

\*The Ringing World ' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

No. 2705 Vol. LIX

FRIDAY, FEBRUARY 22, 1963

Registered at the G.P.O. for 8d. transmission as a newspaper,

# IN PRAISE OF 'THE RINGING WORLD'

World' from the mat on Thursday mornings, a disturbing thought passes through my mind. Could it be that the Editorial Committee, under the mistaken impression that the Exercise really hankers after change, not changes, is even at this moment engaged in promoting a sinister plan to give the paper a complete face-lift? There have been signs that the Committee is quite capable of springing a coup. The moving of the peal columns to the centre pages was as nice a piece of strategy as I've come across. Apart from the odd salvo of protest, the Exercise, presented with a fait accompli, accepted it—warmly even in some quarters. Someone, it seems, must strike a blow for conservatism before it is too late.

Before I strike it, honesty forces me to confess that not all my reading moments of this paper have been pure unadulterated joy. There have been times when repeat performances of Plain Bob have rendered the peal columns somewhat farcical, when certain counties have seemed over-blessed with churches and every other ringing week to have been held in Devon. But what are such transitory shortcomings compared with our permanent blessings? Where else can a front page be found to compare with this? 'A veritable piece of history,' declared a friend who took more than a passing interest in typography, and went on to describe how the 'Cage Birds Journal' had never had quite the same appeal for him since it adopted a modern format.

Then those peal columns, so often maligned. True, there can't be many amongst us like the wife who declared that she read 'The Ringing World' in order to discover where her husband had been the previous week; but what information is revealed to the knowing eye when young Miss A is ringing frequently with young Mr. B, and X is no longer ringing with Y. What blatancy is a gossip column compared with such subtle hints! Apart from putting the matter beyond all doubt and fixing the location more precisely, both the engagement and the change of address columns are for the most part superfluous for the peal ringer. 'He must be well over 70. He was ringing peals with in \_\_\_\_. Should there be households where this handy method of reckoning is not already in use, may I recommend it as of proven accuracy?

But now, as far as I am concerned, to come to the heart of the matter. Bombarded as we are on all sides by detergents which wash whiter than white, cakes that cook lighter than air and disinfectants which kill all known germs, what unparalleled bliss it is to open a paper which contains the Rolls-Royce class adverts of the leading bellfounders and nothing more insistent than that which brings to our notice the prowess of Charles Potts & Co., Clock Makers. Any change, I feel, is bound to be for the worse.

Your correspondent who wrote not so long ago of her delightful, absorbing and, I am sure, relaxing Friday coffee break would find that she was no longer left in peace. Neither would I be on a Thursday. That other woman would be there for sure, the one who stalks the television screens, providing perfect meals, spotless homes, two children—one of each sort—with never a hair or a temper out of place. She would be there telling us how to remain in one piece throughout Thurstans' Four Part and matt during a Bank Holiday peal. And think not that she would be late at backstroke or miss a dodge! She's just as capable of perfect peals as perfect meals.

May 'The Ringing World' ever remain a bastion against her so that we may read, or read between the lines, in peace.

MADELINE CROFT.

### 200th ANNIVERSARY OF FIRST PEAL AT DERBY

The peal of Grandsire Triples rung at Derby Cathedral on February 9th marked the 200th anniversary of the first peal on the bells; appropriately, it was also the 50th peal. In the belfry there is a peal board recording the 1763 peal, but the board is a very recent copy of a much earlier original which was probably painted straight on to the rough stone walls.

The board claims that the brand consisted of

The board claims that the band consisted of Derby Youths, aged between 19 and 23 years, who rang the peal after only six months' practice and without the aid of a tutor. Furthermore, it is claimed that this was the first peal to be performed within many miles of Derby.

By present day standards such an achievement would be very remarkable, but to have done it 200 years ago, when means of transport and communication were very difficult, makes the imagination boggle.

imagination boggle.

There are no details given regarding the composition used, but a fair guess is that it would be Holt's Ten-Part of Grandsire Triples; so this was chosen for the 200th anniversary peal also. Derby Cathedral has witnessed many changes since 1763. Before 1926 it was All Saints' Parish Church. The bells have been retuned and rehung at least once since that date, and both the bell chamber and the ringing room are now on different levels than hitherto. The bells, however, are all of pre-Reformation date and however, are all of pre-Reformation date and none have been recast, so it is almost certain that the present Cathedral bells are the very

same ones used by the band in 1763.
The 1763 band was:

WILLIAM BROWN JOHN STONE
JOHN WRIGHT JOHN CHATTER WILLIAM BROWN
JOHN STONE
JOHN WRIGHT
THOMAS COPE
THOMAS DUDLEY
JOHN FARNSWORTH
ISAAC BRENTNALL Who the conductor was we do not know!

### ST. ALKMUND'S, DERBY

Following the dramatic news in 'The Derby Evening Telegraph' that St. Alkmund's Church. Derby, is to be demolished to make way for the new inner Ring Road, the Derbyshire Association have had discussions with the secretary of the Diocesan Advisory Committee to the Consistory Court. The facts are as follows:

(1) The Ministry of Transport have said that the inner Ring Road must be a certain width

the inner Ring Road must be a certain width.
(2) In order that the Ring Road be this width the land on which St. Alkmund's Church stands is needed. According to present plans, the Ring Road passes between St. Alkmund's and a Catholic church on the opposite side of an

existing road.

(3) St. Alkmund's has formed a committee to discuss the position with the town clerk.

(4) The Ministry have powers of compulsory

The Derbyshire Association have received an assurance from the secretary of the D.A.C. that in the event of the church being demolished and rebuilt on a different site, the eight bells

would be installed in a rebuilt tower.

At present St. Alkmund's bells are not rung for Sunday service, and an offer to ring the bells, made by the Cathedral band two years ago, was turned down by the Vicar.

The Derbyshire Association have expressed concern that the bells are not rung and, mindful of the possibility that the bells may be gotten on economic grounds in any rebuilding theme, they have offered to man the bells for Sunday service at least once a month. To date this offer has not been accepted.

## Coventry Cathedral Rally

Dear Sir,-As secretary of the Gloucester and Bristol Association I note with interest the notice re rally of all England ringers to Coventry Cathedral, It is most unfortunate that the date is that on which no less than four annual meetings of large Associations are to be held, and it is to be hoped that members of those Associations will put loyalty to their Association and officers before the chance of several new towers and service in the new cathedral. It is to be hoped that there will be another opportunity later when there is less on elsewhere to visit and join in worship at Coventry.—Yours sincerely,

## THE CENTRAL COUNCIL OF CHURCH BELL RINGERS

### PRELIMINARY NOTICE

The first session of the 25th Council (66th unnual meeting) will be held in the Town Hall, Great Yarmouth, on Whitsun Tuesday, June 4th, 1963.

Committee Reports (Rule 12 (i)). Conveners are reminded that reports must be made in writing to the secretary by March 31st. 1963.

Nominations for Office (Rule 10). Nomina-Nominations for Office (Rule 10). Nominations for the offices of president, vice-president, hon, secretary and treasurer and hon, librarian, signed by two members of the Council, must be received by the secretary by April 4th, 1963.

Notices of Motion (Rule 14). Notices of motion, signed by two members of the Council, must be received by the secretary by April 23rd, 1963.

E. A. BARNETT, Hon. Secretary.

26, Iron Mili Lane, Crayford, Kent.

