THE COUNCIL MEETING

THOSE who journeyed to Bristol for the Central Council meeting must have wondered what effect the threatened rail strike was going to have on the attendance; yet in the event almost a record number of members signed the roll. Perhaps it was the glorious weather, or the attraction of a famous city, or maybe the members hastened westward determined to avenge the wrongs which the experts—the dictators—the indefinable ‘they’—had been inflicting on the Exercise for so long. Bob Triples must be legalised, many times over according to the agenda, or it was clear that twenty thousand ringers (from counties other than Cornwall) would want to know why.

An informal gathering had been arranged for an hour before the Standing Committee meeting, of such proposers and seconders of the various motions as were available, in an attempt to agree on a composite version. Success was achieved with a minute to spare, but the revised motion was not without its critics in the Council, mostly on the grounds that it did not go far enough, although one member at least thought it went too far. But after considerable discussion an amendment was carried as a result of which the Council will now recognise all true peals which conform to the conditions laid down four years ago, but amended slightly two years ago and again this year. It follows from this, of course, that such peals will be included in the Analysis. Let it be noted, however, that the Council did not depart from its definition of a ‘regular’ method, which was reaffirmed during the long discussion on the Handbook Sub-Committee’s report.

This re-examination of the Council’s Decisions and Reports, which occupied most of the afternoon, was not exactly light going, and it was as well that the morning had provided some light relief, as when Mr. Harry Miles warned members of the dangers of undertaking seemingly small tasks—his had taken something like seven years to complete. Nevertheless, all were grateful to him and to his

associates for the immense trouble they had taken, and for their help.

Some amusement was also caused by the reference to ‘Passallatessera’ and ‘Passallatria’ methods. It was eventually agreed to regard these survivors of the 1906 Report on Method Classification as Exercise methods, should any be rung. The critic who reproached the sub-committee for not finding other names confessed himself unable to do so, but the fact is that ‘Surprise,’ ‘Delight’ and so forth are accepted because they have come down from ringing’s early days, whereas modern expressions of a like character would sound slightly ridiculous—for example, ‘Marvel,’ tried out some fifty years ago, but soon abandoned.

The meeting had begun with the reading of a message sent to a former secretary on his 90th birthday and a welcome to another respected member, the Rev. F. Ll. Edwards, who had come almost straight from a long spell in hospital. It was followed by a civic reception at the historic Red Lodge, graced by the presence of the Lord Mayor and Lady Mayoress and by the Dean of Bristol. Ice-cream and a handbell course of Stedman Cinques were served up on the lawn, and one young lady at least preferred the former. So to Leicester next year, and perhaps a visit to Ireland in 1958.

NOT FAIT ACCOMPLI

Dear Sir,—In your leading article in the issue of June 10th you refer to a decision taken at Bristol to have a President’s badge of office, and also say that a vice-president is to be appointed. I think it should be made clear that the Committee which was set up is to consider the desirability of recommending the purchase of a badge and the creation of this new office, and that neither should be taken as a fait accompli. If such recommendations are made they will, of course, have to be accepted by the Council before further action can be taken.

Yours faithfully,

E. A. BARNETT.

To mark the 12th centenary
of the martyrdom of St. Boni-
face, a pilgrimage was made
from Exeter Cathedral to the birthplace at
Crediton, headed by the Bishops of Exeter and
Crediton and 300 clergy and laity, which num-
bered 300 by the time Crediton was reached.
A brief halt was made at Newton St. Cyres
Church, which is about halfway along the
route, where the pilgrims were welcomed by
the bells. As they left the church a well-struck
quarter peal of Grandsire Triples was rung in
honour of the saint.

Following upon the decision of the Central
Council a member informs us that he is already
planning a peal of Plain Bob Caters, and also
hopes to ring Grandsire Minor or Major.

Fifty years ago on May 27th Mr. J. Thomas
conducted his first peal of Stedman Caters. The
anniversary was commemorated by Mr. Thomas
calling the same method at Worcester.

The ten bells at the Imperial Institute were
rung for the first time for the Queen's birthday
since being rehung by the Whitechapel Bell
Foundry.

Mr. and Mrs. F. Bowden, of Haslemere,
while on holiday in South Wales with their
daughter, Margaret, helped to complete the
band at St. Mary's Church, Tenby, for the
Whitsun services.

Old Headington ringers, past and present,
recently held a successful dinner at Eastgate
Hotel, Oxford. It is hoped to make this an
annual event. On June 18th they are joining
with Marston ringers in a combined outing,
when several Oxford towers will be visited.

Mr. Frederick Sharpe has informed us that
he made a mistake in replying to Mr. Cecil
Pipe's question on the report of the Towers
and Belfries Committee (page 364). The Sut-
folk tower which received attention was
Lowestoft, and not Ipswich.

BELFRY GOSSIP

The bells of All Saints',
Colchester, now a redundant
church, are to be used in the
proposed new church at Little Horkeley, which
will replace the one which was destroyed by a
parachute mine during the war. Four of these
bells were cast by Miles Graye, the Colchester
bellfounder, and the third by Richard Bowler
(1587). The bells are being reconditioned in
a London foundry.

The Guild of Devonshire ringers in 1954
elected 85 performing members. Three bands,
Brixham, Kentisbeare and Uffculme, joined the
Guild.

St. George's, Camberwell, band, saw the
Thames Valley at its best on June 4th, when
they held their second annual outing. Towers
visited were Marlow, Burnham and Cookham,
where local ringers made them welcome and
also assisted previously in planning the tour.

St. Albans Cathedral has a keen young
team of beginners, average age 15, who are
making good progress in Grandsire, Plain Bob
and Stedman. On June 4th they organised an
afternoon tour, visiting Sandridge, Kimpton and
Redbourn. After a picnic some of the party
cycled to Abbots Langley to attend a ringing
meeting.

Thanks to Mr. G. W. Jeffs, Lincolnshire
ringers from Thurlby, Bourne, Rippingale,
Billingborough, Silk Willoughby and Sleaford
had an enjoyable tour in Northamptonshire on
June 4th. Towers visited were Wilby, Mears

party wish to thank Mr. Jeffs and all tower
captains.

