership of an association depends on what efforts you make as a member yourself", but does this apply in the "head against a brick wall" situation?

Not being afraid of a cry of "sour grapes", I sign my name—

H. POYNER.

(C.C. representative, Southwell Diocesan Guild).

VIOLENCE AT MANCHESTER

Dear Sir,—The recent and bitter experience of the Manchester Cathedral authorities has, quite rightly, caused them to rethink their security policy. Inevitably, security measures cause some inconvenience, but it may be that this could be avoided in part at Manchester.

The system set out below is that adopted in London by the College Youths and it would appear to give security to the church with the minimum of inconvenience to the ringers.

At College Youths' practices (except at St. Paul's, where a completely separate ringers' entrance affords sufficient protection to the Cathedral) one ringer is left at all times to supervise the entrance to the church. The effect of this is that, whilst the church is protected from the unwelcome attentions of those who mean no good, late-comers are still able to ring and any necessary directions to the ringing room can be given to visitors unsure of the way. The "doorman" is, of course, relieved from time to time so that he too can ring.

It may be difficult to adopt this solution to the problem where the band is weak in numbers and one less ringer leaves a "hole" in the band for the purposes of ringing a

particular method. An alternative measure would be to make it known that at the end of each touch (or at the end of each 15 minutes) any ringers could gain access by a particular door. A volunteer fit enough and kind enough to undertake the extra stair-climbing is normally available for this.

I am indeed conscious that the Manchester authorities have given thought to the matter and this letter must not be read as imputing lack of thought on their part, but I put the above suggestions forward (for what they are worth) so that, perhaps, inconvenience to ringers who are late can be avoided.

Of course, the method of security which it seems is to be adopted at Manchester has the incidental advantage of discouraging lack of punctuality.—Yours faithfully,

ALAN R. PATTERSON.

London, S.W.

P.S.—So far as I am aware, no College Youth has ever had to protect the church vi et armis, and the likelihood of a recurrence of such extreme violence as happened at Manchester seems to be remote as long as the church is "policed" as suggested above.—A. R. P.

UNORTHODOX PEALS

Dear Sir,—I am pleased to see some enterprising use of unorthodox calls by Mr. Ketteringham and his band (page 632) but I feel the use of the 78-single is "wasted" here. It has far better uses elsewhere, and for Plain Bob there are better calls, for instance the Double made in 236: 12354687/12345678 (shown x). I append a peal showing the value of this call and incidentally furthering the use of subtitles "for handbells/cowbells," etc.

WELCOMED AT FRANT

Dear Sir,—On reading Mr. Bassett's letter on page 636 of "The Ringing World" I must confess to being somewhat surprised to learn that I had arranged a quarter peal to be rung at Frant. In fact, one of Mr. Bassett's Wadhurst ringers wrote to me asking if I would conduct a quarter peal at Frant and provide him with two ringers to make up the band if he was successful in obtaining permission to ring there. I replied saying that I was agreeable to doing this, as the same time expressing my doubt that he would get permission to ring there in the light of previous experience with the incumbent. Up to the date of writing I have not heard from the ringer concerned that permission has been obtained.

I would add that some three or four years ago my wife and I were made welcome to ring at Frant by the local captain when we went there to ring for morning service while on holiday.—Yours faithfully,

ALAN R. BALDOCK.

BARRIE'S BAND, 1969

THE peal tour really began on the Friday evening, when most of the Leeds contingent plus Graham Colborne assembled at tour headquarters, alias the Nag's Head, where beer and speculation were indulged in; this was to prove typical of the week. By Saturday morning Phil Cuckson had joined us after one of his marathon drives, and the band headed for South Yorkshire. The morning peal attempt was at Wortley, where not everyone seemed to be ringing Jersey as scheduled and it was set up very firmly after half-an-hour. This must have put the band on its mettle because it went on to score a good peal of Rutland in the afternoon. Then a sprint back to Leeds to collect Melvyn Hiller from the parish church, where we were greeted with his account of how he had been accosted. And so the the Nag's Head again, followed by coffee and a viciously sadistic card game until half-past two in the morning, when it was time to collect Paul Williams, our Welsh peculiar, with his celebrated string shirt and anecdotes about a three-hour wait on Crewe Station.

