'THE SIXTH RIGHT AND WRONG'

IT is probably true to say that the 6th is the most talked of bell in the scale. From Minor (where its relation to the 5th is always carefully considered) right up to Maximus this bell has some important bearing on the musical construction of compositions, and in discussions on the properties of compositions the 6th will almost certainly be mentioned. Two hundred years ago John Martin, of Leicester, was singing the praises of the 6th behind the 9th in Grandsire Caters, and a little later Shipway was pointing out how by the use of Singles more courses with the 6th in fifths could be obtained. In the great outbreak of composition fever at the end of the last century the chief aim was 'the 6th her extent right and wrong,' and most peal figures bore some reference to, and were judged by, the manipulation of this particular bell.

The function of the 6th in change ringing is indeed interesting, for although regarded to some extent as a fixed bell, yet it is in a measure independent, and may be made to attach itself to the fixed bells in a number of ways and for a number of musical purposes.

The importance of the 6th in the construction of musical compositions is indisputable, but its influence and its value are not by any means the same on all numbers of bells. For the 6th on eight bells is the Mediant of the scale, the 6th on ten bells is the Dominant, and the 6th on twelve bells is the Leading Note, the note below the Tonic. It follows, therefore, that the 6th in Triples or Major is a different bell from the 6th in Caters or Royal and in Cinques it is again a different bell. Indeed, with the increasing number of bells it will be found that it first assumes a growing importance and then suffers a decline.

In Triples the value of the 6th lies in its partnership with the 7th and the 4th to give the attractive terminations 46, 67, and their inversions 64, 76. In Major its effective places are as fifths-place bell or sixths-place bell, and the latter is the more generally useful. As fifths-place bell the 6th is perhaps at its best in a simple method like Plain Bob, where the unbroken coursing of the bells allows the inverted tittums to be very effective. In methods where the coursing order is broken inside the lead no tittum effect can be maintained, and the only value of the 6th in fifths is that 867 occurs behind at intervals. In the more involved methods, therefore, it may be argued that the 6th in sixths, or the 4th in sixths, is more generally satisfactory.

On ten bells the 6th really assumes great importance, particularly in Caters. Here, again, its placing for effect depends on the method rung. The Major plan is completely reversed, for in the simple methods the 6th at home is very effective, while in the more complex methods the 6th in fifths is the more useful. The regular coursing of Grandsire Caters will, with the 6th at home, allow a majestic rolling down to lead of 6, 7, 8, 9, but the broken work of Double Norwich Caters and Stedman Caters destroys this effect. In the latter method, it may be observed, the only value of the 6th in sixths is that an 86 termination is produced in the middle of the course, but a far better effect may be secured by fixing the 6th in seconds place, a plan inaugurated by Hubbard and strongly supported by Sir Arthur Heywood. This gives a 96 and a 68 in each course.

The finest Cater plan is admittedly to fix the 6th in fifths, for then we secure the magnificence of the 7689 terminations; and to most ringers nothing can compensate for the loss of this beauty. Of the Handstroke Home it may be said that the placing 879 without the 6th in fifths is flat, stale and unprofitable.

In Royal the 6th is still of some importance, providing, when at home, the termination 86, and also assisting at a very satisfactory rolling up of the big bells. It has not the scope or the power that it has in Caters. It is when we come to Cinques; however, that we find how the mighty has fallen. No longer does the 6th dominate the music of the peal as it did on lesser numbers. In the Handstroke Home it may, of course, be said to assist the long roll-ups at the course end, but in Stedman Cinques, at least, its tittum value is not great, and most ringers would prefer the 5th in fifths place, for the 5th on twelve bells is the Tonic note and has distinct musical possibilities.

In Maximus the musical decline of the 6th is complete, and the chief virtue of the 6th at home would appear to be in preserving one more fixed bell, and so assisting the rope-sight, and consequently the striking. There certainly can be little point in advertising the beauties of a peal of Maximus by reference to the 6th 'so many times right and wrong.'

One interesting thought remains. The ringing of Spliced Surprise Major brings a demand for compositions that are more and more mathematically complex, and it may be that these peals are paying less and less attention to the placing of the 6th. If that is so, the question of a musical decline in Major ringing provides speculation for all those interested in the matter.

GILLETT

AND

JOHNSTON

LIMITED

No matter in which corner of the country you happen to be, as likely as not you will come across Gillett and Johnston bells or tower clocks.

Gillett and Johnston craftsmanship is embodied in an all-embracing service — as much in the preservation and restoration of old rings of antiquarian interest as in the installation of new.

EDITORIAL COMMITTEE:

J. FRANK SMALLWOOD (convener), 122, Lee

JOSEPH T. DYKE.

HAROLD J. POOLE.

EDITOR: T. W. WHITE.

Mrs. Nora Chadwick has the unique distinc-
tion of ringing her first peal for her own silver
wedding. We doubt whether such an event has
ever occurred in the Exercise before. She is
a member of the Wakefield Cathedral Church
Sunday service band and it was with her fellow
members she rang the peal at Sandal Magna,
Yorks.

Mrs Olive Mary Jenkyn, of
Caversham, Reading, widow
of the Rev. C. W. O. Jenkyn,
who died last December, left £49,791 (duty paid
£17,344). She left £500 each to the S.P.G.
Medical Missions and the Oxford Diocesan
Guild of Church Bellringers, of which the Rev.
C. W. O. Jenkyn was at one time Master. To
her housekeeper, Miss Betty Lawrence, she left
£2,000.

February 14th is the 50th anniversary of the
North Wales Association.

A first peal by a whole band is a matter of
warm congratulation. This took place at Hat-
ton, Warwickshire, on January 31st at the
second attempt. The average age of the band
was 18½ years.