BROADCASTING COMMITTEE'S GOOD WORK — BOOK ON DOUBLES IN PRINTER'S HANDS — WIDENING THE RANGE OF PEAL RINGING. SHOULD RECORD LENGTHS BE TREATED DIFFERENTLY? COUNCIL SAY 'NO'

BROADCASTING AND TELEVISION COMMITTEE

The formation of this new committee at Newcastle was considered necessary to cope with the ever increasing field of sound and vision radio, and as an endeavour to ensure that, eventually, all aspects of ringing introduced on sound and vision programmes should be of a good standard and suitably presented from the ringers' point of view.

Your committee has, during the past year, made considerable effort to become acquainted with the heads of departments in the various regions and has attained some measure of success.

We have been fortunate in enlisting the co-operation of the Publicity Department of the B.B.C. in the person of Mr. F. L. Cobb, the chief of this department. We now have an understanding with him to the effect that all items relating to bell-ringing shall be sent to him from the various regions and particulars passed to 'The Ringing World' for publication. Obviously an arrangement of this sort will take a considerable time to reach perfection, as it involves the complete co-operation of the powers-that-be in the various regions. In this direction the members of your committee have made every endeavour to contact their religious directors and others concerned with the use of the bells in broadcasting and to persuade them to pass the necessary information in good time for publication. In due course we hope that we shall receive sufficient recognition by the B.B.C. to be consulted on all matters in this sphere of broadcasting. This may sound a little Utopian but should, we feel, be our ultimate objective.

In the main our contacts have concerned sound radio; we have, however, achieved some measure of success on the vision side. A suggestion regarding the Interlude on vision has been received from a member of the Salisbury Diocesan Guild, and we have been fortunate in enlisting the good offices of one of the leading vision producers to get this passed to the proper quarter. Should this idea become a fact, we feel sure it will be well received by the ringing fraternity.

We have during the year co-opted the services of the Rev. Gilbert Thurlow.

It is not proposed in this report to go into any great detail with regard to what has been seen and heard on the radio during the year under review. Many rings, from all over the country, have been heard prior to divine service. In the main, the ringing has been of a fair standard. An old sore, of course, is how much uninterrupted ringing there should be. When we have established ourselves a little more firmly with the B.B.C. we hope to do something in this direction. Such items as the Bedfordshire Young Ringers' tour and the long length attempt at Loughborough were well covered on the air. On the vision side, bells, particularly handbells, have been introduced on a number of occasions.

The most important point concerning all broadcasting in which ringers take part is that the highest possible standard of performance should be aimed at. The ringing of good rounds is much to be preferred to poor change ringing. This applies more particularly to country towers where a shortage of competent ringers precludes good change ringing. With the best will in the world, we feel our efforts will be in vain if ringers themselves do not put their house in order, and on this theme we would end our report.

Mr. H. Sanger moved and Mr. F. W. Rogers seconded the adoption of the report.

Mr. H. Miles said when big conferences were held the B.B.C. generally gave a news item. He thought that some arrangement should have been made.

Mr. Brian Threlfall suggested that the B.B.C. should be invited to broadcast a ringers' meeting.

Mr. Sanger replied that the B.B.C. were not easy people to deal with and while they might suggest things it was not easy to get them through.

Mr. F. W. Rogers said that as to the B.B.C. reporting their activities at Eastbourne, some ringing at the Council meeting was recorded in the news the same evening.

Mr. F. Skidmore: The B.B.C. were informed of this meeting and said they would do what they could but they did not do anything.

Mr. C. Pope: I think the B.B.C. are more interested in the religious service than the bells. If an approach was made through the incumbent perhaps a little more time for the bells might be arranged.

Mr. F. W. Goodfellow said until recently the B.B.C. had a feature of the bells on Christmas Day and Easter Day. Could they inquire why it was dropped?

Mr. T. J. Lock said in regard to television it was pointed out to him that because of the apparatus required, ringing should be from the ground floor.

The report was adopted.

LITERATURE AND PRESS COMMITTEE

The report of this committee appeared on page 350.

Mr. E. Shepherd moved the adoption of the report and said the committee was very self-conscious of its defects. In the past, under the direction of the Rev. F. Ll. Edwards, the reports were prepared with great care and scholarship. He thanked ringers who had forwarded papers and articles.

Mr. F. E. Dukes seconded the adoption.

The Rev. F. Ll. Edwards thought the committee had produced an admirable report.

PEALS ANALYSIS COMMITTEE

The year 1954 showed a steady decline in the number of peals rung, particularly in the realm of handbell ringing. The grand total was 2,406, made up of 2,283 on tower bells and 123 on handbells. The former were split up as follows: Maximus 34, Cinques 33, Royal 104, Caters 83, Major 923, Triples 266, Minor 621 and Doubles 219. It will be noted that the last two make up 34.9 per cent of the total. (Good for you, the countrymen!)

This total includes one peal of Plain Bob Cinques by the Norwich Association, one of Plain Bob Caters by the Suffolk Guild and one of Plain Bob Triples each by the Essex Association, Oxford Diocesan Guild, Suffolk Guild and the Truro Guild. One peal of Grandsire Doubles, by the Derbyshire Association, was not acceptable as 60 changes were added.

Outstanding performances. Peals worthy of special mention are:

A peal in 45 methods of Doubles in which the conductor rang two 'inside' bells, for the Middlesex Association.

Original Triples by the Winchester Guild.

Peals of Spliced Triples in 11, 10 and six methods by the Worcester and Districts.

Thirty-two Spliced Surprise Major by the Lincoln Guild.

Peals in 36, 42 and 48 Spliced Surprise Major methods by the Yorkshire Association.

Handbell peals. These are made up as follows:

Cinques 1, Royal 5, Caters 5, Major 45, Triples 10, Minor 36 and Doubles 21. The outstanding performance was a peal of Cambridge Surprise Major by the Leicester Guild.

We deplore the fading away of this branch of our art and fully recommend its fascination to the younger exponents of tower bells.

It is our sincere wish that a permanent decision may be reached regarding the inclusion of peals of Plain Bob on the odd numbers.

Heading the peals totals was the Leicester Guild with 197 peals (10 on handbells) followed by the Kent County with 146, third was the Suffolk Guild (127) and the Essex Association fourth (123). The Cleveland and North Yorkshire Association and the Ladies' Guild both failed to produce a peal this year.