### RUNG ON ICE!

Believe it or not, a church peal was rung on ice. Five members of the Southwell Diocesan Guild rang a peal in seven Doubles methods at St. Luke's

Church, Hickling.
The church heating system had burst because of the severe frost flooding the ground-floor ringing chamber with water, which had frozen into a solid sheet of

Doormats were provided by the church authorities for the ringers to stand on-Interviewed by 'The Melton Mowbray Times,' Mr. F. W. Midwinter said: Even though we had doormats the atmosphere was like ringing in a refrigerator!

The ringers all reported for duty on the following Sunday, ringing in their own towers, none the worse for their experience.

### HIGH WYCOMBE BELLS TO GO TO FOUNDRY

The 12 bells of High Wycombe Parish Church are to be retuned and rehung on ball-bearings with completely new fittings by Taylor's, of Loughborough.

It is expected that work on dismantling the bells will start shortly after Easter, and that they will be returned in time for ringing at Christmas—the cost of the work is being borne by the Church.

The ringers, with the help of a local appeal signed by the Mayor and the Vicar, are hoping to raise the necessary money for the installaof a sharp second, which will give a ring of eight with a tenor of 9 cwt.

While the bells are away, a sound lantern is to be constructed on the tower roof.

## LONG LENGTH ATTEMPT - MINOR 28 METHODS

Dear Sir.—I herewith give notice of an attempt to ring 20.160 changes of Minor at the Church of St. Mary, Stoke D'Abernon, Surrey, on Saturday, March 2nd, 1963, commencing at 9.30 a.m.

The arrangement of the 28 methods will be as follows: (1) London S., (2) York S., (3) Bourne S., (4) Caithness S., (5) Cambridge S., Bourne S., (4) Caithness S., (5) Cambridge S., (6) Willesden D., (7) College Bob IV D., (8) Old Oxford D., (9) Norbury T.B., (10) College Exercise T.B., (11) Duke of Norfolk T.B., (12) Disley D., (13) Shelford D., (14) Oxford T.B., (15) Kingston T.B., (16) London Scholars Pleasure T.B., (17) Sandal T.B., (18) Kent T.B., (19) Oswald T.B., (20) Single Oxford B., (21) Double Oxford B., (22) Thelwall B., (23) Pinchurst B., (24) Double Bob, (25) St. Clement's B., (26) Childwall B., (27) Buxton C.B., (28) Plain Bob. If successful, the peal will be credited to the University of London Society.—Yours faithfully, BRIAN J. WOODRUFFE.

London, S.W.

# LONDON COUNTY ASSOCIATION New Master Elected

The annual business of the London County Association was conducted at a well-attended meeting at The George, Fleet Street, on Feb-ruary 9th. A good tea and a room very comfortably warm by contrast with outside conditions helped greatly with the success of the proceedings

proceedings.
Officers elected for 1963-64 were: Mr. W. G
Wilson, Master: Mr. C. W. Ottley, deputy
Master: Miss M. E. Powell, general secretary:
Miss V. E. Dupre and Mr. F. P. Mead, assistant
secretaries: Mr. J. Lott, treasurer and librarian;
Mr. C. M. Meyer, senior steward: Mr. R.
Overington, junior steward: Messrs. H. W.
Rogers and J. Hales, trustees: and (after a
ballot) Mrs. H. W. Rogers and Messrs. Ottley,
Rogers and Wilson, Central Council representatives.

In thanking the members for his election, the In thanking the members for his election, the new Master referred to the tributes paid to his predecessor (Mr. T. H. Taffender) on his election last year for the fiftieth time—he did not hope to emulate this, Mr. H. W. Rogers had indicated that he did not wish to be re-elected secretary and, at the request of Mr. F. Udal, the Master presented him with a Parker fountain pen as a token of the members' respect and appreciation for 18 years' work as their secretary.

Six new members were elected and welcomed by the Master. They were Mr. and Mrs. A. Hampton, and Messrs, P. D. Chapman, P. Erith, A. Johnson and M. Ferrier. The accounts, which were accepted, showed an excess of income over expenditure of about \$7.

# EVENING SERVICE RINGING

In his report for the past year, the Master thanked the officers for their support at meetings, but hoped to see more members attending in future. He expressed thanks to Mr. Meyer and those who supported him in ringing for evening services at various London towers, including Southwark Cathedral on each third Sunday; he welcomed requests to join in the regular second Sunday morning ringing at St. Clement Danes'; he announced that once again the Association had been invited to ring hand-Association had been invited to ring handbells at St. Clement's for the annual oranges and lemons service: he was glad to say that the summer joint meeting with the Middlesex Association had now become established, and expressed the view that such meetings helped to achieve the co-operation which was desirable annual that I could be Societied.

achieve the co-operation which was desirable among the London Societies.

In accordance with notice, it was agreed to add to the rule relating to the annual election of officers the words 'The office of Master shall not normally be held for more than three consecutive years.' By coincidence a recent 'R.W. strike had appeared on this subject a few days article had appeared on this subject a few days before the matter was considered by the com-mittee of officers, but it had been the intention for some time to introduce such a proposal when appropriate.

when appropriate.

Notice of future meetings was given (see 'R.W.' for details in due course), and a vote of thanks accorded to the incumbents of St. Giles', Cripplegate, and St. John's, Waterloo Road, and to Messrs, J. Philips and W. D. Grainger respectively for the use of the bells during the afternoon during the afternoon.

The meeting's thanks to Miss Powell and Mrs. Meyer for their work in connection with the tea were expressed by small presentations made by the Master on behalf of those present.

Following the business, a pleasant social even-ing was spent in talk and handbell ringing, and the Association cup was presented to the Chersea band, who were the only ones able to enter a handbell team in compliance with the rules M. E. P.

Over the years complaints have been made against the chimes and booming tenor of Colchester Town Hall, disturbing the sleep guests at the Red Lion. After spending night in the hotel the Mayor (Mr. W. J. Porter) said the chimes were definitely an annoyance. As a concession the Council are to have the Westminster chimes on the clock silenced terween midnight and 6 a.m.

# LINCOLN DIOCESAN GUILD

At the annual general meeting of the North Lindsey Branch held at St. James' Church. Grinsby, on February 2nd, there were favourable comments on the newly-augmented ten. The bells go and sound extremely well. Mr. J. Bray took the chair at the business meeting, as unfortunately the president, Canon Thackray, has been unwell for some time and could not undertake the journey in such bitter weather.

bitter weather

The accounts were approved, although there had been a loss of £1 8s. 6d. on the year's working it was hoped that the increased subscription of 5s. per member would remedy

this situation.
All the officers were re-elected and thanked their past services.

Membership stands at 86. plus four honorary

E was proposed that the following meetings held: Bigby, March 25th: Elsham, July h: Caistor, September 7th; Barton, October C.A.H.

## ARCHDEACONRY OF HALIFAX GUILD

Members from as far as Rothwell and Batley made their way through snow to attend the Guild's meeting at Lindley on February 2nd. The meeting was well attended, considering the weather and enjoyable ringing was had by all. The treasurer's statement was adopted at the business meeting, and it was unanimously agreed to raise the subscription to 1s. 6d, per year.

It is hoped that the next meeting will be lickl at Brighouse, with an alternative of Brad-law. D. S.

# SHEFFIELD AND DISTRICT SOCIETY

Although the snow lay thick on many roads, a good number of ringers and friends altended the meeting at Killamarsh on February 2nd.