Sunday morning was set aside for the tower-grabbers (not visitors, please, which gives us an unwonted and unwanted aura of respectability), with service ringing at Chapel Allerton and the two Headingley towers. Any noteworthy incidents were sadly lost by the author, who was still at home. He returned to the fold in time to ring his first peal of Bristol at Birstwith, thus ending two weeks' sceptical enquiries from the rest of the band regarding place bells. A rapid dash brought more service ringing at St. Peter's, which included a quarter peal of Little Bob Maximus and a good course of Stedman Cinques.

Monday was the longest trip of the week, enabling the band to shake off its hangover and settle down to business: Yorkshire was scored at St. John's, Darlington, in spite of the fact that the Dormobile door, always to be treated with respect, had almost succeeded in amputating Graham's foot. Ormesby was also found, following an un-conducted tour of Middlesbrough, and a peal of London was rung, rather below the average standard for the week, by a very tired band—the effects of carrying only two spare ringers were beginning to make themselves felt, but we could still raise a smile when Ron accidentally hung his tail-end on a coat hook about half-way through the peal.

Tuesday saw some solid work, a good peal of Dorchester being scored at Middleham and one of Lincolnshire at Sharow, where we were pleased to be met by Ted Hudson, with some of his delightful tales about former local ringers. Rebellion occurred at this point among the more poorly nourished members of the party, and a Chinese restaurant in Ripon took precedence for once over the immediate consumption of beer. Lost time was, however, made up later.

CLIMAX OF THE WEEK

Wednesday was undoubtedly the climax of the week as far as quality of ringing is concerned. It had been an ambition that every member of the party should ring a peal of Spliced during the week on an "inside" bell (in fact all but one did so), and this got off to a splendid start with a first-class peal in four methods at Kildwick, a first for Melvyn and Chris. Refreshment followed at Ilkley. Over the road, the best peal of the week was rung, one of Tyburn, much to the chagrin of the writer, who had elected to sit out. It was at about this time that the disappearance of Barrie's camera and our own belfry key was noticed, and the evening was spent amid beer and detective work.

Thursday morning saw the start of mild squabbling over who should have the lighter bells, and the production of large numbers of blue lines, this being when the rest of the band had chosen to ring their Spliced, a fairly ambitious attempt for 11 methods at Handsworth. The strongest possible band was selected and another very good peal rung, any tendency to swollen head being humbled by John Gilbert's account of former glories.

In the afternoon Campsall was visited and a steady peal of Oxfordshire rung, although it almost stopped in a burst of laughter at the rather odd conversation of two members of the band and the insecurity of Chris's trousers. This peal produced the only complaint of the week, from an attractive young lady whose husband was apparently working nights and currently trying to sleep. The night was that of the Great Beer Contest, i.e., greater than that of any other night, when our non-English winner was disqualified following later revelations. It also saw the departure of Phil in a still more northerly direction.

Friday was sad, both as the departure date for the other three non-locals and for the quality of the ringing, for although the elusive peal of Jersey was finally scored at Mytholmroyd a tired band agreed that it had not come up to the high standard of the previous two days. Complimentary reference from our waitress did cheer us up somewhat, and the afternoon attempt for Pudsey at Cross Stone, Todmorden, was a definite improvement, but unfortunately lost after 40 minutes when a rope broke. While some made repairs others discovered handbells; afterwards, in spite of having unexpected spare time, the thirsty outnumbered the would-be tower-grabbers, and the evening was one of departures, arrivals and plans for reunion.

We ended up at Leeds Parish Church, and with gaps filled by Richard and Pattie managed to stay on our feet for long enough to ring a very fair peal of Watford. Unfortunately, this must have been a last gallant effort, because a second attempt for Pudsey at Collingham in the afternoon never found a rhythm and was quite rightly set up.