Mr. W. Ayre moved and Mr. H. Miles seconded the adoption of the report and this was carried.

METHODS COMMITTEE

The Methods Committee has had a quiet year. Having completed the book of Doubles Methods, it has turned its attention to the revision of the Minor and Triples Methods books, as requested by the Council last year. The former, being a very popular publication, it was decided to reprint the last edition with only few alterations and then to produce a completely new work over the next few years. The revision of the Triples Methods book has commenced and we hope to have it in print for next year's Council. Its contents will depend to some extent on the decisions of the Council about such methods at this session. We would like to express our appreciation at the help given to us by Mr. Segar.

The Rev. K. W. H. Felstead in moving the adoption of the report said there was not very much to say for once.

Mr. F. W. Rogers seconded.

Mr. W. E. Critchley asked about the Doubles book.

Mr. Sharpe replied that it went to the printers six weeks ago and the printer hoped to have the proof ready in a fortnight or three weeks' time.

The report was adopted.

REPORT OF THE PEALS COLLECTION COMMITTEE

The Committee has not proceeded further with the proposed collection of compositions for Stedman Caters and Cinques. At the last Council meeting it was decided to await publication of the revised edition of 'Stedman' in the J. W. Snowdon series and reconsider the need for such a collection.

Mr. C. W. Woolley moved the adoption of the report and said he had a strong letter from Mr. C. W. Roberts who disagreed with the report.

Mr. W. E. Critchley seconded.

The President: How is the revised book on Stedman Caters going?

Mr. E. C. S. Turner: It is anticipated that the new edition of Stedman will be finished by about the end of this year.

The report was adopted.

ALTERATION OF RULES

Mr. E. A. Barnett moved an alteration of rules as follows: To amend Rule 4, Section (ii), by inserting the words 'Non-Territorial' between 'the' and 'Societies.' The section to read: 'The representation of the Non-Territorial Societies now affiliated to the Council shall be as specified in the schedule of these Rules unless modified in application to and by permission of the Council.'

Mr. F. I. Hairs seconded and this was agreed to.

BOB TRIPLES, CATERS AND CINQUES

The president said that a number of motions before the Council had the same object in view. A meeting of proposers and seconders of these motions was held previous to the Standing Committee meeting to see if agreement could be reached on motions (a), (b), (c), (d), (e), (f) and (g). He was thankful to say that they had agreed to the following:—

'That this Council while not encouraging the ringing of peals which are not in accordance with its decisions resolves to recognise all true peals rung in conformity with the conditions required for peals laid down in 1951 (see "The Ringing World," page 187, in the issue of March 25th, 1955) as subsequently amended, except that the Council is not prepared to recognise any peals rung to surpass a previous peal in length, number of methods or in any way which does not comply with its rules and decisions.'

This motion was considered by members during the luncheon interval and upon resuming the president asked Mr. C. K. Lewis to speak first.

Mr. Lewis said he became very concerned over this matter some time ago and he had come to the conclusion that they should be wrong from an historical point of view—and a member had suggested from a moral point of view—if they commended these irregular methods. 'Some people may have felt I have shifted my views. I have not. What I want is consistency for all decisions.'

'I still hold the view the Council's decisions are a very desirable aim, but if people wish and desire to ring something that does not conform we shall be wrong from the historian's point of view in abolishing them. Irregular peals would be lost completely and in 50 years' time someone might come along and there would be no record. If Annable had his way peals with singles would be out. He did not like them. There was a danger that we should be losing something. I am anxious that nothing shall be lost, either regular or irregular, and the main point is that we should not dismiss anything because it is not in accord with our own ideas. Let us leave it to history to say if we are right. I have much pleasure in proposing this resolution.'

Mr. E. A. Barnett, in seconding, said it was the intention if the motion was passed that peals rung in 1953 which were deferred at last year's meeting would automatically be allowed.

The Rev. F. L. Edwards said he had rung a fair amount of Plain Bob but probably on even numbers. He had the pleasure in taking part in the first peal of Bob Royal which was ever recorded for the Ancient Society of College Youths and that was rung on the Shrove Tuesday of Queen Victoria's Diamond Jubilee. He only attempted one peal of Bob Triples and that was not successful. On the five bells in his

village church they rang Bob Minimus with the tenor behind because they were not capable of ringing any more. He knew many members of the Exercise enjoyed ringing Bob Triples, Bob Caters and Bob Cinques and found it a useful way of bringing on young ringers. He thought the Central Council should recognise any peal. The first peal ever rung was Bob Triples and the motion if passed would cover Bob Triples.

Mr. E. C. S. Turner: The amended resolution does not cover all I desired but I am content to let it stand.

Mr. C. W. Woolley said it was the first time he had come to a Council meeting with a decided opinion from his own constituents as to what they wanted. He felt the Council should not discourage anything. He had a ring of eight with 30 cwt. tenor and a young band. They were advised to ring Plain Bob and did so very successfully with the tenor behind. A band like that wanted encouraging. These extra words in the amended resolution were, he presumed, for long length peals. Personally he was all for them being recognised as peals.

Mr. W. F. Moreton said there were two points he would like to make. The first was that the resolution would allow all Minor methods—regular and irregular—to be included in the resolution. Secondly, there had recently been a lot of criticism of the Methods Committee and one of the things was Bob Triples. He would like to ask if the Methods Committee had ever said anything about Bob Triples.

The Rev. K. W. H. Felstead: Bob Triples has never been referred to the Methods Committee and we have never passed any judgment about it.

Mr. P. A. Corby said they did aim the previous night on a wording that would meet the case generally and suit all parties—the wording was perhaps a little less strong than suggested by Mr. Poole and himself. It was a fact that they should not lose sight of, that there had been strong expressions from the Exercise as to certain methods. The Council as a body was accused of saying that certain methods should or should not be rung and the rank and file of the Exercise did not like that and in some quarters they had been vocal in saying so. The purpose of the resolution was to realise the function of the Council in regard to the advice it should or should not give. In other words how far should the Council go? In the past the Council had got itself in difficult situations in seeking to find legitimate answers to many problems and there had been a tendency to draw the attention of the Exercise to some to the exclusion of others. In the past there had been an under emphasis on the word 'surprise' and more latterly there had been an over emphasis on 'extension.'