There were three towers open for ringing during the afternoon and evening—Eckington. Killamarsh and Harthill—and a wide variety of methods was rung, including Killamarsh Treble Bob and London.

About 30 people sat down to a splendid tea in the Vicarage at Killamarsh, and towers represented were: Dore, Handsworth, Sheffield Cathedral, Dronfield, Chesterfield, Rotherham, Mansfield, Derby, Hurstpierpoint (Sussex) and Ersom (Surrey)

and Epsom (Surrey).
The next meeting is the annual general and will be held at Ranmoor on March 2nd. A. T.

### KENT COUNTY ASSOCIATION

The Lewisham District quarterly meeting on January 26th, at St. John's, Erith, was also a joint meeting with the Kent Branch of the adies' Guild and attracted a gathering of some 70 members and friends.

Ringing during the afternoon and evening was under the leadership of the new Ringing Master, Mr. J. D. Faircloth, and the service conducted by the Vicar, the Rev. P. D. Absolon

Absolon.

On November 6th, 1962, the 600th peal was more the bells and the occasion was marked during the afternoon. Before the service the Vicar unveiled a peal board, and men the company arrived in the hall for teal found a magnificent cake had been made. The cake, which took the form of the three faures 600, had been made and beautifully by Mr. J. T. Stevens, a local ringer. An excellent tea was followed by the usual usiness meeting and a meeting of the members of the Ladies' Guild. Further ringing concluded the programme for the day. M.R.A.

### YORKSHIRE ASSOCIATION

The winter general meeting of the Association was held at Ossett on January 19th, being well attended by representatives of each of the four Districts in spite of the inclement weather. The fine ring of ten bells was put to good use during the afternoon and evening, but at the business meeting, which followed an excellent tea. it was regretted that the president (Archdeacon C. O. Ellison) was unable to take the chair because of other important engagements. In his unavoidable absence, the chair was taken by Mr. W. Barton who announced apologies for absence from Messrs. J. A. Brown, H. Chant, H. S. Morley, B. Sutton and A. Sheppard.

A vote of thanks to the Vicar and church-The winter general meeting of the

A vote of thanks to the Vicar and church-wardens for the use of the bells, the service and the use of the church schools for the and the use of the church schools for the tea and meeting was unanimously accorded on the motion of Mr. W. F. Moreton, seconded by Mrs. Jeanne Bottomley, and a similar vote of thanks to the local company for the excellent tea and arrangements on the motion of Mr. W. E. Critchley, seconded by Mr. V. Bottomley. In reply, Mr. Fred Bennett vaid it was a pleasure to entertain the Association and he was gratified to report that the response for tea applications had proved to be most satisfactory.

In the absence of any specific invitation, it was unanimously agreed that the secretary make inquiries into the possibility of holding the annual general meeting at Howden Minster on May 4th.

Mr. H. Walker reported that the Snowdon dinner had been a success, being attended by 123 members and friends, a net profit of 12 10s. 2d. being made, which the York Minster Society had had pleasure in handing over to Association funds. A vote of thanks to the York Minster Society, for their most capable arrangements, was unanimously accorded on the motion. capable arrangements, was unanimously accorded on the motion of Mr. E. Hudson, seconded by Mr. G. Benfield, It was unanimously agreed to endeavour to arrange the Snowdon dinner this year in Leeds on Oct. 19th.

A ballot to elect four Central Council representatives resulted in the election of Messrs. V. Bottomley. W. E. Critchley, G. Benfield and W. F. Moreton.

The secretary announced that the committee had unanimously recommended the re-election of Archdeacon Ellison as president. He felt sure that the Association was fully appreciative of the yeoman services that Archdeacon Ellison had so faithfully rendered, and on behalf of the committee he had great pleasure in formally moving his re-election. This was seconded by Mr. W. E. Critchley, and carried unanimously unanimously.

Under the new rule, the honorary peal secretary is now elected trienmally, coinciding with the presidential election, and Mr. W. E. Critchley was unanimously nominated.

The secretary reported that the committee had considered an application received from Huntington, near York, for a grant from the bell repair fund, and had decided to recommend that the maximum grant allowed by rule (£10) be granted. This was agreed to. Janet Poppy, Gwen Cox, C. Milestone, R. Turner, E. Turner and John Brayshaw were elected members (all of St. Peter's, Bramley, Leeds), on the motion of Mr. V. Bottomley, seconded by Mr. W. E. Critchley. This concluded the business, and further ringing was enjoyed.

### **BARNSLEY & DISTRICT SOCIETY**

A warm welcome was given to the Society by the Vicar (the Rev. B. Richardson) when it met at Rawmarsh, near Rotherham, on February 9th. Cups of tea and biscuits were provided free, and the vote of thanks was proposed by Mr. Noel F. Moxon.

## GUILDFORD DIOCESAN GUILD Leatherhead District

A slightly increased membership was reported at the District annual meeting at Leatherhead on February 2nd. The Guild's form of service was conducted by the Vicar, and this was followed by tea and the business meeting, held in the Wesley Methodist Hall because the Parish Church Hall was being

The District Committee reported that members of the Gu'ld had rung six peals in the District during the year. They included a peal of Plain Bob Minor rung by the local band at Capel, under the leadership of Mr. A. Harman. A total of 43 quarter peals had been rung at 12 of the 15 towers in the District; Christ Church, Epsom, where 12 were rung, was the leading tower. The District had made a very encouraging start with its effort to raise the money to provide a bell for the Cathedral. Amounts ranging from £1 15s. to £43 5s. had been raised by six towers towards the present total of £103 8s. 7d.

The District Ringing Master (Mr. F. Oakshott), secretary (Mr. C. W. Munday) and auditor (Mr. A. S. Besant) were re-elected. A ballot for two places on the Guild Executive Committee resulted in Mr. D. Herschell being elected for three years and Mr. A. P. Cannon for two years. The District Committee reported that mem-

Cannon for two years.

Messrs, D. A. R. May, H. N. Pitstow and
A. P. Cannon were nominated as Central
Council representatives.

Votes of thanks were accorded to the Vicar of Leatherhead, to Miss Arnold for playin the organ, and to Mr. George Marriner for making the arrangements. C. W. M.

### SURREY ASSOCIATION

In spite of the wintry conditions some 80 members and friends gathered at Benhilton for the Northern District's annual meeting on January 26th. The Association's form was used for the service, led by the Vicar. The tea and the business meeting followed in the Church Hall Church Hall.

Church Hall.

The committee's report and the financial statement of accounts were both accepted by the meeting, and 15 new members were elected.

The District Master (Mr. F. C. Collins), the honorary secretary (Mr. W. rarrott) and the assistant secretary (Mr. N. Steere) were reelected unopposed. Miss M. Lewis, Messrs. N. Bagworth and B. Bull were elected committee members after a ballot, and Mr. R. F. Lavton was re-elected auditor.

The committee's proposals regarding the striking competition were accepted. All the competing bands will ring the same touch, which will be selected by the committee. The touch for six-bell bands will be arranged so that approximately the same number of blows will be struck as in the eight-bell touch.

After the usual votes of thanks the ringers retired to the belfry.