However, we had rung 12 peals out of 15 and had a great deal of fun; all this

This composition is again aimed at simplicity for the conductor whilst retaining the eight 65's musical qualities. In this case, however, only two bells are used in 2nds place, preserving for the bulk of the peal the normal 6 and 19 calls with which most conductors are familiar.

It will be obvious that this basically new plan can also be used to produce a family of variations, and it is hoped that, with the added simplicity of performance, both compositions will encourage more conductors not to accept less than the best by continuing to ring fixed 2nds place bell peals.

being without mentioning the weird telephone calls, nocturnal ramblings in the course of which one tourist awoke alone and lost on a park bench, and an exciting Wells-Fargo type car chase armed with a fly spray and a supply of traditional British gestures.

It only remains to thank Barrie Dove for a great deal of hard work in organising the week's ringing, and those incumbents and local ringers who generously allowed us the use of some very fine bells.

OBITUARY

MR. ERNEST CALCUTT

The Worcestershire Association, and particularly the Northern Branch, has sustained a severe loss by the passing, on August 9th, of Mr. Ernest Calcutt, leader and conductor at Holy Trinity Church, Belbroughton, for 38 years and a ringer there for over half a century. He was in his 69th year.

Rated as one of the best teachers in the District, he had rung 23 peals for the Association and had conducted 11 of them. He was a churchwarden at Holy Trinity for many years and was in office at the time of his death.

Outside church circles he was president of the Belbroughton Working Men's Club and Institute, an office he had held for many years, and a keen supporter of the local cricket and football clubs, for whom he had turned out regularly in his younger days.

The funeral was on August 13th at Holy Trinity Church and was conducted by the Rector, Rev. J. V. Twigg, himself a member of the Association, assisted by the curate, Rev. A. Whiteley, and the congregation practically filled this very big church. The organist was Mr. Ralph Parton, also a ringer here.

The Worcestershire Association was represented by the general secretary, Mr. David Beacham, the Northern Branch secretary, Mr. B. C. Ashford, and Messrs. C. W. Cooper (librarian), J. Clifford Skidmore (committee), F. V. Nicholls and A. D. Fellows.

As extensive repairs are needed to the spire it was only possible to chime the bells, which was carried out by the local men. A memorial peal will be attempted at one of the adjacent churches, probably Clent, in the near future.

MR. G. E. FOSTER

The news of the death of Mr. George E. Foster, at the age of 63, in a London hospital on August 8th was received with a feeling of deep sadness by many members of the Southwell Diocesan Guild.

Son of the late Edward Foster, a former Ringing Master at Southwell Minster, Notts, George learnt to ring in the 1920s at the same time as his great friend the late J. F. Milner. He loved Southwell bells and especially the old Rudhall eight, and it was with mixed feelings on his part when they were taken away and recast into part of the present ring of 12.

George Foster was a splendid ringer in many ways. Kindly and encouraging to learners, he would soon have any timid or nervous youngster feeling completely at ease in his presence whether in a peal attempt or on practice night.

When Fred Milner retired in the 1950s George took over as Ringing Master at Southwell, and it was at about this time that, much to his great joy, his younger son Michael learnt to ring and so kept alive the family tradition. He rang in many towers up and down the country and always said that he liked "bells with breath in 'em", and did not have much time for little "tin-pot things". He rang in about 170 peals between 1927 and 1964, his last being Stedman Triples (his favourite method) at Southwell Minster.

Retiring from work in 1965 through ill-health, George left his beloved Southwell and moved to live with his married daughter at Bromley in Kent, and after that he came back once or twice each year for a reunion with his family in Southwell and his ringing friends in the district.

Now George Foster has gone and with him another link with the past, but to those of us who knew him his kindly spirit of good comradeship will remain as we go on

our way, being grateful for having known such a man.

And so it was that on Sunday, August 24th, as the Minster clock chimed 12.30 in the quiet little cathedral town of Southwell, George Foster's ashes were laid to rest in his wife's grave at a short service conducted by the Provost, the Very Rev. H. C. L. Heywood, and attended by his family and a few of his old ringing friends.