'Go far as Bob Triples is concerned Mr. Poole and I made an attempt to test the feeling of the Exercise with regard to the resolutions coming before the Council today. I may say that with the exception of two members of the Council every reply was in favour of both resolutions. We had 120 replies and that shows that the Exercise generally is in sympathy with what we are trying to do today.'

Mr. H. J. Poole said it would be obvious to the members of the Council the confidence Mr. Corby had gained since he left Kent and went into Leicestershire. 'I have agreed to the substituted motion and I think what we should be more concerned about than Bob Triples is the Exercise's reaction to what the Council has done in recent years. It is quite obvious from all quarters that there is a strong feeling that the Council has gone beyond its intention or authority and it is very necessary we should bear in mind that we want and need the support of all the Exercise. We want not merely the support of members coming to this meeting but every ringer of the country and the only way

CENTRAL COUNCIL—Cont.

to get that support was to be reasonable. I feel in the past that between the technicians (I have the highest possible regard for those people who have gone into method construction) and the practical ringers there was a gap which it was difficult to bridge. What we must however be concerned about is the Sunday service ringers. Whatever our views may be about peal ringing—and I am a keen peal ringer—we ought to bear in mind the Sunday service ringer. Up to now we have said, "You should not ring Bob Triples in peals." We have many who say, "If it is good enough to be rung for Sunday service it is good enough to be rung to peals," and this is having its reaction. We should listen to these people."

Mr. Norman Chaddock moved as an amendment that the words beyond all true peals be deleted.

Mr. J. T. Dunwoody seconded.

Mr. C. K. Lewis in reply to the amendment said those who were a lot older than he would remember they used to ring Woodbine Treble Bob and with bobs call it Merchant's Return, thus claiming two methods. If they were going to ring record lengths conditions should be more stringent than for ordinary gain.

Mr. N. Chaddock said the same fallacy would occur in an ordinary peal.

Mr. Lewis: You must protect people going for records by protecting them from spurious records. If you want to make a record in any direction you observe very strongly all the rules. Records require more stringent rules.

Mr. John Freeman opposed the amendment. He agreed that rules and decisions wanted to be considered from time to time and revised, but there was one proviso—some benefit should be gained. In his opinion nothing would be gained. He had never agreed that Bob Triples was a good start for the beginner. Having come from a tower brought up on Grandsire and Stedman it was not surprising. He did not think Mr. Corby's Gallup poll could be taken as an expression of opinion. Mr. Poole pleaded the case of the blue line written three years ago; he expressed the opinion that if they followed the blue line they would get nowhere. If they supported the amendment they would be opening the door for everything they thought right or wrong to be swept away because they got a spate of letters in 'The Ringing World.'

Mr. W. E. Critchley felt that by the resolution they would get the confidence and goodwill of many.

The Rev. J. G. M. Scott said in the matter of the last wording of the motion they would have to draw a distinction between peal records in length and records in the number of methods. Mr. Lewis had said one could call a bob in a method and call the result another method, like calling a bob in Cambridge and calling it Timbuctoo. If they chose to ring 105 methods and called a bob in each method they would get 210. Without some distinction in methods there would be a lot of dissatisfaction.

Mr. C. W. Woolley: Surely the Council will retain the right to say whether Cambridge with a bob is Timbuctoo?

Mr. E. A. Barnett: If we do that we shall be held as dictators.

Mr. E. C. S. Turner: Would it not be better to have a type of record for regular methods and another for irregular?

The Rev. K. W. H. Felstead: I think we must be very careful about this. There ought to be some distinction between record peals and ordinary peals.

Dr. Hatcher: Surely we should specify conditions about record peals.

Mr. C. W. Pipe: Can we clear up Plain Bob on all numbers?

The President: This motion covers Plain Bob on all numbers. It also covers irregular methods.

Mr. H. Miles: The whole of the controversy has arisen because of the reference back of the Peals Analyses Committee. I should like to hear the views of the convener of the Peals Analyses Committee.

Mr. Walter Ayre: The convener of the Peals Analyses Committee has nothing to say.

Mr. Miles: As a member of the Peals Analyses Committee I don't agree. At the last meeting I said that most of the Associations agreed to abide loyally by the rules and decisions of the Central Council and that was what we (the Committee) tried to do. We have tried to draw up the analyses under the rules and decisions of the Council. I contend if there is any rule that is not wanted all that is needed is to bring up a resolution to rescind the rule. All the time these rules and decisions appear on our books we must abide by them. We have heard a lot about dictatorial methods and who are the Central Council. The affiliated Associations are the Central Council. I think there is a lot of tosh being talked this afternoon.

Mr. A. E. Lock: I think it was said in 1905 that Bob Triples should not be practised because it is not worthy of being retained. That does not lay down a hard and fast rule. We on the Committee of the Oxford Diocesan Guild were almost unanimous that that resolution should be dropped.

Mr. A. D. Barker: There were 29 who voted for that and I voted against it.

Mr. N. Chaddock: The reason we should leave out the latter part of the resolution.

The amendment, which reads: 'That this Council will recognise all true peals rung in conformity with the conditions laid down for peals in 1951, as subsequently amended,' was put to the meeting and carried by a very large majority.

(To be continued)

A NEW BELL AT ST. MARTIN'S, BIRMINGHAM

The new bell in the tower at St. Martin's Church, Birmingham, has been in position for some time, but it has been the wish of the Rector that it should not be rung until complete success had been achieved in the £100,000 appeal for church restoration and extension. The amount asked for has now been fully subscribed, and on Thursday, June 2nd, the bell was rung for the first time.

The service of dedication was held in the ringing chamber, and was conducted by the Rector, Canon Bryan Green, assisted by the senior curate, the Rev. G. C. Potts. In the course of the service prayers were offered for ringers and their work, and the Rector expressed his appreciation of the ceaseless labours of his ringers as office bearers in the church.

The Master of St. Martin's Guild, Mr. Albert Walker, thanked the Rector for his constant interest in the belfry, after which Canon Green rang the new bell. A bob course of Stedman Triples and a course of Cambridge Major were then rung on the new eight.