N. G. T. S.

### SUSSEX COUNTY ASSOCIATION Northern Division Annual

Northern Division Annual

The weather conditions on February 2nd were not such as to lead one to expect a good gathering at East Grinstead for the annual meeting of the Northern Division, but snow, icy roads and a strong east wind did not deter over 60 members attending the service (addressed by the Vicar, the Rev. H. Copsey), and afterwards doing justice to an excellent tea, which was in the capable hands of Mrs. F. Hicks and helpers), and then settling down to the business meeting, with the Vicar in the chair. Under 'any other business,' Mr. Frank Hicks expressed the hope that, with the help of the ringers in general, they would have a ring of ten at East Grinstead in the not too distant future.

# Letters to the Editor

# Great Yarmouth, 1963

Dear Sir,—I am sorry that our two Irish friends are worried about accommodation difficulties at Yarmouth at Whitsun. I too got the same impression from the official announcements and, having got the official guide, wrote to six of the places given therein, hoping for perhaps one favourable reply. All of them were able to cope with four of us for the four nights concerned—I will gladly pass on the five unused

To attempt to change at this late stage would be unfair to our hosts and to the civic and Church authorities, and would cause difficulties at any new venue because of the late arrangements and would land someone with a bill for lost deposits on booked accommodation. I hope that our friends will still attend and, as they always do, enjoy themselves and add to the benefit and enjoyment of the rest of us.—

Yours, etc., Ruislip, Middx. WILFRID G. WILSON.

# Leicester Supports Ireland

Dear Sir,—I would like to support the Irish Association delegates who plead for the 1963 meeting to be rearranged in London.

Many of those who voted at Cardiff to hold the meeting at Great Yarmouth did so although they had no idea that they would be members of the Council in 1963—in fact, probably some of them are not!

of them are not!
As this situation happens every three years, there seems much to be said in favour of having the first meeting of each session in a convenient centre like London, where there can be no argument. London is accessible by direct rail service from all parts of the country, whereas provincial places are not. London can be reached by rail without the expense of a night's lodging (although I realise that from a good many places it means travelling by night), but provincial towns are not in that happy position. position.

In my own case. Yarmouth cannot be reached by a direct rail at all (since the unfortunate closing of the old M. & G.N.), nor from anywhere else in the Midlands, so it means spending at least one night and possibly two in Yarmouth for all but those who travel from the London direction.

Now we find that the arrangements to which

we have been used to are not being made this year, which makes things even more difficult.

I would ask the Standing Committee to meet and rearrange this important meeting at a more convenient centre, and that they do it now be-fore it is too late.—Yours faithfully, BRIAN G. WARWICK.

Leicester Diocesan Guild.
Note.—The preliminary notice of the Council meeting appears in this issue.—Ed.

# Correction To Simple Callings To Handbell Peals

Dear Sir.—I see that I have given one of the compositions on page 93 incorrectly. The 5,040 in six methods should read:—

23456	W	M	Н
64352		S	S
24365	S	S	6
35462	,	S	_
43562	0	Λ	_
23456	S		6

Yours sincerely ANDREW S. HUDSON Cambridge

# St. Paul's Cathedral, Melbourne

Dear Sir,—Once again I take this opportunity of thanking, through 'The Ringing World' the following Guilds and Associations who have greatly appreciated, and the Fund is now well on the way to target figure. Work will commence on the bells as soon as possible after the royal visit, and the completely-restored 12 will be installed in good time for 'Great Adventure II' in 1964.

Would Guild treasurers please accept this as an official acknowledgment of their donations:

	£E		
Truro Diocesan Guild	2	2	-0
Leicester Diocesan Guild	4	2	0

of 1934, and we were very pleased to receive his letter in the belfry. He is remembered here with great affection.—Yours, etc.,

GEORGE W. PIPE.

Melbourne, Victoria.

# Baldheaded Rabbits?

Dear Sir,-The observations of Messrs. Brueton and Pearce on the hazards of the late entry interest me very much, for I have often thought of proposing an Over-50 Association. The qualification for membership would be passing the 50th birthday before attempting to handle a bell.

Perhaps the Association could be affiliated to the Rabbits' Guild as the Baldheaded Rabbits' Section? Certainly it would need to be a Mutual Admiration Society, for no one who has not attempted it can conceive the difficulty of learning to ring when the second half-century has dawned, the ponderous fumblings of the aged mind matching the clumsy creakings of the arthritic joints.—Yours faithfully, B. M. WILLMOTT DOBBIE.

Edgbaston, Birmingham.

# A Peal Ringer's Query

Dear Sir,—I expect that a number of your readers who organise peals have, at some time or another, been told in reply to a request for the necessary permission that the tower or the

the necessary permission that the tower or the fittings are not solid enough to withstand three hours' ringing, but that they are welcome to come and ring for an hour if they wish.

This idea has always puzzled me, as I cannot see how three hours' ringing on a single occasion can do more damage than six separate half-hours on successive Sundays. Surely the theory is not that the parts of the structure displaced from their positions during one Sunday's ringing will have had an opportunity to

day's ringing will have had an opportunity to work their way back again by the next!

I should be very interested to know the views of any of your readers having engineering or architectural knowledge on this point.—Yours faithfully,

ROBIN G. LEALE.

Surbiton, Surrey.

# Method Extension

Dear Sir,—With reference to Mr. Staniforth's letter of February 1st, he should know that the Methods Committee has not yet been asked to pronounce on the methods known as Durham Surprise Royal and Maximus, and that no one has dictated that they are not extensions of Durham Surprise Minor.

In my letter to the 'R.W.,' January 11th, I pointed out that the methods were not in accordance with the Central Council Decisions contained.

pointed out that the methods were not in accordance with the Central Councit Decisions on Method Extension. My letter was meant to be helpful, in the hope that the Leicesten Diocesan Guild (or perhaps some of its members) would not get us into another mess by using incorrect names. I deeply resent Mr. Staniforth trying to lead the Exercise into thinking that I was trying to dictable to appear about anything. trying to dictate to anyone about anything. There have now been three letters in the 'R.W.' explaining why these Royal and Maximus methods are not extensions of Durham Surprise

Mr. Staniforth asks how I arrived at the same incorrect figures as they did. It is a necessity of school teaching to be able to anticipate a child arriving at an incorrect answer due to incorrect reasoning, even though to the child

a child arriving at an incorrect answer due to incorrect reasoning, even though to the child his reasoning might appear to be logical. Seeing the peal report, without figures, of a claim to have rung an extension of Durham S. Minor to Royal, I considered the following facts:—Some members of the L.D.G. are known for their approximate extensions; it has been stated that they ring handbells by two blue lines and not by places, and that they had recently rung York S. Royal. Making the assumption that they still regarded Surprise methods as being composed, and as variations one of another. I made a guess that their Durham S. Royal had been arrived at as a variation of York S. Royal. But Surprise methods are not composed, are finite in number, can all be churned out mechanically, and have individual characteristics. One characteristic is that some will extend whilst others will not. Any system of interrelationship between methods is entirely arbitrary, and Durham is not a variation of York.

Mr. Jelley's letter has been answered by Mr. Mayne, and the figures given for Bourne and Norwich are correct. But if he will refer to the 'R.W.' of August 26th, 1960, he will find the same figures of Norwich and also two other extensions.—Yours sincerely.

Windsor. FRANK T. BLAGROVE.

# Stays

Dear Sir,—May I congratulate Mr. J. McClenahan on such an excellent analysis on the design of bell stays, and say how interested I was to read it. Although I do not pretend to understand the formula, the criterion that the stay should absorb as much energy as possible consistent without damaging the bell or its filting reages to me to be using legical.

tings seems to me to be quite logical.