A welcome visitor to Woodford, Essex, re-
cently, was Mr. Nelder, of Wanstead, who is
now over 80 and unable to ring very often be-
cause of his health. It was a pleasure to see
him joining in the ringing at Woodford.

We are pleased to see Mr. F. Bennett, of
Brighton, again in our peal columns. He called
a peal for his 84th birthday, his 677th for the
Sussex Association. 'I wonder if I am the
oldest ringer living to conduct a peal?' he in-
quires.

We regret that through a typographical error
the peal of Plain Bob Major rung at Chichester
on January 24th, reported in our last issue, had
the name of the wrong conductor. The peal
at Chichester was composed by Mr. James Topp
and conducted by Mr. John H. Hunt.

The 13th issue of 'The Belfry,' the quarterly
publication of the Maidstone District, maintains
the excellence of previous numbers. Among
the contributors are Mr. A. York-Bramble,
who concludes his notes on 'Method Structure'
and Mr. B. J. Luck, who gives some inside in-
formation as to the popularity of Canterbury
District meetings.

BELFRY GOSSIP

Finchingfield (Essex) bells
are now ringing again after
their recent overhaul by
Messrs. Gillett and Johnston. The work carried
out includes the recasting of the seventh bell
and rehangng on ball bearings. The church
has recently undergone a major repair of the
roof, something like £5,000 being spent. In
view of this the seventh bell was dedicated
after its return from the foundry whilst it stood
in the church, and a service of thanksgiving
for all this work will be held in April, when the
former Bishop of Chelmsford will be the
preacher. Details of the service will be pub-
lished in our columns later.

We are asked to state that the peal of 5,184
Kent Treble Bob Maximus at Ashton-under-
Lyne was not rung by the Ashton Society.

Mr. H. Evers, of Witham, Essex, who, pre-
vious to his 73rd birthday had never handled a
bell, has rung his first quarter at the age of 74.
We think Mr. Evers must be one of the oldest
starters in the Exercise and we wish him many
happy years of ringing.

Miss Mildred Dwerghouse, of Farnworth,
Lancs. has accepted a teaching post in Germany.
In bidding her au revoir the Parish Magazine
records: 'Among the many ways in which she
has helped forward the work of the church,
it is especially as a bellringer that she will be
missed. Most of the present team first joined
through her influence, and her own enthusiasm
has been an inspiration to all.'

Writes a correspondent, E. L. H.: 'We need
two councils, one to meet at York and one at
Winchester. Our aim should be not peals but
to get all the bells ringing all over the country.
Side-tracking the real problems with "What is
and what isn't" is a dead loss to Sunday ser-
vice ringing. A committee in London could do
the real work of co-ordinating far more effi-
ciently than the Council.'

SERVICE TOUCH ON HANDBELLS

At Consecration of Newcastle Church

St. Peter's, Newcastle-upon-Tyne, the first permanent church to be built in the Diocese of Newcastle since before the late war, was consecrated by the Lord Bishop of Newcastle on Saturday, January 31st, in the presence of a large congregation of local clergy and laity, including the Lord Mayor and Sheriff of Newcastle. This new church replaces a timber-built mission of the Parish Church of SS. James and Basil, Fenham, and is to serve the newly-developed urban areas of Cowgate and Blake-law, which will eventually become the boundaries of a separate parish.

Although at present without the bell tower allowed for in the plans, the church was not without bells and ringers on this great occasion, for a service touch on handbells of 336 Grandsire Triples was rung in front of the chancel steps by the following members of the Durham and Newcastle Association: J. Anderson (Newcastle Cathedral) 1-2, K. Arthur (SS. James and Basil's) 3-4, D. A. Bayles (SS. Mary and Cuthbert's, Chester-le-Street) 5-6, E. N. Harrison (SS. James and Basil's) 7-8. After the service several worshippers expressed their appreciation of the ringing, and one gentleman was so delighted by 'your harmony' that he insisted on shaking the hand of each ringer in turn.

Many of the post-war brick-built church edifices like St. Peter's, Cowgate, do not allow for the installation of rings of bells, and it is felt that the use of handbells in these churches on special occasions is more than justified. Not only does it show the desire of ringers to be recognised as church workers, but it stimulates a public interest in the ringing art, which is all too often unknown to the congregation 'downstairs.'

During the afternoon prior to the service of consecration, the ringers of the mother Church of SS. James and Basil took their part in the parish thanksgiving by ringing 1,260 Stedman Triples as follows: E. N. Harrison 1, T. W. Crowe 2, K. Arthur (conductor) 3, T. Sewell (first in the method) 4, N. H. Hewett (first in the method) 5, J. Roach 6, J. A. Ainsworth 7, J. Heal 8.

Miss Norah M. Bibby's 150 Peals

Miss Norah M. Bibby has an interesting list in her 150 peals which, as she explains, represents the result of 25 years spent by a ringer who just 'makes up the band' occasionally. The list includes record peals by four fathers and four daughters and five fathers and five daughters:—

Minor.—Bob 1, Cambridge 1.
Triples.—Stedman 4, Grandsire 8.
Major.—Bob 12, Double Norwich 5, Oswald Delight 1, Double Mancroft 1, Marlborough Bob 1, Winchester Bob 1, Gainsborough Little Bob 1, Loughborough Bob 1, Buckley Imperial Bob 1, Daresbury Imperial Bob 1, Grosvenor Imperial Bob 1, Liscard Imperial Bob 1, Kent Treble Bob 11, Oxford Treble Bob 2.
Surprise Major.—Cambridge 23, Superlative 6, Yorkshire 3, Rutland 2, London 19, Bristol 11, Liverpool 1, Cheshire 1, Rochester 1, Ipswich 1, Lincolnshire 1, Spliced Surprise (4 methods) 2, (6 methods) 1, Spliced Plain and Little Bob 1.
Caters.—Grandsire 4, Stedman 3, Double Norwich 2.
Royal.—Bob 3 (1 'in hand'), Kent Treble Bob 3, Oxford Treble Bob 1, Cambridge Surprise 5, Little Bob 2 (1 'in hand').