The bell, which is in B flat, weighs 8 cwt., and bears the inscription: 'I was first rung on the completion of the appeal for £100,000 for the restoration of St. Martin's Church.' It adds a flat sixth to the existing twelve, and gives a fine octave in F with a tenor of about 14 cwt. It is expected to provide a useful light eight, both for general purposes and for the training of beginners.

The Master has pointed out that on Tuesday nights at 6.30 there is a special practice for beginners in various stages, and it is hoped that more aspirants will take advantage of this opportunity to benefit by the help and advice of more experienced practitioners. A. W.

ANCIENT SOCIETY OF COLLEGE YOUTHS**Spring Meeting at Bristol**

On May 7th a party of College Youths under the leadership of their Master (Mr. C. J. Watts) and accompanied by their secretary (Mr. A. B. Peck) and other officers travelled from London to Bristol, where, by invitation of the members in that city, the Society's spring meeting was to be held.

Mr. Albert Tyler and other country members met the party at Temple Meads Station and quickly rushed them off to St. Stephen's, the first tower of the day. En route the leaning tower of Temple Church was pointed out and regret was expressed that time did not allow any ringing there. (It was found later that the bells had been taken out.) St. Stephen's are a pleasant ten, and their merry tune was soon sounding out over the city.

By the time everyone had had a ring it was time for lunch, which was served at headquarters for the day, the Grosvenor Hotel, and where a room had been set aside for the Society's use. In the afternoon ringing took place at St. Mary Redcliffe, but unfortunately this was not up to the Society's usual high standard and consequently this glorious twelve was not heard at its best. Moving on to St. Thomas' the Society found that London did not have a monopoly of bad-going bells.

A company of more than 60 sat down to tea, which was followed by a short business meeting. Mr. C. R. Harding, on behalf of the Gloucester and Bristol Diocesan Association, gave the Society a warm welcome to Bristol to which the Master replied suitably. The Master then addressed the members saying how glad he was that the meeting had been so well attended by members from as far away as Cheshire and Cornwall. He remarked that this was a sure sign that the members of the Society throughout the country, and in particular those in the West of England, realised that while the day to day business of the Society must necessarily be carried on by the London members, those in the country had just as important a place in the Society and were always welcome to take part in the Society's ringing and deliberations whenever they were in London. He urged them to use their endeavours to further the well-being of the Society, bearing in mind its proud history extending over 300 years, and to make the future a worthy successor of the past. He also tendered the Society's sincere thanks to Mr. Albert Tyler for the able way in which he had organised the day's programme, which had gone without a hitch.

A social hour then followed, during which old friendships were renewed and new ones made, and all too soon it was time for the members to leave for home after what all declared had been a very successful and enjoyable day.

SALISBURY DIOCESAN GUILD Annual Meeting at Marlborough

The festival and annual general meeting was held at Marlborough on May 21st. Fourteen towers were open for ringing, which started just after midday.

The annual meeting was held in the Town Hall before a good gathering, the Master, the Rev. Canon C. Cox, presiding, supported by Mr. W. C. West (hon. secretary and treasurer) and Mr. F. Slatford (assistant hon. secretary).

In his report the hon. secretary stated that membership remained static at 1,030 ringing, 15 honorary and 11 associates, life members being 12, elected during the year. Some Branches had increased membership and two Branches had decreased slightly. Peals numbered 18, the lowest for many years, and included one of Cambridge Maximus (first for the Guild).

Apologies were received from the Earl of Shaftesbury, the Rev. F. L. Edwards, Mrs. Hibberd, Messrs. J. I. Davis, F. Precey and R. H. Duke.

Election of officers:— President, Lord Shaftesbury; Master, Rev. Canon Carew Cox; hon. secretary and treasurer, Mr. W. C. West; hon. assistant secretary, Mr. F. Slatford; hon. auditors, Messrs. J. S. Weeks and C. F. Andrews. Thanks were expressed to the above for the work of the past year.

The Guild office and service were held in St. Mary's Church conducted by the Rector, the Rev. F. B. R. Brown, R.D., assisted by Canon Cox, the Ven. C. A. Plaxton, Canon White and the Rev. J. S. Arthur. The Rector gave the address, and the Archdeacon of Wiltshire the Blessing. A band of ringers from Lyme Regis rang a course of Grandsire Caters during the service.

Tea was served in the Town Hall, to which 140 sat down, the company being welcomed by the Deputy Mayor, Mr. A. J. Free, on behalf of the town of Marlborough.

Hearty thanks were expressed to all concerned in the arrangements and the members dispersed to the various towers available for ringing both in and outside the Branch area.

OUTING HUTTON, ESSEX

After an enjoyable ring on Kelvedon's pleasant bells, our coach sped on its way to and through South Suffolk.

Our Guild was revisiting this fair county and, as before, in 1952 and 1954, we were cordially welcomed, enjoying the mellow rings at St. Gregory's, Sudbury, and Rougham. Two hours flew by at Bury St. Edmunds—lunch first and then to the Abbey Gardens, the Cathedral Church of St. James and the massive pile of St. Mary's.

Another couple of happy hours were spent at Cambridge, sampling the punts on the river of viewing the Backs, St. John's Gateway and the wonderful Chapel of King's before proceeding to Thaxted, back in Essex.

Here, for an hour, we admired the many gaily-attired teams of Morris dancers performing with skill before a large audience in front of the ancient Guildhall. Then we revelled in our last touches of the day on the musical ring at St. John's.

The following Saturday, May 28th, saw us again on a tower-grabbing expedition—travelling poor man's fashion this time—on bicycles. Fobbing and Stanford-le-Hope, with their merry tuneful rings, were our main objectives, and a call in and a joyful pull on Ingrave's bells on our way home.

'Thank you,' we sincerely say to all incumbents and friends who welcomed us to their towers.

ONE OF THE PARTY.

A SUSSEX VILLAGE & ITS AUGMENTATION

The story of the rehousing and augmenting of Wadhurst bells can truly be said to be different from the ordinary rehousing job, for although some £1,300 was raised by public subscription, not once were the parishioners asked to give to the bells.