The two main conclusions from Mr. McClenahan's article are: (a) There is an unnecessary over-elaboration regarding stays, and (b) They could be made a good deal stronger with-

out fear of damaging the bell

out fear of damaging the bell.

If these are correct, why should we have to put up with monstrosifies like the Hastings stay? Why cannot we use willow instead of ash or oak? Why are the stay sockets not made larger in the first place in order to allow a stay of much larger dimensions to be used? In this modern day and age it is surprising that no one has found a method of replacing the old-fashioned stay by some spring-loaded snap release safety device which would only require resetting and not repairing in the event of

quire resetting and not repairing in the event of heavy-handedness.—Yours, etc.,
Derby.

### MR. WILFRED J. NEWMAN

Feb. 22, 1963

By the death of Mr. Wilfred J. Newman, Ringing Master at St. Andrew's, Hampton, the Worcestershire Association has lost one who gave most of his time in teaching others, and one whose first allegiance was to his own parish church. He was ringing as usual over the Christmas Festival, but collapsed at his work the following Friday and died in hospital on February 1st, at the age of 52.

He learnt to ring at Hampton and also joined the choir at an early age, and continued regularly in his place. He was the Southern Branch secretary and treasurer of the Worcestershire Association for 11 years, and a member of the central committee at the time of his death.

A safe ringer in the standard methods, he had rung 105 peals for the Worcestershire Association and conducted two, being content to leave the conducting to others. But it was in teachng others to ring that he excelled. Always appearing to be relaxed, he yet had an immaculate style of handling a bell himself, and this he had the gift of imparting to others, coupled with an the gift of imparting to others, coupled with an inexhaustible patience. He was particularly successful with juveniles, and it was a regular sight in Hampton belfry to see boys and girls of diminutive stature standing on boxes or hassocks in order to reach the sallies. Losses in the band caused him no dismay—he simply started teaching afresh, and many of his colleagues in the belfry were also colleagues in the choir. the choir.

He was a member of the Parochial Church Council and also served in the Special Con-stabulary. He leaves a widow and one daughter (Frances)—also a ringer.

The funeral took place at St. Andrew's on February 5th, the Vicar (the Rev. R. W. N. Ilarris) officiating. The robed choir and organist were present, and the church filled with representatives of the Church Council, many ringers of the Southern Branch, the regular and special Police and other local organisations with special Police and other local organisations with which Mr. Newman was connected. Speaking from the text 'He that endureth shall inherit all things,' the Vicar paid stirring tribute. Wilfred Newman,' he said, 'was a staunch member of the Church, but we think chiefly of his ringing. He worked well and hard to keep a band of young ringers, and not only trained them but helped them to retain an interest in the Church at a time of life when so many fell the Church at a time of life when so many fell away from it. Ringing, to him, was not just a hobby but part and parcel of his worship of

Immediately after the committal, a course of Immediately after the committal, a course of Grandsire Triples was rung over the grave by Mrs. V. Barnes 1-2, Mrs. J. Thomas 3-4, J. D. Johnson 5-6, Wm. J. Newman 7-8. The church bells, which had already been half-muffled for the Sunday Evensong, were rung by members of the Southern Branch and again in the evening by the level band. A muffled peal arranged for by the local band. A muffled peal arranged for Saturday had to be postponed at the last minute, owing to illness near the church.

Among the many wreaths were those from the Church Council, St. Andrew's choir and ringers, the Southern Branch of the Worcestershire As-J. D. J. sociation and the Hinton band.

### MR. BERTIE ALDRIDGE

A well-known ringer died at St. Mary Cray on February 7th in the person of Mr. Bertie Aldridge, aged 76.

For the last eight years he had been a member of the band of St. Mary Cray, but before that he was captain of the ringers at St. Mary's, Moolwich, for over 30 years. He attended service and practice ringing regularly, and was ever ready to help learners, and thought a practice worth while even if no method ringing was rung.

He had been in and out of hospital for the last four months, but his death came as a great shock to all his friends.

P. G. B.

#### MR. H. C. WARNER

MR. H. C. WARNER

Great Dalby, Leicestershire, has lost another of its stalwarts by the death of Mr. Harry Cecit Warner, aged 85.

He belonged to the old band of ringers in the days of the Rev. R. C. Dashwood, the famous hunting parson. He had been tower captain for upwards of 20 years, and had served as churchwarden, school manager and a parish and church councillor. He was a member of the Goscote Society of Ringers.

In the evening, after the funeral, a quarter peal was rung with the bells half-muffled.

peal was rung with the bells half-muffled

### MR. G. A. COOK

For many years both captain and tower keeper at Ashtead, Surrey, Mr. George Albert Cook, of Lavender Cotttage, Crampshaw Lane. Ashtead, died on February 9th. He would have been 70 next week.

Mr. Cook was a life-long resident of Ashtead, as were his father and grandfather before him. For most of his life he had been a bellringer, having been taught the art by his father when he was about ten years old. For over 50 years he was a member of the Surrey Association and, it is believed, was a member of the Guildford Diocesan Guild since its formation.

There is no complete record of Mr. Cook's peals available at present, but it is believed that he rang some 76 peals, ranging upwards to Surprise Royal. Two of the peals of which he was most proud were the first at Ashtead of Ashtead Surprise Major and, at Leatherhead, the only peal ever rung of Cobham Surprise Royal. A severe illness forced him to give up ringing some 12 years ago.

Mr. Cook was always keen on training new ringers, and it was owing to him that the nucleus of ringers now at the parish church began their training, and he was a proud man some five years ago when the 300th peal on the bells was rung by the local band containing a

number of his pupils.

His long illness was borne with great fortitude and cheerfulness. The funeral was on February 13th, when his ashes were interred near the church and bells he loved so well. To his wife and one son (now resident in British Columbia) the deepest sympathies of many friends are extended.

A quarter peal in his memory will be rung, and the bells will be open and not muffled, as this would have been his wish.

### MR. FRED HYDE

The Worcestershire Association has lost another officer, with the death of the Western Branch secretary, Mr. Fred Hyde, on February 11th. He was aged 58 years. He had already made arrangements for the Branch meeting at Kempsey on March 2nd, and this meeting will therefore take place as planned. D. B.

MR. A. E. EDWARDS

Mr. Albert E. Edwards, of 19, Langham Road, Robertsbridge, Sussex, who died on January 27th, aged 88, was, in his day, a noted member of the Society of Royal Cumberland Youths, which he joined on February 24th, 1894

For 25 years he served in the West Sussex Constabulary, and he had been for eight years parish constable at Salehurst when he retired

parsh constable at Salenuist when he retrica in 1924.

Much of his peal ringing was done with the 'Cumberlands,' and he rang with such famous conductors as Keith Hart, Thomas Card, W. H. Card and George A. Card. Of his 225 peals, Mr. Edwards conducted 150, and his peals were rung in 82 different towers. For a time he was instructor at Salehurst, and here he rang many peals in various methods, up to Double Norwich C.B. Major.

The funeral service took place at St. Mary's, Salehurst, on January 31st, and was conducted by the Vicar, the Rev. R. A. Stedman. Immediately after the service the bells were rung half-muffled by the local band. Final tributes were paid by the band on February 2nd, when 1.260 Grandsire Doubles was rung by G. H. Muggridge 1, F. J. Lambert 2, A. Hoad 3, A. Smith 4, T. W. Edwards (cond.) 5, G. Fellows 6.