Mr. Brian Harris points out that the composition rung at Liscard, Cheshire, to Liscard Imperial Bob was by Sir A. P. Heywood and not by H. W. Wilde.

RECORD LENGTH OF GRANDSIRE CATERS 'IN HAND'

Two Ladies in 13,139 Changes Peal

A new record length in Grandsire Caters 'in hand' was established at Bournemouth on Saturday, January 31st, by the well-known local band conducted by Mr. Daniel T. Matkin. The peal rung, 13,139 changes, was composed by the conductor. The previous record of Grandsire Caters 'in hand' was rung in 1912.

The band consisted of Mr. W. G. Young 1-2, Mrs. F. J. Marshallsay 3-4, Mr. D. T. Matkin 5-6, Mr. Roy C. Hurst 7-8, Miss Kathleen E. Fletcher 9-10.

The band assembled at 26, Wellington Road, and went into changes at 2.37 p.m. 'This is all' came at 9.11 p.m. The rate of changes per minute was 33.35.

The umpire, Mr. Arthur V. Davis, checked the calling and every course end throughout the peal, and the band desire to thank him for doing his job most efficiently. He also timed every four courses and there was hardly any variation.

The two ladies are to be congratulated on the way they stuck to their jobs. Neither of them was in the least perturbed and would have gone on much longer if necessary.

MR. DANIEL T. MATKIN

Mr. Arthur V. Davis, who umpired the peal, writes: The bells went into changes at 2.37 p.m. and came round at 9.11 p.m., so that the performance occupied 6 hours 34 minutes. This represents an average of between 35 and 36 changes a minute and a steady pace was maintained throughout. The peal is composed of blocks of four short courses, each representing 360 changes, and the quickest time recorded for one of these blocks was ten minutes exactly and the slowest was eleven minutes.

There was no trip throughout. One or two periods (very short) of hesitancy were the only blemishes on what must rank as a first-class performance. Congratulations are due to all taking part, especially the ladies, who seemed ready for another lot at the conclusion. Some of the best ringing was heard in the concluding handstroke position, but the 'beat' was excellent throughout. I may add that I checked every call and every course-end throughout the peal and, as the composition has already been checked by competent authority, Mr. D. T. Matkin and his band may be congratulated upon a first-class performance.

Appended is the composition that was rung.

Rung on handbells at Bournemouth, Saturday, January 31st, 1953, in 6 hours and 34 minutes, conducted by the composer.

The 5,000 Kent Treble Bob Royal at Worcester on January 17th (published in our issue of January 30th) was the 500th peal for the Worcestershire Association by Sidney T. Holt.

THE SHROPSHIRE ASSOCIATION

Record Attendance at Shrewsbury

WHETHER by accident or design, the Shropshire Association annual meeting at Shrewsbury on January 31st coincided with the leading article in 'The Ringing World' which was devoted to Professor Samuel Lee, at one time a Shrewsbury ringers.

The record attendance could not be ascribed to this, however, as eighty names had been sent in reply to the invitation to tea which was issued by the Vicar and churchwardens of St. Chad's.

St. Mary's ringers had their bells in readiness, and standard eight and ten bell methods were rung with some difficulty, as belfry and staircase were crowded with ringers anxious to secure a rope. Shortly afterwards the last four of St. Chad's twelve were raised in turn, and the lighter ones rung up in peal in some style. Plain Bob, Grandsire Cinques and Treble Twelve were heard before all assembled in church for the service.

This was conducted by the Vicar, the Rev. F. A. R. Chapman, who said how pleased he was to welcome so large a gathering on the first such occasion since his arrival in Shrewsbury. He said that the parish was very proud of its fine bells and of its church. Both were worthy successors to the old church, the dramatic end of which he described. He further remarked that the programme was a very full one, and proposed to close the service with the new bell ringers' hymn from the last edition of 'Ancient and Modern.' A tangible form of welcome had been prepared in St. Chad's Parish Room.

The ringers found this was indeed the case, eighty plates of ham and incidentals being supplemented by numerous cups of tea brought round by Mrs. Chapman, the ladies of St. Chad's band, wives and mothers.

After tea the Vicar took his leave, being due at evensoing, as the parish is temporarily without a curate. Many willing hands cleared the tables and a considerable volume of business was executed with despatch.

Officers elected were: Ringing Master, Mr. A. Pritchard; Deputy Ringing Master, Mr. F. H. Bennett; secretary and treasurer, Mr. W. A. Farmer; auditor, Mr. W. H. Hughes.

First rung at St. James', Trowbridge, on April 29th, 1950.

The Ringing Master's report indicated that 15 peals had been rung during 1952, with 28 'firsts' of some kind. Quarter peals were not numerous, but he mentioned that at Wrockwardine by the new band. Several restorations had taken place during the year, and presumably with the Coronation in mind, several others were either in progress or pending.

Grants were immediately made to Newport, Madeley, Shifnal and Bicton, the balance sheet showing a continued increase in reserves.

A representative committee, comprising Messrs. F. Price (Market Drayton), E. V. Rodenhurst (Hodnet), H. Hughes (Oswestry), E. Whitehead (Ellesmere), E. Fox (Much Wenlock), J. Stanier (Madeley), L. Watson (Newport), L. Hewitt (Wellington), L. Garbett (Broseley) and officers, was appointed, with a view to arranging some ringing during the Coronation period at towers which had no band of ringers.