F. W. M.

An Appreciation

It was with a great feeling of personal loss that I heard of the sudden death of George at Eltham and Morningson Hospital on August 8th. Until three years ago he lived in Southwell, Notts, and was a ringer there from boyhood, but moved down to Plumstead to be with his daughter when he retired. A kinder, more unassuming man you couldn't wish to meet, and he gained the respect and admiration of all who met him.

He did not ring many peals by modern day standards—he left that to his great friend Fred Milner—but he was a wonderful stylist and had an uncanny knack of putting any bell of any weight or "go" into exactly the right place among a row of eight. Unfortunately over the past 13 years he was troubled with an ulcerated leg and found it difficult to stand for the length of a peal; in fact it was because of his leg troubles that I was invited to ring my first peal in 1958, when a day before the peal attempt George's legs once again "packed up" and he asked me to stand in his place.

He was sad to leave Southwell and its beautiful Minster. . . . "After all, I can look out of my bedroom window and see green fields and that old grey Minster, but I'll not be able to down there will I." Indeed he wouldn't, but whenever he had the chance he would go back and sit in the churchyard and talk of peals he had rung in days gone by with such stalwarts of the area as Fred Milner and Clarence Briggs, both of whom died earlier this year.

He taught me to ring a bell, for which I will be eternally grateful, and remained a firm and close friend until his death. All who knew him will miss him dearly.

JOHN R. PRATCHETT.

MR. S. J. ORMAN

The sudden death of Mr. Sidney James Orman on August 7th, aged 51, is a great loss to High Littleton, Somerset, where he was churchwarden for ten years and did most of the conducting for the local band.

He learnt to ring at Holy Nativity, Bristol, in the mid-1930s, under Mr. W. Cave. His ringing was cut short by the war except for ringing at Swaffham for the victory at El Alamein. Because there was no local tower he did not resume his ringing until 1955, when he moved to High Littleton. His first quarter was rung half-muffled in 1959 in memory of Mr. E. B. Carter, people's warden, whom he subsequently replaced. In the following years he rang nine quarters, most of which he conducted.

As a final token of respect, the bells were rung half-muffled prior to the funeral by a band including his son, a friend who learnt to ring with him (Mr. W. Cox) and local ringers. The following evening a half-muffled quarter was rung.

MANUDEN, ESSEX.—On Aug. 18th, 1,260 Grand-sire Doubles: D. Cheeseman 1, H. Watts 2, D. Hutley 3, P. Hunt (first in method) 4, P. Warboys (cond.) 5.

BELFRY GOSSIP

The Taylor family, of Cheltenham, rang a quarter peal at Leckhampton on August 18th.

Tomorrow (Saturday) at 12.30 Mr. Christopher M. Movley marries Miss Jane Elizabeth Colley at St. John's Church, Knaresborough, Yorks.

The Rev. Geoffrey J. B. Stickland rang in the peal to mark his induction as priest-in-charge of the conventional district of St. Dyfrig, Llanrumney, Carms.

Mr. David Blagg, now in his 90th year, has completed 75 years as a ringer at Ord-sall, Notts. A congratulatory peal was rung on August 20th.

Mr. Norman Chaddock is making his influence felt at Market Weighton, E. Yorks. The local band has now rung its first quarter for over 20 years.

A reunion of Great Adventure II members is planned for Saturday, September 13th, at the Loughborough Bell Foundry, when some of the Canberra bells will be on view.

The quarter peal at Westborough, Lincs, was rung after an hour had been spent in the bell chamber and belfry oiling, splicing ropes and clearing the belfry of a ladder, old wood and other rubbish. It is believed to be the first published quarter peal on the bells, writes B. Buttery.

Mr. R. H. J. Mears has rung his first quarter at Milborne St. Andrew, Dorset, after having been ringing for 53 years.

Two members of the Cambridge University Guild, Christopher Tuckett, of Harrogate, and Jane Wittrich, of King's Norton, were married at St. Benet's Church, Cambridge, on August 22nd. Members of the Guild rang before and after the ceremony. Both bride and bridegroom graduated this year and they are to make their home in Cambridge.