# DERBYSHIRE ASSOCIATION

CHESTERFIELD DISTRICT

In spite of Arctic weather conditions, the attendance at the District meeting held at Clowne on February 9th was most rewarding, with almost every tower in the District represented! Ringing from rounds to London Surprise Minor was supervised by the District Ringing Master, Mr. G. Goodall, in the afternoon, before an excellent tea was enjoyed in the warmth and comfort of the Rectory

The Rector, the Rev. W. S. Wilcox, presided at the business meeting, at which a large number of new members were elected, viz.: Diane Turner and Jacqueline Stewart (Bolsover), Mr. A. Ashby (Barlborough), Mrs. D. Smith (Staveley) and Dereck Peers, Mary Hunt, Linda Yates and David Braddow, of

Hunt, Linda Yates and David Braddow, of the local company.

The District chairman, Mr. F. Adams, expressed sincere thanks to the Rector for taking the chair, to the local ringers for the excellent arrangements and to the ladies for providing such a magnificent tea, to which the Rector replied on behalf of the local com-

Next meeting: Creswell, March 9th.

Will David P. Hilling, Christine Houkon and J. Keith Ward please send their addresses to Mr. Charles Rouse, 42, Brookfield Road. Churchdown, Glos, as these were not supplied at the time of their election as life members of the Gloucester and Bristol Diocesan Association

# METHOD EXTENSION

Dear Sir,—This is in reply to the letter from Mr. Jelley in 'The Ringing World' of January 25th (page 61). Let me make it clear at the outset, for the benefit of other readers that there is no question that a perfectly satisfactory peal has been rung. The name of the method is the point at dispute.

satisfactory peal has been rung. The name of the method is the point at dispute.

I shall not deal with Mr, Jelley's points in order, but shall begin at the end. The last paragraph of his letter requests that the Methods Committee produce a report on extensions that would be intelligible to mere mortals such as I.' This is a clear enough admission that Mr. Jelley does not understand the report, even if it were not obvious from the rest of his letter. It puts him on rather shaky ground when he comes to propound his own ideas of what constitutes extension. What is also clear is that Mr. Jelley (and others) are not prepared to make the least effort to comprehend the report, which, far from being complex, is in fact quite simple. These concepts, however, cannot be explained without the use of some technical words. What Mr. Jelley wants is a kind of mountain railway, which will transport him without effort to a summit of knowledge. He is like the learner who refuses to learn ringing because he has to understand terms such as Whole-turn, Treble Bob, handstroke and backstroke. But knowledge cannot be acquired without some effort.

Now I will try to explain in the simplest possible terms on what grounds the Durham

Now I will try to explain in the simplest possible terms on what grounds the Durham extensions are rejected, but some attempt will have to be made to understand what I am saying. And perhaps your readers will study this carefully; perhaps they will read it more than once, so that I am not accused of saying what I have not said.

I shall begin with some statements which I hope are beyond dispute:

(1) That some form of systematic extension is needed.

(2) That as there is such a diversity of methods, and of ways of extensions, some decision is necessary as to what may constitute an extension. Such a decision will necessarily exclude certain relationships, what-

(3) Whatever system is agreed, it has to cope with any method; that is, it has to give a 'yes' or 'no' in every case.

This third requirement, for a universal formula, implies that any such formula cannot possibly be based on one method alone or even a very limited number of methods. All this implies that some relationships will have to be rejected as extensions, even though this implies that some relationships will have to be rejected as extensions, even though they possess certain claims, and no matter what system is adopted this is bound to be the case. Otherwise, the formula which is so weak that it rejects nothing is equivalent to no formula at all.

no formula at all.

If we are to understand the present case we shall have to be specific. Let us restrict ourselves to methods where the treble does a treble bob hunt. This kind of method can be divided into groups of four changes, in which the treble is confined to one dodging place. These are called 'sections.' Part of the section is below the treble and is called the 'front sub-section,' while part is above and called the 'back sub-section.' For the purposes of method extension, the front and back sub-sections are defined by the places occurring therein and not by the changes themselves. If there are no places the sub-section can still be treated as a unit defined by the absence of any places. If there are places, it is defined by the position of these places.

When the treble moves from one dodging

When the treble moves from one dodging place to the next, places must be made both telow and above the treble. These are called cross-section places. The pivot place is made when the treble lies behind. The construction of the half-lead completely defines the method (except for the lead-end place, of course) and to extend it a new half-lead must be constructed bearing an agreed relationship to the parent half-lead.

At this point certain decisions have to At this point certain decisions have to be taken. These are set out quite clearly in the report, but I shall have to restate some of them here. The first is the decision to construct the extension by relating the position of the places to those of the parent. Other systems could have been adopted, but this is the most fundamental, and it is also the most powerful. The second decision is that apart from Double methods, which must remain Double after extension, the parts of the method above and below the treble may be extended quite independently. Thirdly, and in the present context the most important in the present context the most important point, the sub-sections on the one hand and the cross-section places on the other are the units to be used in performing the extension. This requires amplification.

Suppose we consider York Surprise, and further we will consider extending the part below the treble only. The notation of York Surprise Minor is as follows:

-36-14-12-36.14-14.3.

While the treble is in 1-2 there is no front sub-section, and at the 2-3 cross-section, lead is made and must be made on all higher numbers; therefore these can be forgotten. The rest of the method below the treble consists of two front sub-sections, a cross-section place, and the pivot place, these being as follows:

-12-- Front sub-section 3 Cross-section place 14—14 Front sub-section Pivot place.

Now these four items entirely construct the method below the treble, and provided the extensions contain these alone, no work, and no construction of places will appear in the extension which does not already occur in the parent. But they are also to be used as units and not divided or amalgamated in any way so that for example, the subsection way, so that, for example, the sub-section 14.12.14 formed by combining both the above sub-sections could not be employed in the extension. Expansion of places is, however, allowed, so that 16—16 could be used as a direct derivation of 14—14.

The Methods Committee's report defines specifically the allowable arrangements which may be employed on higher numbers, and there are quite a number of ways given which fall basically into two different systems, illustrated by the following two averages. trated by the following two examples:

The accepted extensions of York are the The accepted extensions of York are the actual ones given to illustrate the static type of extension. The extension of Durham, which is rejected, is also of this type. When all the possibilities allowed by the formula have been worked out in a particular case, many and sometimes all will be found to give other than Plain Pole land and send the rest of the than Plain Bob lead ends, and the rest of the report gives qualifying rules designed to ensure that the remaining contenders will have blue lines bearing a proper relation to the parent, and the lead-ends fall in the correct sequence

We now come to the crux of the matter. Applying the same system to Durham, the following static extension corresponds to the one given for York:

```
Minor:
  -12-3.14-34.1
Major:
    -12-3.14-34.3.14-34.1
Royal:
—12—3.14—34.3.14—34.3.14—34.1.
    -12-3.14-34.3.14-34.3.14-34.3.14-34.1
which gives three consecutive blows in thirds a few times!
  A possible alternative would be:
Minor:
   -12-3.14-34.1
Major: —12—3—12—3.14—34.1
Royal:
—12—3—12—3—12—3.14—34.1
Maximus: ___12-3-12-3-12-3.14-34.1
```

but this fails because of the lead-end order.