Mr. A. Bayley voiced the members' thanks for the reception and hospitality, which they had so much enjoyed, and the company adjourned to the belfry, where standard methods and Cambridge were rung.

No such concourse of ringers has visited Shrewsbury since the last Central Council meeting, and several stayed overnight and helped with ringing for matins on Sunday. The following towers are recorded as being represented: Claverley, Wellington, Market Drayton, Much Wenlock, Clive, Oswestry, Ellesmere, Stockton, Broseley, Hodnet, Wem, Madeley, in Salop, and Birmingham, Heston, Crewe, Wednesbury, Wollstanton, Tunstall, Wistaston, Coventry, Barwell, Colehill, Leicester, Wigston, Magna, Nottingham, Claines, Prestwich and Newcastle-under-Lyme. Mr. A. P. Cannon also journeyed from London.

Guildford District Discuss Coronation Day Ringing

The main theme at the annual meeting of the Guildford District of the Guildford Diocesan Guild on January 31st, which was held at the Prince of Wales Hotel, Guildford, was ringing on Coronation Day. The Rev. A. C. Cook (Bramley) presided, supported by the hon. sec. (Mr. R. Kenward), over 50 ringers attending.

Mr. L. Hunter said that in view of television, ringing on Coronation Day would have to be arranged so as not to coincide with the service. He felt that it was very desirable that all towers should make some effort to ring on that day.

Mr. A. C. Hazelden commented that his recollection of the 1937 Coronation was that each parish church made arrangements for its own service, and ringing took place in conjunction with that service. Whatever the Guild wished to do, the decision would rest with the Vicar and the parish.

Mr. T. Mark White advocated the formation of a pool of ringers to give assistance to those towers which were short.

Mr. A. H. Pulling recalled the Coronation of King George V., when a peal of London Surprise was started at Guildford at 5 a.m. and completed by 8 a.m.

It was eventually decided to send a questionnaire to each tower to find out if they were ringing on Coronation Day and if assistance was required; and if the local company was unable to ring, would the services of visiting ringers be appreciated?

The meeting favoured the holding of a district outing, and Mr. T. Mark White agreed to act as organiser with the assistance of the officers of the Guild.

Officers elected were: Ringing Master, Mr. W. J. Robinson; hon. secretary, Mr. R. Kenward; assistant hon. secretary, Mr. R. Morant; hon. auditor, Mr. J. Horsman. Mr. R. Whittington was re-elected to the committee for three years.

OXFORD DIOCESAN GUILD

Central Council President Visits Bicester Branch

The quarterly meeting of the Bicester Deanery Branch was held at Caversfield (St. Lawrence's) on January 31st. Ringing commenced on the five bells at 2.30 p.m., and these were rung to Grandsire and Stedman. The church (of which the lower portion of the tower is Saxon) is situated on the Bicester-Banbury road surrounded by trees next to Caversfield House.

The branch president (the Rev. C. Cowland Cooper) conducted the service, the Deputy Master (Mr. F. Sharpe) read the lesson, the new Rector of Launton (the Rev. S. Tarrent) preached a ringers' sermon, and Miss Elizabeth Sharpe was the organist.

Col. and Mrs. Wyndham, of Caversfield House, very kindly placed the library at the branch's disposal for the tea and business meeting which followed. The Deputy Master was in the chair, supported by the branch secretary, Mr. C. H. Kinch.

The members stood in silence as a mark of respect to the late Mr. G. Jones, of Ludgershall (Bucks). One new member for Bicester tower, Miss R. E. Stevens, was elected. The annual meeting was fixed for Kirtlington on April 25th subject to the dedication of the Cathedral bells.

The branch had very great pleasure in according the president of the Central Council a very warm and sincere welcome to the meeting. In his address, Mr. E. H. Lewis said that the Standing Committee were discussing the ringing activities for the Coronation and would be issuing a directive very shortly.

The meeting closed with votes of thanks to Col. and Mrs. Wyndham, the Rev. S. Tarrent, the branch president, the secretary and the organist.

Tunes were rung on the handbells and also courses of Grandsire Triples and Plain Bob.

New members elected were: Non-resident life, Miss Sheila Collins; ringing members, Alan C. A. Hunter (Shalford), Miss Hazel Rose (Bramley), Mr. D. Redfern (Bramley), the Misses Ann Cox, Marigold Rule and Monica Collins (S. Nicolas', Guildford).

Meeting places suggested for 1953 were Haslemere, Witley, Godalming, Ewhurst, Wonersh and Shere.

The service was held in S. Nicolas' Church, conducted by the Rev. A. C. Cook, the sermon being preached by the Rev. J. P. Denham (Dunsfold). Singing was led by a ladies' choir. Ringing took place during the afternoon and evening at the Guildford churches.

LETTERS TO THE EDITOR

THE 1951 PEALS ANALYSIS

Dear Sir,—The letter written by the Rev. K. W. H. Felstead, and published in your issue of January 30th, 1953, calls for a reply.

In the first place, I do not think his simile is very apt. A judge or magistrate administers the law as he finds it, but his observations on the law, even if generally acceptable, would take many months, perhaps years, of work before they could become effective. The position at Lincoln was very different. Within a matter of hours the Council passed two resolutions, the second of which cancelled out the first. It is not a matter of paradoxes, but of ordinary committee procedure, and the common ringer (I use this term in no derogatory sense) is entitled to expect that members of the Council are familiar with this procedure.