Recently the Crosthwaite (Westmorland) church bellringers held a very successful coffee evening and raised over £36 towards belfry funds. The event was organised by Doreen Maclean, Matthew L. Dobson and Kevin M. Price, ably assisted by a number of ringing friends and relations. Touches on handbells were rung by Mary and Joe Whalley, of Hawkshead, and Kevin M. Price, of Crosthwaite.

We anticipated the claim that the first quarter of All Saints Doubles to be rung in a church dedicated to All Saints was at Barrowby, Lincs, on August 1st. In the same county, at All Saints', Swinderby, Mrs. Margaret E. Swinger (née Chilton) informs us that on November 3rd, 1964, she rang in a quarter in this method conducted by W. L. Exton, secretary of the Southwell Diocesan Guild.

SILVER WEDDING OF MR. and MRS. T. CULLINGWORTH

On August 19th, 1944, Thomas Cullingworth and Miss Lily Wickens were married at St. Mary's, Ashford, Kent.

For a long time they had cherished the ambition to ring a peal at All Saints', Maidstone, where Tom is now captain of the ringers, on their silver wedding anniversary with a band of married couples. In the first case it was hoped to go for a 10-bell peal but in the end it was only possible to get a band to start for Pitman's peal of 4-Spliced on the back eight. Alas, in spite of assiduous steeple-keeping, a rope broke and as there was not time to start again a quarter peal from the composition was rung with the very best wishes of the rest of the band to Tom and Lily.

Ringers in the Maidstone area and further afield in Kent are greatly appreciative of the fine work the Cullingworths do at All Saints', in continuance of many years of devotion to the church and to ringing in Kent, not forgetting their long loyalty to Ashford Church and tower in earlier years.

CORNWALL BELLS TO BE REHUNG

The eight bells of the lovely Church of St. Germans, Cornwall, are to be rehung in entirely new fittings by Messrs. John Taylor and Co. This church, in Saxon times a cathedral, has twin towers at the west end and the bells hang in the south tower. Originally a complete ring of six, cast in 1775 by John Pennington and Co., they were last rehung in a metal frame by Mears and Stainbank in 1913, who then recast the treble and added the new trebles to make eight.

A number of peals have been rung on these bells, and it is interesting to note that a peal for the Truro Guild in 1913 by a band from Plymouth was the last for that Guild for a space of no less than 13 years. In 1926 a touring band, organised by the late W. H. Fussell, started at St. Germans with a peal of London Surprise Major for the Guild, and so began a happy revival which has gone on ever since.

WELSH EXCURSION POPULAR

Bridgwater Branch had a company of 76 for its outing to South Wales on August 9th. After coffee at Severn Bridge Services there was ringing on the light six at Tredunnoch and Usk, where the recently redecorated belfry was admired and two sittings were necessary for lunch.

Cloddock proved to have a musical six, but paddling in the river was a rival attraction. The objective of the day was the recently restored six at Grosmont, where much of the work of dismantling and rehanging was done by local people. After tea a film of the restoration was shown. Monmouth was reached through the Monnow Valley, and after a brief stop at Filton for fish and chips home was reached at 11.30 p.m. Elly and Geoff are thanked for making the arrangements, and Grosmont ringers for their hospitality.

The ringer of the sixth in the peal at Hatfield Broad Oak, Essex (page 627), was Dennis Willcocks.

WHEATLEY RINGERS SAY GOODBYE TO INGER

Some members of the band at Wheatley, Oxford, with Miss Inger Lello (centre), an "au pair" from Norway. Inger first became interested in bellringing when the local ringers took part in a tableau at Christmas, and since then she attended the Thursday practices regularly until her return to Norway last month. Her Beginners' Handbook will no doubt remind her of a truly English pastime!

Wheatley is well used to "semi-resident" ringers because of the Lady Spencer-Churchill Teachers' Training College nearby. This year Maureen Long, from Lyme Regis, and Heather Enoch, of Paignton, are both regular practice and service ringers at this church.

Pictured (left to right): Heather Enoch, Colin Smith, Ian O'Reilly, Inger Lello, John Walford, Fred Deacon, Kevin Harris.