After the repairs of 1938, it was obvious that the old timber frame was near the end of its useful life; it was installed in 1760 and strengthened in 1891, and had got so loose that further repairs would be waste of money.

With the end of hostilities in 1945 the tower captain tried to get the Parochial Church Council interested, but each time the matter was brought up, something else had prior claim, viz., extensive repairs to the church roof, elimination of damp in the north aisle, a new chapel in the south aisle and converting a disused school building as a church in another section of the parish.

In 1952, when everything seemed set fair, the death-watch beetle made itself known and another £2,000 had to be raised. But the beetle proved to be a friend in disguise, for it was decided that all the timber in the church should be examined and the beetle was found to be working in the beams supporting the bell frame.

In 1953 Mr. F. E. Collins was asked to report on the state of the beams and bell frame, and later on it was decided that estimates should be invited, based on Mr. Collins' recommendations. At the end of October, 1953, the three founders presented their estimates, and a Parochial Church Council meeting was called. It seemed obvious that the only wise thing would be to accept one of them, but a section of the Council thought that as the famous 'Whiligh' oak grew in the parish, another timber frame should be installed. Lord Courthope was at the meeting and said that he doubted if enough good seasoned oak could be found on the whole of the estate.

A faculty for a new steel frame, etc., was applied for, but the timber devotees protested to the Chancellor, and he said that an independent consultant architect should be called in to report on the matter. It speaks well for Mr. Collins that on reading this architect's report it seemed to be the whole of Mr. Collins' report, worded differently, the facts and the recommendations being exactly the same. On the receipt of this evidence the faculty was granted in June, 1954, and the bells removed in August.

NOTTS RINGERS' WEDDING

On June 4th, at Cotgrave Church, Notts, the wedding took place of Mr. Allan Simpson and Miss Joan E. Hoodless. The ceremony was conducted by the chairman of the Southwell Diocesan Guild, Canon R. F. Wilkinson, assisted by the Rector of Cotgrave, the Rev. A. H. Wakefield. The bride was given away by her father, Mr. Arthur E. Hoodless, and Mr. Brian Buswell was best man.

It is noteworthy that the officiating clergyman, bride, bridegroom, bride's father and best man are practising ringers, as are also the bride's grandfather and uncle.

The bridal pair were duly rung 'in' and 'out,' and on leaving the churchyard had to pass under a canopy of ten handbells charged with confetti, which was liberally bestowed.

At the reception the numerous guests enjoyed a most bountiful repast. A musical touch of Grandsire Triples on the handbells by the bride, bridegroom, best man and C. Glenn evoked loud applause. In the afternoon a peal was rung at Daybrook by fellow-ringers in commemoration of the happy event.

The newly-married couple are taking up residence in Nottingham. Since ringing their first peal in August, 1952, their 22 peals have all been rung together, and this they hope to continue.

In the meantime the public heard the one and only appeal for the bells and that was that someone should give two new trebles to complete the octave, but no one seemed interested. Just as the bells came back in December, a legacy of £100 was left to the Vicar and wardens, who decided to use this for a new bell, and on the day that the last of the six bells was installed in the eight-bell frame, an anonymous person offered to give the other bell.

The six bells, in their new frame and fittings, were dedicated on December 19th, 1954, when everyone voiced their appreciation of the 'go' of the bells. The old treble, having been recast, sounded a little prominent, but as the new frame is lower in the tower and the bottom half of the louvres has been bricked up, the bells sound very pleasant outside.

On Saturday, May 28th, a large congregation of parishioners and ringers gathered for the dedication of the two new trebles by the Vicar of Wadhurst (Rev. A. N. H. Roscamp). An interesting address was given by the new Rector of Rotherfield (the Rev. R. F. K. Hare). The opening rounds were rung by C. A. Bassett 1, L. W. Giles 2, J. Newick 3, Mrs. E. Bassett 4, Ann Bassett 5, J. Bishop 6, D. Neal 7, C. Pilbeam 8.

After the service there was a meeting of the East Grinstead Guild, when some 50 ringers tried out the new octave. The company were entertained to tea by the Church Council, after which the Vicar presided over the business in a manner reminiscent of the late Guild president. The Vicar was left in no doubt that Wadhurst now has a very fine octave, mechanically perfect and quite good tone, and with a band of 18 ringers in various stages of proficiency, the future looks very bright. It was regretted that the Sussex County Association were unable to be represented owing to a meeting that could not be altered.

The work, which was ably carried out by Messrs. John Taylor and Co., was as follows: Two new trebles, the old treble recast, the back five retuned and were actually the only old work to go back into the tower, everything else, down to the smallest nut and bolt, being new. The weights of the two new bells are about 4½ cwt. and 4¼ cwt., the rest as follows: No. 3, 5 cwt. 7 lb.; No. 4, 5 cwt. 2 qr. 13 lb.; No. 5, 6 cwt. 15 lb.; No. 6, 8 cwt. 1 qr. 8 lb.; No. 7, 11 cwt. 11 lb.; tenor 12 cwt. 1 qr. 15 lb. in F sharp.

A HORRIFYING SIGHT

A party of ringers visiting Peterborough for the Diocesan Guild's annual meeting were impelled out of curiosity and for archaeological reasons to pause and look into the church at Orton Waterville (three miles from Peterborough and in the county of Hunts), where a feeling was that there existed three bells. They found four—treble by Thomas Norris, 1670; 2nd by Joseph Eayre, 1754; 3rd by Tobie Norris, sen., 1606; and tenor of approximately 6½ cwt. by Joseph Eayre, 1755. All were on badly worm-eaten headstocks.

The frame for five bells would be capable of restoration after renewal of certain portions. A carpet of rubbish lay under the bells; the wheels were all broken and only one rope was any good. On the floor of the tower there was at least three-quarters of a ton of coke where chimers have to stand amid walls black with filth and a ladder in the middle of the belfry.

Curiosity also took the same party to Yarwell, where a ring was given on the four light bells, tenor 5 cwt. 4 lb., treble 2 cwt. 1 qr. 12 lb. Thornhaugh and Nassington were visited in addition. At Nassington they had a rope break; fortunately the Rector was present at the time.