I assure Mr. Felstead and all who think as he does that the General Committee of the Oxford Diocesan Guild did not regard its resolution as a bit of 'cheek.' The introductory reasons given by the Guild's representatives should have convinced all those who heard them that the Guild was seriously concerned with the present administration of change ringing by the Council. The Guild Committee looked at the problem objectively. It found that ever since the passing of the decision accepting only Plain Bob lead ends this decision had never been enforced, and regular and irregular methods alike had been published annually by the Peals Analysis Committee. The Council has, therefore, connived at this deception and even aggravated it by persuading the common ringer to buy its publications containing some of these methods with instructions for ringing them. Is it then 'cheek' to ask the Council to re-examine this question of the so-called irregular methods?

It is well known that a considerable number of ringers do not see eye to eye with the Council over the existing rule and there are weighty arguments for its abolition which the Oxford Guild thinks should be carefully examined. I am astonished that Mr. Felstead thinks the Methods Committee is competent to decide this question for the whole of the Exercise. I saw nothing in the report of the Central Council proceedings at Lincoln which suggested that the question had been remitted to the Methods Committee for a decision. I certainly saw the Methods Committee's decision published a few weeks ago, but did not attach any undue importance to it. I very much doubt if the Oxford Guild Committee would consider that such an opinion, if accepted by the Council in due course with no additional evidence, satisfied the terms of the resolution passed at Lincoln. In my view this problem is now so important that it should be remitted to each association in membership with the Council for a full discussion. The answers, when received, could be collated, and we should then have a representative opinion of the general body of ringers.—Yours sincerely, A. R. PINK.

Kennington, Oxford.

IRREGULAR LEAD ENDS

Dear Sir,—Over 25 years ago I asked a well-known ringer and composer, who first taught me how to prove Plain and Treble Bob Major, why it was that objections were raised to irregular lead ends (heads) in Minor ringing. His reply was that so far as he could discover there was no reason, but plenty of prejudice!

Since that time I have endeavoured, unsuccessfully, to discover one for myself. Perhaps now that the Methods Committee are unanimously agreed on the subject, Mr. K. W. H. Felstead could enlighten me?

But, please, sir, REASONS, not prejudices.—Yours faithfully, H. CHANT.

Ryhill, Wakefield.

B.B.C. RECORDING

Dear Sir,—I heard the new record in the B.B.C. Light Programme on Sunday, February 1st, at 7.57 a.m. for the first time. It was a real treat. If this is the recording referred to by Dr. Taylor some weeks ago, congratulations to the Evercreech band.—Yours,

CHARLES A. BASSETT.

THE OXFORD GUILD RESOLUTION

Dear Sir,—I was under the impression that the Oxford Guild resolution was carried at the Central Council meeting at Lincoln.

This being so, and without resorting to Latin, it meant that peals which had been recognised for the last dozen years or so should again be so recognised, at least for 1951.

A simple and straightforward ruling which the ordinary ringer could easily understand and which the Rev. Kenneth Felstead and the members of the Methods Committee would do well to remember.—Yours sincerely,

ALBERT E. LOCK.

Oxford Diocesan Guild representative.

WINCHESTER & PORTSMOUTH GUILD

Christchurch Branch

The Christchurch Branch held its annual meeting at Christchurch recently. Good use of the Priory bells (12) was made during the afternoon and evening. The service was held in the choir of the Priory, conducted by the Vicar, Canon R. P. Price, M.A.

At the business meeting held after tea all the officers were re-elected and several new members were elected.

The hon. secretary reported the loss through death of Messrs. J. M. Turner, E. Hinton (Christchurch) and E. Kerley (Lymington), and the meeting stood for a moment in respectful silence.

Mrs. J. M. Turner asked the district to accept a model bell in memory of her late husband. The members did so, thanking Mrs. Turner for the gift, and decided to house the model in the Priory tower suitably inscribed. Mr. G. Preston was elected custodian of the bell.

It was resolved to hold the 1953 quarterly meetings on March 14th, June 13th, September 12th and December 12th, and the Bournemouth Ringers' Rally and 'George Williams' Commemoration Dinner on Saturday, May 23rd, to coincide with the visit of the Central Council to Bournemouth.

Portsmouth District Annual Meeting

The annual meeting of the Portsmouth District was held at Alverstoke on January 31st, when about 50 members, friends and visitors from a wide area attended. Range of ringing during the afternoon and evening was up to Superlative, Yorkshire and Bristol Surprise Major, with plenty of rounds for beginners.

The service in the Parish Church of St. Mary was conducted by the Rector, Canon Windsor Roberts, and tea and business meeting took place in the Brodrick Hall.

District officers elected for the year were: Chairman, Mr. H. A. Nobes (Alverstoke); secretary, Mr. J. H. Hunt (Titchfield); auditor, Mr. P. Page (Titchfield); Central Committee representative, Mr. A. H. Sturges (Fareham). Retiring officers were: Mr. W. Linter (chairman), Mr. J. H. Hunt (secretary), Mr. F. W. Burnett (auditor), Mr. S. J. Harding (C.C. representative).

New members elected were two honorary, two compounding (one a ratification) and 10 ringing. The new three-year rota of district meetings proposed by the secretary was adopted on Mr. Hunt's proposal, seconded by Mr. Love.

LEEDS AND DISTRICT SOCIETY

Pudsey's Redecorations Impress Visitors

The Society's first meeting in 1953 was held at Pudsey on January 31st. The nation-wide gale was very much in evidence, but this did not affect the warmth of welcome extended to the Society.

The church has been recently redecorated and the tower was included in the scheme which produced many improvements. The bells were raised in peal at 3 p.m. and ringing continued until 5 p.m., when tea was served in the nearby schoolrooms.

The president (Mr. J. W. Bente) presided at the business meeting, and members were present from Armley, Calverley, Collingham, Guiseley, Headingley (St. Chad's and St. Michael's), Leeds Parish Church, Otley, Pudsey, Rothwell, Thorner, Woodlesford and York. Later arrivals were from Bramley, Batley, Bradford, Halifax, Idle, Tong and Ossett.