The extensions rung by the Leicester band, which Mr. Jelley attempts to justify, are these: Minor: -12-3.14-34.1

Major: -12--3.14--14.3.14--34.1 Royal: —12—3.14—14.3.14—14.3.14—34.1

-12-3.14-14.3.14-14.3.14-14.3.14-34.1

Here a new sub-section has been introduced, here a new sub-section has been introduced, borrowed in fact from York; namely the sub-section 14—14. This does not occur in Durham Surprise Minor, and therefore the report excludes this series as a possible extension. 'Even a babe in arms,' as Mr. Jelley puts it, should be able to see that a sub-section foreign to the Minor has been introduced.

I am perfectly able to see the argument given by Mr. Jelley, and perfectly able to see that it preserves a constant relation between York and Durham on all numbers. But the extension of any one method must stand or fall on its own merits. No system of extension could possibly preserve all desirable relationships between the extensions of different methods; the report seeks only to preserve numbers relationships between the various stares methods; the report seeks only to preserve proper relationships between the various stages of extension of the same method. In the long run it would only create new anomalies if the report were modified simply to suit the present case, and I repeat what I said earlier, that no sound theory could possibly be based on a few individual cases.

on a few individual cases.

Has Mr. Jelley applied the formula to the best part of Corrigan's Collection representing some 300 methods? And has he satisfied himself that an alteration to the report could be made which would at the same time allow these extensions of Durham, and cause no extra difficulties? Of course he has not. His suggestion that the report is illogical and out of contact with reality, and that the committee is blinded by its own science, is simply not true. These decisions are perfectly logical and self-consistent within the framework of the axioms decided upon. If Mr. Jelley would like to develop a system, where the units would like to develop a system, where the units were whole-pulls instead of sub-sections, he might manage to cater for these extensions of Durham. But he will have to show that his formula works better than the present one, in hundreds of other cases; and it won't.

Turning to the other methods he mentions, the Feering is rejected as an extension of Beverley for the same reason that the Durham is; namely, the introduction of a sub-section which does not occur in the Minor.

The same is true in going from Beverley Surprise Minor to Lyme Surprise Major, only this time the foreign sub-section is one containing no places.

taining no places.

Beverley: -12-3.14-34.5 Lyme: -0-0-12-3.14-34.5. Once this blank front sub-section is present, it

Once this bank front sub-section is present, it can be used to perform further extensions: thus Lyme Royal is:

-0-0-0-12-314-44.

But this blank sub-section which does not occur in Beverley Minor cannot be produced out of the blue. If this were allowed, any work completely different from the parent method could be introduced, defeating the whole object of having a formula of having a formula.

(Continued next page)

### Method Extension-Cont.

Method Extension—Cont.

I next turn to the suggestion Mr. Jelley makes for an alternative extension of Cambridge. Here Yorkshire Major, Albanian Royal and Southwark Maximus are given as succeeding stages from Cambridge Minor. They are in fact unrelated to the Minor for the same reason as just given, but they could be allowed as static extensions starting from Yorkshire Major. There is nothing inconsistent in this; since two different processes of extension have been allowed by the formula (static or expanding) it is not in the least surprising that certain methods will extend in both ways. Historically the expanding extensions of Yorkshire have been preferred. Mr. Jelley then goes on to say: 'As will be obvious, things are in danger of becoming somewhat confused. If one attempts to remove the confusion by resorting to the Methods Committee's Report on Extensions then the position becomes completely hopeless.' It is Mr. Jelley who is confused. He has apparently tried to apply the formula in this case, and the hopeless position arises from not understanding the report. He has admitted it is not intelligible to him.

Finally, a word about the Bourne and Norwich. Perhaps, the committee is asked, we

Finally, a word about the Bourne and orwich. Perhaps, the committee is asked, we

Norwich. Perhaps, the committee is asked, we would like to comment on them before they are rung. We would. Had we been given the opportunity we would have done so on previous occasions too, but unfortunately Durham and some other methods were rung without consulting us. Mr. Jelley will be pleased to know that the extensions he gives of Bourne and Norwich are quite acceptable.

I trust Mr. Staniforth will not unwisely ignore the Methods Committee's report. As conductor of the peals in question, he should provide forthwith a new name. which will apply to the Major, Royal and Maximus. I do not propose to enter into a long correspondence over this matter: I consider what I have written should be sufficient.—Yours faithfully,

Harrow

JOHN R. MAYNE.

# 'Trying to Put the Clock Back'

Dear Sir,—It was clear to many ringers, when Mr. Staniforth and his very talented band rang the first peal of Durham Surprise Royal in hand,' that there was more to this than an outstanding performance. Subsequently an article and a letter in 'The Ringing World' have confirmed this

have confirmed this.

It is Mr. Staniforth and others, and one at least of these ought to know better, who are trying to 'pull the wool over our eyes' by dragging up once more the whole question of method extension. Mr. Staniforth is correct when he says that the ordinary ringer just does not understand what is involved, and here is a clear case where the view of the experts should be accepted, as indeed it

experts should be determined that been.

I feel the Leicester men are trying to put the clock back. Maybe, because they still have not got ower the shock of having the first peal of London Royal No. 3 in Leicestershire rung by an out-county band.—Yours faithfully, Peterborough.

BRIAN HARRIS.

# Tonne Family Bell Founders

Dear Sir,—I was very interested to read the article on the Tonne family, bell founders of Bury St. Edmunds.

In the Deanery Church of St. Mary, Bocking, there is a bell from these founders. I believe it is the only bell cast by them specifically as a clock bell, and it is still performing its task today.

The bell has the following inscription: 'Nomen Si Queris Cujus Vocor Ipsa Richardus' (If you ask the name by which I am called I am Richard); also a medallion of a man's head believed to be Henry VIII. I hope this may be of some interest to your readers.

readers.

I hope at some future date to submit an article on the rest of the bells in this tower.

—Yours faithfully,

Braintree, Essex.

R. SUCKLING.

# Peal Writing

Dear Sir.—Re letter on peal writing fees in the issue of January 18th. Many members of Associations have no idea of how beautiful are the peal books, and of the number of hours of work put in to make them so. I have at Churchdown one of our peal books, the work of Alfred Reeves, and it is open for inspection by anyone interested who may be passing, either of the G. and B. Association or other Associations. One of our peal books is always available for members to look at at our A.G.Ms. If anyone is coming from a distance to see the If anyone is coming from a distance to see the book, a postcard, giving time, would enable arrangements to be made for someone to be at

home.—Yours sincerely,

CHARLES ROUSE.

Fifty years are—on 19th, 1913—the BELFRY GOSSIP

peal was rung on the bells of St. Bartholomew's Church, Ingham, Suffolk. It was Grandsire Doubles (nine different callings) and the ringers were W. Palfrey (cond.) 1, A. Cutler 2, E. Footer 3, P. Watson 4, W. Bartle 5.

Under review is the augmentation of St. Swithin's, East Grinstead, from eight to ten

Mr. P. A. Sadler has completed 25 years as a ringer at St. Mary's, Prittlewell. The occasion was marked by a quarter peal of Grandsire Caters.

sire Caters.

Manchester University Guild have been very successful in peal ringing lately. This issue contains four of their peals—two Surprise, Stedman Triples and Oxford Bob Triples.

Mr. L. E. Last, with a team of handbell ringers, is to lecture on 'Church Bells and Change Ringing' to the Suffolk Institute of Archæology at Ipswich on March 14th.

All Saints', Isleworth, plan for 1963 to attempt quarter peals for Evensong on the first and second Sundays in each month, and have general ringing on the other Sundays.