LETTERS

HALF-MUFFLED RINGING

Dear Sir.—With reference to W. J. Paice's letter in 'The Ringing World' of May 27th, I sincerely hope the day will never dawn when muffled and half-muffled ringing is just a memory. To ring the bells open at funerals is about the most disgusting thing I have ever heard. I wonder what sort of service those clergy who uphold open ringing at funerals conduct in Lent, Holy Week and Good Friday?

Contempt is the only feeling we can have for the Rector who refused permission for an attempted muffled peal at the time of the death of H.M. King George VI.

Bells should always be rung muffled at every sad occasion and period connected with the Church, e.g., Lent, Palm Sunday, Remembrance Sunday, etc.—Yours truly,

PETER J. ROBERTS.

Barry, Glam.

WITHIN THE WALLS

By gad, Sir!

Shades of John Stow! Who has moved the Parish Church of St. Botolph without Bishopsgate 'in a fair churchyard, adjoining to the town ditch, upon the very bank thereof' so that it has become 'St. Botolph within the walls, Bishopsgate' (R.W., 3/6/66, page 343)?

Verily 'a fable, foolishly stowed together.' Yours sincerely,
Harborne. W. E. BOX.

A FALSE COMPOSITION OF YORKSHIRE

Dear Sir,—In answer to Mr. Brian G. Warwick's letter regarding a false composition of Yorkshire, I should like to point out that as the conductor of the peal at Writtle on November 21st, 1953, I myself withdrew the peal about two months afterwards through the columns of 'The Ringing World.' If Mr. Warwick would care to peruse the journals for February and/or March, 1954, he will find confirmation.

I had already notified the secretary of the Essex Association, but apparently it arrived too late to avert publication in the 1953 annual report, as the prototype had already been sent to the printers.

I deeply regret this had to occur again to Mr. Golden's composition (which runs true to Superlative), but I am entirely to blame and not Mr. Golden, because he sent it to me as a 5,088 Superlative. I hope Mr. Warwick will accept my apologies for 'leading him (unwittingly perhaps) up the garden path.'—Yours sincerely,

Chelmsford.

PERCY GREEN.

LEEDS AND DISTRICT SOCIETY

Some twenty members and friends attended the monthly meeting at Batley on May 28th. During the afternoon and evening methods from Bob Minor to Double Norwich were rung. A broken treble rope brought ringing to a stop during the last lead of a touch of Kent prior to tea. The refixing of this rope gave rise to considerable ingenuity on the part of certain members afterwards!

At a short business meeting held in the tower a list of proposed meetings for the next two years was approved. Votes of thanks were passed to the Vicar and churchwardens, to the local company (especially to the young ladies who had served cups of tea), and to those members who had helped to get the treble rope back to its rightful place.

It is hoped that the next meeting will be a joint one with the Yorkshire District of the Ladies' Guild at Braham.

NORTH STAFFS ASSOCIATION

Presentation to Mr. W. Carnwell

The May meeting of the North Staffs Association was held in Leek, where the ten bells were rung to a variety of methods in the afternoon and later in the evening. The service was taken by the Vicar (the Rev. J. Youell).

At the business of the meeting, which followed tea at the Swan Hotel, one new member was elected. The meeting also unanimously endorsed a recommendation of the committee that a collection should be taken at the services which are held at the monthly meetings.

After the formal business was completed the chairman, on behalf of the Association, presented a table lamp to Mr. W. Carnwell in appreciation of his eight years of service as secretary, from which office he had resigned at the annual meeting in December, 1954.

His membership of the Association began 35 years ago and he had succeeded his father, 66 years a ringer, as Ringing Master at Kingsley. He had rung 110 peals, the majority of which had been for the North Staffs Association, and had taken part in the first peal of Staffordshire Surprise Major and in the first peal of Bristol Surprise Major for the Association by a resident band. He was known to all the towers in the district and was held in high regard and affection by the Association members. It was a pleasure to know that his retirement from office, accepted with much regret, would not diminish his enthusiasm for ringing or his active membership of the Association. The Association extended its best wishes and thanks to Mr. Carnwell's wife and daughter for the support they had given him.

A further presentation of a cigarette lighter was made to Mr. W. Edwards, of Kingsley, who had been assistant secretary to Mr. Carnwell throughout his term of office. E. H. E.

500 PEALS RUNG BY MR. L. STILWELL

Congratulations to Mr. L. Stilwell, of Horsham, on ringing his 500th peal. His first peal was rung at Pulborough on October 6th, 1904, and his 500th at Marshfield, Gloucestershire, on June 1st, 1955. Details are appended:—

SOCIETY OF

ROYAL CUMBERLAND YOUTHS

Quarterly Meeting at Meopham

Attendance at the quarterly meeting of the Society, held on a beautiful summer afternoon at Meopham, Kent, suffered severely on account of the rail strike, and only a very small number of members and friends (all of whom had travelled quite long distances to be present) enjoyed ringing in various methods on the good light octave at St. John's during the afternoon. The Vicar (Canon V. S. Nicholls) conducted a most enjoyable service in church, and in the course of a brief but interesting address welcomed the Society to Meopham and regretted that transport difficulties had precluded a larger attendance.

A short business meeting followed tea in the Cricketers Inn, with the Master (Mr. T. H. Francis) in the chair. The belfry elections of Messrs. R. H. R. Parker and J. R. Cooper and Miss M. Parker were ratified, and the following new members elected: Messrs. P. F. Romney (Keymer), T. K. and K. W. Price (Bristol) and H. A. Nobes (Alverstoke). The secretary reminded members of the annual dinner, to be held at the Old Bell, Holborn, on Saturday, October 1st, and announced that the next quarterly meeting would be held at Dunstable and Totternhoe on Saturday, September 10th. The support of members was asked for.

The Master asked all present to stand in silence as a token of respect to the memory of Mrs. C. J. Matthews, and reminded members of the great loss which the Society had suffered.

A very hearty vote of thanks was passed to Canon V. S. Nicholls for the use of the bells and for conducting the service, to the organist and to Canon Earle (Vicar of Wrotham) for the use of the bells there.