The usual business meeting details were quickly dealt with. One new member, Mr. D. Mann, of St. Chad's, Headingley, was elected.

A vote of thanks to the Vicar, churchwardens and local company was proposed by the president, who specially stressed the thanks to the members who had arranged and served tea. This was seconded by the secretary, who said he thought the visitors were too full for words, but he hoped the local ringers would not judge their shyness in giving voice to the fact that their thanks were not sincere. Mr. J. W. Gibson acknowledged the thanks and said if the visitors had enjoyed their visit the local company had enjoyed their company and in preparing for them.

The next meeting is due to be held at Birstall on February 28th.

Handbell ringing was enjoyed before a return to the tower.

RINGERS I HAVE MET

JAMES (JIMMIE) MOTTS, 1859—1923

When I was a boy and learning to ring at King's Lynn, round about 1900, James Motts was looked up to in East Anglia with veneration, and by those who had never met him, almost with awe. We had heard so much about his insistence on good striking and his insufferance of fools gladly. Yet he was always ready to help and encourage a young ringer, as I found out later when I had settled in Ipswich, for he called—to my great satisfaction—the first composition of mine ever rung.

He was born in 1879 at Fressingfield, a village in High Suffolk, that same village which had given birth to Sancroft, Archbishop of Canterbury, and to which the latter retired to end his days on his resignation in 1685. Motts came of a ringing family, his father and uncles being ringers; it was a hard school, their ringing was learned the hard way, but they made good strikers.

In those far-off days Oxford Treble Bob was the height of a man's ambition and each man vied with his neighbour in the art of placing his bell; a bad striker was simply not tolerated. Hence his demand all his life for good striking. He was a man of about average build, dark, keen-eyed and in his early days wore what used to be called 'mutton-chop' side-whiskers. (There is an engraving of him thus in 'Bell News,' January 21st, 1891.) Later he was clean-shaven. He remained a bachelor, never smoked and seldom drank more than a glass of ale.

He came to Ipswich in 1882 and was in business as a painter and decorator: he naturally gravitated to St. Mary-le-Tower's, soon became its recognised leader, and with the help of the late William L. Catchpole built the Society to a position of eminence. He was of a progressive nature and under his leadership many peals of Grandsire and Stedman Triples, Caters and Cinques, Oxford and Kent Treble Bob, Double Norwich Major, Royal and Maximus, London, Superlative and Cambridge Surprise Major, Cambridge Surprise Royal and—the crowning point—the first two peals of Cambridge Surprise Maximus were scored. These latter undoubtedly opened up a new era in Maximus ringing.

He used to ride an old 'penny-farthing' cycle and he rode it to Debenham, a distance of 14 miles, when he called Day's 16.608 Oxford Treble Bob Major there on Whit Monday, 1892. He used an ordinary cycle later, which he used to push along fairly fast, as I, who have cycled many miles with him, know full well. Besides the long peal mentioned above he conducted six other peals of Double Norwich, Oxford and Kent Treble Bob of over 7,000; he also took part in the 14,112 London Surprise Major at King's Norton in 1903.

Most of his ringing was done with the old Norwich Diocesan Association for which he rang on tower bells 530 peals, of which he conducted the extraordinary number of 417, simply explained by the fact that when he was present nobody else thought of conducting. He also rang on handbells 29 peals, conducting 22: amongst these were two of Double Norwich Major, in 1893, one of Kent Treble Bob Maximus and Holt's Original. He rang peals for other Associations but as he kept no peal book it is hardly possible to get his complete record. His last year of active ringing was 1921, when at St. Mary-le-Tower's he conducted peals of Double Norwich Royal and Maximus, Cambridge Surprise Royal and Maximus and Stedman Cinques, the latter coming into rounds just after midnight in the New Year, and this was his last peal.

He was in poor health all the following year and passed away January 21st, 1923. He was laid to his last rest on a cold wintry day in Ipswich Cemetery, some of his companions

ringing handbells at the graveside. In St. Mary-le-Tower's belfry is a handsome stone memorial, subscribed for by ringers throughout the country, to him and his ringing comrade for many years, William L. Catchpole.

Motts was a member of the Central Council for a number of years but I don't think he really felt at home in that assembly. He was too much the man of action to talk a lot. Such was he who was one of the giants of the Exercise in his day. There are not many who will remember Jimmy Motts to-day, but those who do will retain memories of a great ringer, an outstanding conductor, a kindly friend, and, withal, a quiet and most unassuming man.

IN SOUTH LINCOLNSHIRE

On January 31st, the eve of the disastrous East Coast floods, five keen ringers from Lincoln and neighbouring towers spent a very enjoyable afternoon in visiting seven towers on the borders of Fenland.

The party left Lincoln about 1.15, and the first call was at the five-bell tower of Ashby-de-la-Launde (tenor 7 cwt.). Ringing here was difficult; the fourth bell took the combined efforts of two of the party to raise, and the second showed a strong propensity to slip wheel despite G. P.'s valiant efforts! However, touches of Grandsire and Plain Bob were brought round before going on to North Rauceby. Here we found a grand ring of five (tenor 12 cwt.) hung from the ground floor, which went well and sounded very fine; it was generally agreed that the tenor (a Taylor recast of 1935) 'made' the ring.

Next came a visit to the fine six-bell tower of Sempringham Abbey, which stands alone in a field remote from any houses (an ideal peal ringing tower, we felt!). After various excursions in search of the tower key, the back five (tenor 8 cwt.) were raised and further Grandsire and Plain Bob Doubles sounded out across the fields. These bells sound very fine and the 'go' is excellent despite the fact that the church is disused during the winter months.