The peal of Royal at St. Stephen's, Bristol,

The peal of Royal at St. Stephen's, Bristol, set the conductor rather a headache, as in addition to two firsts, it was also Michael J. Hobbs' 25th peal with Bryn Shackleton and Reg G. Hooper; and Bryn Shackleton's and Don Exell's 25th together!

A notable peal of 12 Spliced Surprise Maximus was rung at Walsall on February 2nd. The method named Walsall is Prittlewell's 12th place variation, states the conductor, Mr. Wilfred Williams.

During Mr. Wilfred Williams' Irish tour last year a peal of Cambridge Royal was rung at St. Patrick's Cathedral on the light ten. At the time it was claimed as the first of Royal on the light ten. A member of St. Patrick's Cathedral band has pointed out that the first on the light ten was Plain Bob Royal on June 17th, 1927, conducted by Gabriel Lindoff

GOSSIP

On the day of the birth of a son to Mr. and Mrs. M. T. Stimson, of Somerby, a peal was quickly arranged. Harry Cook was caught on his milk round and persuaded to stay. Harold Bonshor came in white overalls and carpet slippers. An absentee was Cyril Tyler, captain of the Somerby band, who had such a heavy cold that he couldn't even 'wet the baby's head '!

The Valentine Gosling award has been sent to Mr. J. A. Acres' handbell team—the first to ring the composition.

Messrs. John Taylor had added a sixth bell to the ring of five, all more than 300 years old, at Hartest, near Bury St. Edmunds. An anonymous gift of £100 has been received towards the cost of about £250.

The difficult five bells at Cossington, Leicestershire, rather defy peal ringers. The only two peals on the bells in the last two years despite many attempts were when Maurice Kirk and Michael W. Brown rang the same bells and this was on the same night two years ago.

Congratulations to Mr. W. G. Wilson on his election as Master of the London County Association in succession to Mr. T. H. Taffender, who has held the office for 50 years. A new rule, limiting the office not normally to more than three consecutive years, was passed.

years, was passed.

The band at St. Thomas', South Wigston, Leicester, who are well known for their number of quarter peals during 1962, have now added another success to their list of achievements. For the 70th anniversary of the dedication of the church a peal of Stedman Triples was rung on February 2nd. In the morning (for Holy Communion) a quarter peal of Grandsire and Plain Bob Doubles was rung; on the next day a quarter of Plain Bob Triples was rung for Parish Eucharist, and another of Kent Treble Bob Major for Evensong. All taking part have been taught to ring at St. Thomas' by the conductor and his wife during the last three years, with the assistance of the late Ernest Morris.

# 50 YEARS AGO

' R.W.', Feb. 21, 1913.

The following, which appeared in the Barking 'Parish Magazine,' summarises, about as aptly as anything which we have seen, the art to which we are all so much devoted:

Wanted -- Half a dozen young Churchmen to take up a useful branch of Church work -namely, the science and art of campanology. Vacancies have occurred in the St. Margaret's Society of Change Ringers. Qualifications necessary: Earnestness, enthusiasm, and necessary: Earnestness, enthusiasm, and energy. Preference will be given to those who are prepared to take up ringing seriously, and to give the greater part of their (spare) time to a study which is more brainy than billiards, more captivating than cricket, more fascinating than football, and more pleasurable than the pictures.' Remuneration: More kicks than ha'pence.

# PEAL RINGING AROUND ASHFORD, KENT

The third annual Christmas peal week in the Ashford district, organised once again by the District secretary, Crawford Hillis, with a more peripatetic programme than usual, got off to a good start on Boxing Day when the first of five successful peals was brought round without

serious mishap.

Since enough unappropriated ringers could not be found to ring a peal of Major at Benenden, the little church of Stowting, nestling away an an unpopulated spot under the South Downs, was chosen for the first peal, and we were most pleased that Gay Williams, for whom the original control of the spot of the story of the pleased that Gay Williams, for whom the original peal was arranged, managed to brave the treacherous roads from Benenden to help make up the band. A peal of St. Clement's Bob Minor was rung at a leisurely pace on the little ring of six, it being the first peal in the method by all the band, and the first peal for Peter Richardson, who rang like a veteran.

On the following day, everything got off to a very late start. The heavy drifting that had taken place around the district seemed to have

concentrated its efforts upon Crawford Hillis drive, since it took about an hour to dig his car out. Richard Hough, who had given up waiting to be picked up from Folkestone Station, was dragged, protesting, away from a warm fire. The peal of Double Oxford at Great Mongeham consequently started about an hourand-a-half late, but eventually came round after a liberal number of 6-5's at backstroke. Marion Phillips had the satisfaction of ringing her first peal very creditably, and we were most grateful to her and her parents for a most welcome meal afterwards.

On day three, the writer found himself in the uncompromising position of having to ring a peal at Little Chart and attend a cocktail party simultaneously. Since the latter deemed precedence on the occasion another ringer had to be found. A telegram sent to John Baldwin refound. A telegram sent to John Baldwin requesting him to bring another ringer was suitably 'coded' by the G.P.O. (as has already been reported in the 'R.W.'), but arrived too late to be of any assistance in the situation. However, Peggy Skinner kindly stood in at the eleventh hour, but a peal of Cambridge Minor wound up after two extents.

Nevertheless, this failure was fully redeemed by two good peals when Ian Oram joined up the following day. The heavy six at Witter-

by two good peals when Ian Oram joined us on the following day. The heavy six at Wittersham went fairly well in the morning to a peal of Kent Minor, with the local captain, Mr. Kenneth Hamilton, ringing his first peal inside. During this peal a bird flew into the ringing chamber and took a peculiar attraction to the ringer of the fourth, pecking at the floor around his feet. After the peal we were most around his feet. After the peal we were most hospitably entertained to biscuits, beer and coffee by Sir Victor and Lady Mallett, of Wittersham (both members of the K.C.A.), and photographs were taken in the snow-covered grounds of their beautiful house. During the afternoon a peal of Cambridge Major was rung in the cold belfry at Appledore, breaking the jinx that

has dogged success here on two occasions.

Two peals were planned for the last day of the year, but only one materialised. This took place at Witlesborough, where Peter Richardson, who had excelled himself earlier in the week, repeated his performance by ringing his first peal in three methods 'inside.' The peal was believed to be the quickest of Minor on the was believed to be the quickest of Minor on the bells, and our consultant fourth bell ringer found his bell a considerably easier proposition than that at Wittersham. The other peal was planned as a half-muffled peal of Bristol Surprise at the District's Mother Church at Ashford for the passing of the old year, but the weather had further deteriorated, and although the Ashford and Canterbury contingents managed to get through the London contingent was delayed by the Arctic conditions. By the was delayed by the Arctic conditions. By the time the latter arrived the Canterbury contingent had decided to get back while the roads were passable, so Crawford Hillis and Margaret Jones kindly stood in and, time being limited.

Jones kindly stood in and, time being situated, a good quarter peal of Bob Major was rung. Thus ended another memorable peal week; the score card of played 7, won 5, lost 1, post-poned 1, compared well with previous years. N.J. D.

# QUARTER PEALS

WARNFORD, HANTS.—On Fcb. 6th, 1,260 Doubles (four methods): Maureen White 1, R. A. Stone 2, Mary White 3, K. G. Waller 4, C. E. Bassett (cond.) 5, T. White 6. Half-muffled tribute to Rev. C. A. Millen, Rector, whose funeral took place the same day.