KENT COUNTY ASSOCIATION

Rochester District

At the quarterly meeting held at Frindsbury on May 21st approximately 50 members and friends attended. The service was conducted by the Vicar (the Rev. C. Prentice), who also took the chair at the meeting. Tea, which was provided by the local ringers, was taken in the Parish Hall. Five new members were elected at the business meeting, and a 'get well quick' card was signed by all members and sent to one of the local band, Mr. 'Gus' Hewitt, who is in Dartford Hospital.

After the meeting handbells were rung before a return was made to the belfry for more rigging. The customary methods were rung but unfortunately were not up to the usual standard of striking.

OUTING

ST. MARY'S, HENDON

Friends from St. Andrew's, Kingsbury, St. Mary's, Finchley, and four visitors from the United States were included in the party of 32 when St. Mary's, Hendon, had a very enjoyable outing to the Sandy area of Bedfordshire on May 21st. The only disappointment was that 'Pop' (80-year-old Mr. E. E. Prattchett) was prevented from attending through indisposition.

The friendly welcome received will not be forgotten, nor the magnificent tea provided by the Vicar of Potton and his lady helpers. Thanks are also extended to the Vicar of St. Leonard's, Old Warden, and Mr. Webb, the Rector of St. Peter's, Tempsford, and Miss Joan Harding and Miss Joan Ashton, of Sandy.

Miss Ruth Foreman, Hendon's Ringing Master, carried out the duties of master of ceremonies in a charming way.

OBITUARY

MR. FRANK L. FISHER

An Appreciation

On the passing of Frank Fisher we here in East Suffolk have lost a ringer of no mean ability. Although seldom did he get any practice, he could always be relied on as a sure ringer and an excellent striker on all numbers.

In latter years he took to handbells, which he soon mastered, as also Holt's Original. This he called from all tower bells and all except 7-8 'in hand.' Some two years ago I asked him to stand in an attempt for Cambridge Surprise Major (silent). His cheery answer was: 'I will if you call the Original.' I admit that here I had to let him down. Over a period of 30-odd years whatever the weather or distance, Frank would always be there for a peal.

When I packed away the muffles after his funeral I could not but wonder who would take his place. His pride in the bells and the work he put into those bells that he loved could not be surpassed. His kind, quiet and genial disposition will always be remembered.

L. G. BRETT.

MR. W. H. PASMORE

By the passing on May 15th in his 79th year of Mr. William H. Pasmore, the Ancient Society of College Youths has lost one of its stalwarts. He was a Past Master of the Society, and for several years held the honoured office of trustee. He was a member of the St. Paul's Cathedral Guild and also of the Westminster Abbey band, and up to within a few months of his death rang regularly at both places.

Learning to ring at Southwark Cathedral, he made quick progress, and joined the Ancient Society in 1895, the Waterloo Society and St. Margaret's Society in 1896, and the famous St. Stephen's Society in 1898. This latter was the Rochester Row band, which at that time ways making history with advanced methods, not only on tower bells but also on handbells, and in 1901 Mr. Pasmore and his brother took part in a silent peal of London at St. Stephen's, and also rang in the first Surprise handbell peal ever rung—Superlative Major.

His first peal, at the age of 20, was rung in 1896 at St. Margaret's, Westminster, being Stedman Caters, and his last, Stedman Cinques, at Southwark in 1949.

He was a very outspoken man and was always in the forefront in maintaining the high traditions of the Ancient Society. He earned and held the respect of all who knew him, and his passing on to higher service leaves the Exercise the poorer. May he rest in peace.

As is the custom with Abbey ringers, his body was conveyed to Westminster Abbey, there to lie for one night before burial. The last rites were performed by Dr. Jocelyn Perkins, superintendent of the belfry.

Following is a record of the peals in which he took part:—

Grandsire.—Triples 6, handbells 2—8; Caters 2, 1—3; Cinques 1, 1—2.
Stedman.—Triples 23, 2—25; Caters 13, 2—15; Cinques 17, 5—22.

Plain Bob.—Major 1, 3—4; Royal 0, 1—1; Maximus 1, 1—2.

Treble Bob.—Major 5, 1—6; Royal 7, 0—7; Maximus 4, 0—4.

Superlative.—Major 8*, 1—9.

Cambridge Minor 1, Cambridge Major 11, Cambridge Royal 12, Cambridge Maximus 8, London Major 29, Bristol Major 3, Westminster Major 3, St. Stephen's Major 1.

Double Norwich Major 3, Double Norwich Royal 5, Spliced Surprise Major 2, St. Clement's Bob Royal 1.

Total 167 tower, 20 'in hand'—187.
* Includes 9,312 rung at Irthlingborough.

KENT COUNTY ASSOCIATION

Joint Meeting With Ladies' Guild

It was at the church of Biddenden—a gem in the magnificent setting of this unspoiled village and its lovely surrounding countryside, that the Ashford District had its first combined meeting with the Kent Branch of the Ladies' Guild on June 6th. Our hosts were the Society of Biddenden Youths, a flourishing band numbering nearly 20 with their learners. The luxury of their ringing chamber must be seen to be believed!

Mr. H. G. Payne, the secretary, with Mr. Geoffrey Waters, had been responsible for the arrangements. Ringing started at 3 o'clock and then came the customary service at 4.30. This was conducted by the Vicar (the Rev. A. B. Richardson). It was his first meeting, and he welcomed the ringers to his church.

A fine tea followed at the Chequers Inn, provided by the local band and their friends, and their generosity was thoroughly appreciated by the 40 members and friends. Then came the business meeting—District first, at which Ladies' Guild members were present. Mrs. Mitchell, on behalf of the latter, thanked the District for having made the combined meeting possible. Four new members were elected. Mr. G. Waters called attention to a forthcoming service for ringers which was to take place at Even-song on June 25th at Biddenden. He also said he hoped to organise fortnightly practice meetings in the western half of the District next winter, similar to those of last winter. The District secretary asked for a volunteer for similar meetings in the coastal area. Mr. T. Cullingworth thanked the Vicar, the organist, choir and local band for all they had done to make the meeting successful.

Then the men were thrown out and the ladies had their meeting!

During the evening Mr. Harry Baker had arranged for Frittenden tower to be open, and both towers were well patronised. Altogether 22 towers were represented by over 50 members and methods were rung up to Superlative.

Once again we had many young ringers with us, and we wish to emphasise how welcome they are and hope they will join us whenever they can.