A visit to the rather tired looking tower of Horbling followed. Here the fine six (tenor 9 cwt.) are rung from the centre of the church. The walls of the tower appear to lean in one direction and the piers supporting it in another. However, this does not affect the 'go' of the bells, which went so well that the writer was able to turn in the tenor to a well-struck 120 Grandsire while seated in the back row of the choir stalls!

After a good lower, the long-suffering car carried the party on (despite a wrong turning being taken—black mark, navigator!) to the magnificent tower and spire of Helpringham. The five bells here, also rung from the ground floor with a very long draught of rope, go very well, having been rehung by the Croydon Foundry in 1946, but their tone is most peculiar: the melodic interval between the notes of the back three almost defies description! However, we felt that our striking was of quite a good standard!

A mile or two north of Helpringham stands the very fine 10 century tower of Great Hale, which contains a ring of six, tenor 10 cwt. The tone is good, but the 'go' only fair, and a visit from a bell hanger would not come amiss.

Ruskington has a fine massive tower containing a good ring of six (tenor 13 cwt.), hung in a most peculiar cast-iron frame, which appears to be a cross between an 'A' and an 'H.' The six ropes fall in two straight lines and very close together! However, despite all this, ringing on the back five was much enjoyed before the final run back into Lincoln, which was reached at 8.30 p.m. P. N. B.

GUILD of DEVONSHIRE RINGERS

Mid-Devon Branch at Wolborough

The Mid-Devon Branch held its annual meeting at Wolborough, Newton Abbot, on Jan. 31st, when members and friends attended from Exeter, Teignmouth, Newton Abbot, Buckfastleigh, Dartington, Totnes, Plympton and Plympton, etc.

The bells were kept going to various methods during the afternoon, and the service in St. Leonard's Church was conducted by the Rev. N. F. D. Coleridge, assistant priest, who gave a short address as well as acting as organist.

After tea in a nearby cafe, the usual business meeting followed, with Mr. J. E. Lilley in the chair. Three apologies for absence were received, a discussion arising from one of them on the question of the clash of meetings. It was left to the representatives to raise the matter at the next general committee meeting.

The secretary's report, in printed form, was produced and adopted. The treasurer's report was adopted and this showed a decreased balance in hand in the general fund. It was subsequently recommended that treasurer's reports should if possible be in printed form in future.

The following officers were re-elected: Chairman and Ringing Master, Mr. J. E. Lilley; secretary and treasurer, Mr. A. L. Bennett; assistant secretary, Mr. W. J. Harvey; three members to serve on the General Committee, Messrs. E. M. Atkins, C. F. Austin and W. C. Wakley.

Subject to the usual permission being obtained, the next meeting is to be at Cockington and Upton, Torquay, on April 25th. Ringing arrangements for the Coronation were fully discussed, no decision being reached as to what should be done during Coronation week.

The bells of St. Leonard's tower also came up for discussion, it being mentioned that a sum of money was raised some time ago with a view to repairs being carried out.

Hearty votes of thanks were accorded to the Rector of Wolborough, to the Rev. N. F. D. Coleridge, and to the branch officials for their past services. Further ringing took place after the meeting.

BUNBURY CHURCH, CHESHIRE

Bunbury Church, Cheshire, where a peal was rung on January 31st, is one of the most beautiful in Cheshire. Although in a rural area, writes Mr. J. W. Griffiths, it suffered severely owing to the explosion of a land mine during the war. Many of the windows were blown out and the roof was severely damaged and had to be removed in 1941. Happily, work on its restoration is proceeding and a new roof has been put over the nave, but many of the windows are wanting glass.

With the exception of Holy Communion on Sunday mornings, which has been continued in the church throughout, the services are being maintained in the Parish Room.

THE CHURCH BELLS OF LEICESTERSHIRE

By ERNEST MORRIS

THERE are in the Leicester Diocese, which includes the whole county and the villages of Stanford-on-Avon (Warwickshire) and Little Bowden (Northants), 1,320 church bells. All these have now been tabulated, their history and inscriptions transcribed up to the end of 1952. In 1876 the late Thomas North, F.S.A., published his book on Leicestershire bells and at that time there were 994. Although a fine publication, it has many errors, especially as regards the inscriptions and setting of several rings. Mr. North was a cripple, consequently unable to climb up some of the very awkward—and often dangerous—ladders and other approaches to the bells. He was, therefore, forced to rely on incumbents, sextons and others to do this for him, and often their copies of inscriptions were not always correct. Nevertheless, the work is a very fine one. For the last 40 years of his ringing career the present writer has visited the bulk of the churches in the county and verified, rectified and brought up to date all the recastings, augmentations, etc., to the end of 1952. The 1,320 bells may thus be divided:—

1,320

There are also three sets of eight tubes, the ring of ten at Loughborough Bell Foundry, and (horror of horrors!) a gramophone at Christ Church, Mountsorrel.

Owing to the enormous cost of printing, and especially the making of blocks to show the

hundreds of founders' shields, initial crosses, stops, arabesques, etc., to say nothing of styles of lettering, Gothic, Old English, black letter, Roman and so on, it is very doubtful if this great work will be published. The Leicestershire Archaeological Society and others have been approached and, while fully agreeing that this is a valuable and monumental work, it is beyond their means to reproduce in book form. It is of interest to note that Mr. Ernest Morris, in addition to collating this MS., has actually rung in peals of 5,000 changes and over at all the possible towers save two (St. Mary's, Leicester, and the new ring of Wanlip). The impossible towers at present are Stapleford (six hung 'dead'), the eight at Church Langton, and the two five-bell towers of Skeffington and Shawell, where the bells are unringable. Thus out of 137 towers with rings of five and over, Mr. Morris has rung peals in 131.