A VETERAN VISITOR AT HORTON

During the quarter peal at St. Michael's, Horton, Bucks, on August 16th, two elderly gentlemen entered the ringing room and sat down. When the ringing stopped about 20 minutes later one of them stood up and asked if he could have a few rounds "But you will have to watch me," he said. "I haven't touched a rope for 19 years!" He then told the band that he was Mr. Charles Goodman and he had learned to ring at Sarratt in 1913. At the time of their restoration he was in charge but gave up ringing 19 years ago due to a chest disorder.

He had recently moved to the Gardeners' Benevolent Country Home, Horton, Bucks, and this was the first time he had heard the bells rung, so he decided to try his hand and rang the treble to some very good rounds for a couple of minutes, to his friend's obvious joy! No doubt he would be delighted to hear from any old ringing friends at the above address.

NEW RECORD SPLICED SURPRISE MAXIMUS

Dear Sir,—As conductor of the peal at Nottingham, representing a new record in Spliced Surprise Maximus, I wish to extend my personal thanks to the Vicar and ringers of St. Peter's, Nottingham, for allowing us to change the venue to there after permission had had to be withdrawn by Lincoln Cathedral at short notice, and also to Richard Starkie, who volunteered to learn the methods at a mere 24 hours' notice when Basil Jones was taken ill.

In accordance with Central Council procedure, I enclose details of the six new methods included in this peal. As indicated, Apsley, Painswick, Worcestershire, Warwickshire and Belfast are all extensions of previously rung methods; Worsley is extended from a parent Royal method which has not yet been rung, viz.:

IN A BEDFORD RINGING CHAMBER

In St. Paul's, Bedford, belfry there was a low table fixed in the centre of the floor, the sides of which used to open and enable the ringers to watch proceedings in church. Recently the ceiling under was covered with boarding and the table was of no further use. It has now been removed but the top of the table laid flat on the floor over the opening.

One of our ringers, who wishes to remain anonymous, when he saw this was reminded of a slab over a grave, and he was moved to write the following epitaph to an imaginary ringer interred beneath:

In memory of Thomas Day
Who pulled a bell and broke the stay.
He, alas, did not let go.
They placed his body down below.

We like to think another seven
Ring Major with him up in heaven,
Or does he have to sound the bell
At tea time for his mates in Hell?

We learn from Tommy's unknown fate,
When ringing we must concentrate,
For even experts, sad to say,
Do sometimes pull and break a stay.

E. B.

A WEEK IN WEST WALES

A holiday and ringing week in West Wales was organised by Jack Pryor. Peal attempts were made on all the four eights in Pembrokeshire and only Stedman Triples was lost at Pembroke. The peal of Bob Major at Haverfordwest was accomplished after time had been spent splicing, oiling and repositioning ropes. This is believed to be only the second peal of Major on the bells. It was suggested that someone by the name of Jenkins had been involved in the other one in the 'twenties! Richard Underwood has now rung a peal on all the ringable rings in Pembrokeshire.

MARLBOROUGH BRANCH ATTRACT VISITORS

Marlborough Branch (Salisbury D.G.) held its monthly meeting at Milton Lilborne and Burbage on Aug. 16th in lovely weather. Chiefly owing to the holiday season, the visitors almost outnumbered the members, contingents being present from Chippenham, Swindon, Ringwood (Hants), Lyneham, Chester and Croydon, in addition to Branch members from Aldbourne, Chisledon and Everleigh.

In the absence on holiday of Mr. A. Keen (Ringing Master) the duties were in the capable hands of Mr. A. T. Palmer, a former Branch secretary. Ringing started on the medium-weighted six at Milton Lilborne at 3.30 p.m. and the Guild service at 4.30 p.m. was conducted by the Vicar (Rev. A. Crace), with Miss Ann Toomer at the organ. A picnic tea was enjoyed on the Vicarage lawn. Before moving on to Burbage Mr. G. Newman (chairman) expressed the thanks of the Branch for the use of the bells.

At Burbage a further two hours' ringing on the light five rounded off an enjoyable afternoon. W. A. E.