Besides the church bells history, inscriptions, etc., Mr. Morris has completely rewritten a full history of all the bell founders of Leicester and county from the time of 'Rog-le-Belleyetere' (1307) and 'Stephen-le-Belleyetere' (1328) down to the present John Taylor and Co. Many founders and their works have been traced and noted, and much interesting history has come to light through these researches, which elaborate and add considerably to that published by the late Mr. North.

Will conductors of peals please arrange for their peals to be submitted within a few days of the performance. Delay, which at times exceeds a month, complicates the work of the Peals Analysis Committee. There is serious consideration being given to the question whether a band ringing a peal and claiming it must submit it within a time limit.

OBITUARY

MR. P. A. L. STEVENSON

Mr. Peter Archibald Leonard Stevenson (80), who has died at 1, Frythe Crescent, Cranbrook, Kent, was a native of Burwash, Sussex. He was taught to handle a rope at Salehurst, Sussex, in 1888. Some years elapsed before opportunities arose for him to take up change ringing. He eventually crossed the border into Kent and rang at Hawkhurst in the days when efforts were being made to build up a change ringing party there.

In February, 1914, a local peal of Grandsire Triples was rung. It was a question whether Stevenson or Thomas Ashenden should ring the treble. A coin was tossed and Ashenden won. The ringers were T. Ashenden, F. Chapman, jun., J. H. Durrant, J. Blake, O. Waghorn, A. H. Wellard, G. Billenness, F. Chapman, sen. Six of these have passed on. Of the two survivors, Mr. G. Billenness rings regularly and Mr. T. Ashenden retired from the art some years ago.

Stevenson's chance for peal ringing did not present itself until some years after the first world war. He went to Benenden, Kent, where members of Hawkhurst tower congregated frequently and there made headway. When 58 years of age he rang his first peal, and his last in 1939. In all he rang 46 peals and conducted six. An excellent record for a man starting peal ringing late in life.

Here is his record of peals: Grandsire Doubles 1, Plain Bob Minor 10 (conducted 2), Minor (4 methods) 1, Grandsire Triples 24 (conducted 4), Bob Major 5, Kent Treble Bob Major 5, total 46 (conducted 6).

On November 5th, 1938, he conducted a peal of Grandsire Triples at Salehurst on the 50th anniversary of his start in ringing in 1888. He rang the second, the same bell on which he was taught to handle a rope, and he also rang this bell in his first peal on December 6th, 1930.

Eventually arthritis developed in his system. A man of perseverance, he continued ringing all the time he was able to climb the belfry stairs at Benenden. He belonged to the Kent County Association, the Sussex County Association, Hastings and District Guild and Hawkhurst and District Guild. His ambition was to teach his grandson, Roy Ballard, to handle a rope. His incapacity prevented him doing this, but he had the satisfaction of knowing that his grandson entered ringing under Mr. J. Brown's tuition.

The funeral was at Benenden Church on Feb. 2nd. The Vicar (the Rev. V. B. Yearsley) officiated and played the organ for the hymn. 'Abide with me.' Mourners were Mr. and Mrs. Ballard, Miss D. Stevenson and Miss L. Stevenson (son-in-law and daughters), Mr. R. Ballard (grandson), Mr. and Mrs. F. Maybourne, Mrs. J. Brown and Mrs. Onion. Mr. G. Billenness and Mr. J. Brown represented Hawkhurst and District Guild.

In the evening Benenden's bells were rung half-muffled. The following took part: Messrs. G. Billenness, J. G. Powell, A. H. Kemp, C. Baker, B. Harris, Mrs. J. Hannington and Miss A. Powell (Hawkhurst), Mr. J. Brown (Benenden) and Mr. H. Baker (Frittenden). His old friends from Hawkhurst sent a wreath, as also did Mr. and Mrs. J. Brown. Mr. W. Goringe, who organised the ringing, and Mrs. R. Tappenden were unable to be in the ringing party.

EIGHT WORDS

The following eight words contained in a sermon preached by the Lord Bishop of Cork, Cloyne and Ross before a representative gathering of ringers might well be remembered in all belfries:—

Ears open,
Eyes wide,
Feet steady,
Tongue tied.

MR. CHARLES EDWARDS—MR. HARRY OVERTON

It is rather a coincidence that the obituaries of Mr. Charles Edwards and Mr. Harry Overton appeared in 'The Ringing World' side by side, and it recalled an incident which occurred while Mr. Edwards was 'mine host' at the New Inn, Fownhope.

Mr. Overton had organised a ringers' outing to the Upper Wye Valley, which included a call at the New Inn (for liquid refreshment), Harry having been brought up at Bridgnorth in the Hereford Guild and consequently knew Mr. Edwards quite well.

The motor-coach pulled into the yard of the New Inn, and after sorting ourselves out we made our way to a table, where sat mine host with twelve pints and twelve half-pints of beer ready drawn.

I sat down next to Mr. Edwards while he was waiting for someone to claim and pay for the beer. Finally he said to me, 'Who's going to pay for these?' I said I did not know and asked him who had ordered them. Mine host said, 'Why, you.' I must have looked surprised, as indeed I was, but said, 'I am sorry, it was not me. I do not drink beer when in Herefordshire.' However, intending to pay my 'footing', or is it 'foot in'? I helped him to dispose of the refreshment and thought no more about the incident until some years after, when I was staying at Sale and went one Christmas for a pull at Bowdon, where one of the first to welcome me was Mr. Edwards, who had remembered me, although I am sorry to say I had not remembered him, until he whispered to me, 'You remember those twelve pints and twelve half-pints at the New Inn, Fownhope?'

Incidentally, he was always in my thoughts whenever I passed the ends of Fownhope Road and Fownhope Avenue, close to where I stayed in Sale. W. F. S.
